INDEPENDENT AUDITORS' REPORT

**To the Honorable Mayor and
the Municipal Legislature
Municipality of Arroyo
Arroyo, Puerto Rico**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the **Municipality of Arroyo, Puerto Rico (Municipality)** as of and for the year ended June 30, 2011, which collectively comprise the Municipality's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Municipality's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statements presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the **Municipality of Arroyo, Puerto Rico**, as of June 30, 2011, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 29, 2011, on our consideration of the **Municipality's** internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

INDEPENDENT AUDITORS' REPORT (CONTINUED)

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3 through 12 and 48 be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with the auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the **Municipality of Arroyo's** basic financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the financial statements. The schedule of expenditures of federal awards is the responsibility of management and were derived from and related directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

FOR THE FISCAL YEAR ENDED JUNE 30, 2011

The management of **Municipality of Arroyo**, Puerto Rico (**Municipality**) offers this narrative overview and analysis of the financial activities of the Municipality for the fiscal year ended June 30, 2011. The Management's Discussion and Analysis (MD&A) is designed to focus on the current year activities, resulting changes and currently known facts, and much of the information is comparable to prior year. This MD&A should be read in conjunction with the accompanying basic financial statements and the accompanying notes to those financial statements.

The new reporting model required by Governmental Accounting Standards Board Statement No. 34 was implemented during fiscal 2003-2004. This MD&A is prepared in order to comply with such pronouncement and, among other purposes, to provide the financial statements users with the following major information:

- a broader basis in focusing important issues;
- acknowledgement of an overview of the Municipality's financial activities;
- provide for an evaluation of its financial condition as of the end of the indicated fiscal year, compared with prior year results;
- identification of uses of funds in the financing of the Municipality's variety of activities and;
- assess management's ability to handle budgetary functions.

FINANCIAL HIGHLIGHTS

The following are key financial highlights for the fiscal year:

- ❖ The Municipality's assets exceeded its liabilities at June 30, 2011 by \$20,024,475, and at June 30, 2010 by \$20,650,827, as restated;
- ❖ The Municipality's total net assets decreased by \$ (626,352) during fiscal year 2010-2011;
- ❖ As of June 30, 2011, the Municipality's governmental funds reported combined ending fund balance of \$5,881,767, a decrease of \$ (1,717,358) from the prior year;
- ❖ At June 30, 2011, the Statement of Net Asset presented an unrestricted deficit of \$(8,303,155);
- ❖ During fiscal year 2010-2011, the Municipality issued \$1,345,000 in bonds and notes debts;
- ❖ The Municipality's capital assets inventory increased as a result of this year's operations. Capital assets as of June 30, 2011 were \$32,840,196 (net of accumulated depreciation);
- ❖ The investment in capital assets for this year was \$22,697,418 (net of related debt);
- ❖ Loan principal payments were \$323,000 and \$478,203 in 2011 and 2010, respectively.

OVERVIEW OF THE BASIC FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the Municipality's financial statements. The Municipality's basic financial statements comprise three components: government-wide financial statements; fund financial statements; and notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**COMMONWEALTH OF PUERTO RICO
MUNICIPALITY OF ARROYO**

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

FOR THE FISCAL YEAR ENDED JUNE 30, 2011

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements are composed of: (1) the statement of net assets and (2) the statement of activities. These financial statements can be found immediately following this MD&A. These financial statements are designed to provide readers with a broad overview of the Municipality's finances, in a manner similar to a private-sector business.

STATEMENT OF NET ASSETS

The purpose of the statement of net assets is to attempt to report all assets owned and all liabilities owed by the Municipality. The Municipality reports of all of its assets when it acquires ownership over the assets and reports all of its liabilities when they are incurred. For example, the Municipality reports buildings and infrastructure as assets, even though they are not available to pay the obligations incurred by the Municipality. On the other hand, the Municipality reports liabilities, such as claims and judgments, bonds and notes payable, obligations under capital leases, compensated absences and certain accounts payable and accrued liabilities, even though these liabilities might not be paid until several fiscal years into the future.

The difference between the Municipality's total assets and total liabilities reported in the statement of net assets is presented as net assets, which is similar to the total owners' equity reported by a commercial enterprise in its financial statements. Although the purpose of the Municipality is not to accumulate net assets, as this amount increases or decreases over time, such amount represents a useful indicator of whether the financial position of the Municipality is either improving or deteriorating, respectively.

STATEMENT OF ACTIVITIES

The statement of activities presents information showing how the Municipality's net assets changed during the fiscal year ended June 30, 2011, by presenting all of the Municipality's revenues and expenses. As previously discussed, the items reported in the statement of activities are measured in a manner similar to the approach used by a commercial enterprise in that revenues are recognized when earned or established criteria are satisfied, and expenses are recorded when incurred by the Municipality. Consequently, revenues are reported even when they may not be collected for several months after the end of the fiscal year and expenses are recorded even though they may not have used cash during the current year.

Although the statement of activities looks different from a commercial enterprise's income statement, the difference is only in format, not substance. Whereas the bottom line in a commercial enterprise represents its net income, the Municipality reports an amount described as net change in net assets, which is essentially the same concept.

The focus of the statement of activities is on the net cost of various activities provided by the Municipality. The statement begins with a column that identifies the cost of each of the Municipality's major functions. Another column identifies the revenues that are specifically related to the classified governmental functions. The difference between the expenses and revenues related to specific functions/programs identifies the extent to which each function of the Municipality draws from general revenues or is self-financing through fees, intergovernmental aid, and other sources of resources.

This statement also presents a comparison between direct expenses and program revenues for each function of the Municipality.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

FOR THE FISCAL YEAR ENDED JUNE 30, 2011

GOVERNMENT-WIDE FINANCIAL STATEMENTS (CONTINUED)

Both of the government-wide financial statements of the Municipality are principally supported by taxes and intergovernmental revenues. The governmental activities of the Municipality include; mayor and municipal legislature, general government, public safety, public works, culture and recreation, health and sanitation, human services and welfare, urban development, education and interests. Property taxes, municipal license taxes, sales taxes, and state and federal grants finance most of these activities.

FUND FINANCIAL STATEMENTS

The Municipality's fund financial statements consist of: (1) the balance sheet and (2) the statement of revenues, expenditures and changes in fund balances. These financial statements report the financial position and the results of operations of the Municipality's governmental funds, with an emphasis on the Municipality's major governmental funds.

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Municipality, like most other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Each fund is considered an independent fiscal entity accounted for within a set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenue, and expenditures. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with legal, financial and contractual provisions.

GOVERNMENTAL FUNDS

The Municipality's basic services are reported in the government fund financial statements. The government funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted into cash. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions.

The Municipality adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

NOTES TO THE BASIC FINANCIAL STATEMENTS

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

OTHER INFORMATION

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information containing budget to actual comparisons for the general and major funds.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

GOVERNMENTAL NET ASSETS

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the Municipality, assets exceeded liabilities by \$20,024,475 as of June 30, 2011, versus \$20,650,827 as of June 30, 2010, as restated. Our analysis below focuses on the net assets (**Table 1**) and changes in net assets of the Municipality's governmental activities.

GOVERNMENT-WIDE FINANCIAL ANALYSIS (CONTINUED)

The largest portion of the Municipality's net assets reflects its investment in capital assets (e.g. land, buildings, machinery and equipment), less any related debt used to acquire those assets still outstanding. These capital assets are used to provide services to citizens; consequently these assets are not available for future spending. It should also be noted that the resources required to repay the related debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. An additional portion of the Municipality's net assets represents resources that are subject to external restrictions on how they may be used.

GOVERNMENTAL ACTIVITIES

Governmental activities decreased the Municipality's net assets. Key elements of this decrease are as follows: the Municipality's governmental activities had net expenses of \$(10,632,584). However, these services are intended to be primarily funded by taxes, as opposed to charges for services and grants, and the net expenses exceed those taxes and other general revenues by \$(626,352).

The cost of all governmental activities this year was \$14,894,632. **Table 2** presents the cost of each of the Municipality's largest programs.

Approximately thirty-two percent (32%) of the Municipality's governmental activities total revenue came from taxes, while sixty-six percent (66%) resulted from grants and contributions. Federal grants represent twenty-nine percent (29%) of the Municipality grants revenues. The Municipality's governmental activities expenses included items such as general government, public safety, public works, culture and recreation, health and welfare, economic development, community development, education and interest on long term debts.

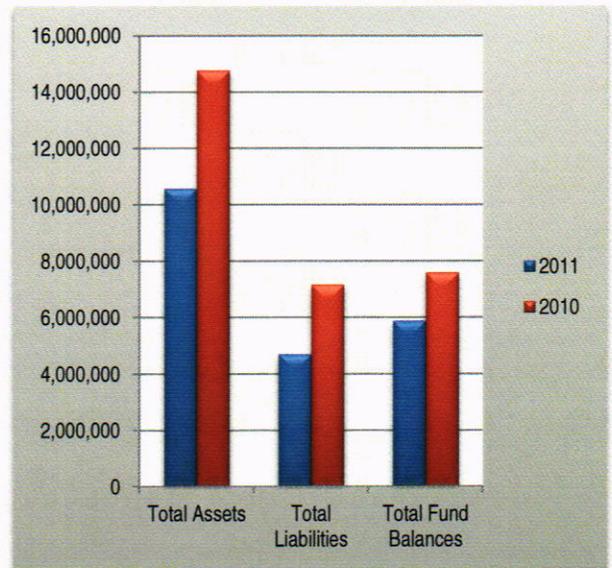

Approximately thirty-seven percent (37%) of total expenses resulted from general government, seventeen percent (17%) from public works, thirteen percent (13%) from culture and recreation and eighteen percent (18%) from health and welfare.

GOVERNMENT FUND FINANCIAL ANALYSIS

As noted earlier, the Municipality uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

GOVERNMENTAL FUNDS

The focus of the Municipality's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Municipality's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of its fiscal year.

At June 30, 2011, the Municipality's governmental funds reported combined ending fund balances of \$5,881,767, a decrease of \$(1,717,358) from the prior year.

As of the end of the current fiscal year, the Municipality's governmental funds reported combined ending fund balances of \$5,881,767, a decrease of \$1,717,358 in comparison with the prior year, as restated. There are reservations of fund balance amounting to \$5,742,697. The combined fund balances include restricted fund balance amounting to \$5,630,485. This is the portion of fund balance that reflects resources that are subject to externally enforceable legal restrictions 1) to pay for specific program purposes (\$1,531,346); 2) to pay for capital projects (\$1,941,369); 3) to pay debt services (\$2,157,770). There are assigned fund balances amounting to \$112,212 that represent resources for specific purposes but do not meet the definition to be classified as restricted or committed (generally executive orders approved by the Mayor).

Within the governmental funds, it is included the general fund which is the chief operating fund of the Municipality. As of June 30, 2011, the general fund has an unassigned fund balance of \$139,070.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

FOR THE FISCAL YEAR ENDED JUNE 30, 2011

BUDGETARY HIGHLIGHTS

Budget and actual comparison schedules are provided in the Basic Financial Statements for the General Fund. The Budgetary Comparison Schedule of the General Fund shows the original adopted budgets, the final revised budget, actual results, and variance between the final budget and actual results for the general and major special revenue funds. **Table 5** summarizes the results of the General Fund's Budgetary Comparison Schedule:

Table 5	Final Budget	Actual Amounts	Variance
Total revenues	\$ 9,188,310	\$ 9,164,744	\$ (23,566)
Total expenditures, encumbrances and other financing uses	<u>9,188,310</u>	<u>8,850,030</u>	<u>338,280</u>
Excess or deficiency	<u>\$ -</u>	<u>\$ 314,714</u>	<u>\$ 314,714</u>

The original and the final budget of the General Fund for the fiscal year ended June 30, 2011 amounted to \$ 9,188,310. The laws and regulations of the Commonwealth mandate a balanced budget.

The total actual revenues (budgetary basis) of the general fund for the fiscal year ended June 30, 2011 were \$9,164,744, which is \$23,566 less than the budgeted revenues. In addition, the total actual expenditures and other financing sources (budgetary basis) of the general fund for the fiscal year ended June 30, 2011 were \$8,850,030, which is \$338,280 less than the budgeted expenditures.

CAPITAL ASSETS AND DEBT ADMINISTRATION

The Municipality's investment in capital assets for its governmental type activities as of June 30, 2011 amounted to \$32,840,196 (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements, furniture and fixtures, vehicles and equipment, and infrastructure. The total increase in the Municipality's investment in capital assets for the current fiscal year was \$2,481,081. **Table 6** present the major classes of capital assets.

LONG-TERM DEBT

At June 30, 2011, the Municipality had total of \$18,570,041 in general obligations and others outstanding debts, as shown in **Table 7**. Of this amount, \$10,932,000 comprises debt backed by the full faith and credit of the government and \$7,638,041 are other obligations.

Table 7 Long Term Debts	Amount
General obligations bonds and notes	\$ 10,932,000
Others	<u>7,638,041</u>
Total Long Term Debts	<u>\$ 18,570,041</u>

The Municipality is required to limit the amount of general obligation debt to 10% of the total assessment of property located within the Municipality in order for the bonds to be repaid with the proceeds of property taxes restricted for debt services. Other obligations include accrued vacation and sick leave and advances of property taxes. More detailed information about the Municipality's long-term liabilities is presented in the notes to the financial statements. The Municipality continues to meet its financial needs through prudent use of its revenues and creative debt financing programs.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

Local, national and international economic factors influence the Municipality's revenues. Positive economic growth is correlated with increased revenues from property taxes, municipal license taxes, sales taxes, charges for services, as well as state and federal grants. Economic growth in the local economy may be measured by a variety of indicators such as employment growth, unemployment, new construction, assessed valuation, and other revenues.

All of these factors were considered in preparing the Municipality's budget for the 2011 fiscal year. Some cost reductions helped fund improvements of existing facilities, public safety and works, economic development initiatives and human service improvements.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Municipality's finances for all those with an interest in the government's finances. Amounts reported for Governmental Activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. In the current period, these amounts are:

Capital Assets Additions	\$ 2,596,596	
Depreciation Expense.....	<u>(984,138)</u>	
Excess of Capital Assets Additions over Depreciation Expense		1,612,458

Debt proceeds provide current financial resources to governmental funds, but issuing debt increases long- term liabilities in the Statement of Net Assets. In the current period, these amounts are:

Bond and Notes Payable	<u>(1,345,000)</u>	
Total Long- Term Debt Issuance		(1,345,000)

Repayments of long-term bonds and notes principal are expenditure in the governmental funds, but the repayment reduces Long–Term Liabilities in the Statement of Net Assets. In the current year the repayments were:

323,000

Repayments of other long-term debts principal are expenditure in the governmental funds, but the repayment reduces Long–Term Liabilities in the Statement of Net Assets. The following amount represented the change in accrued interest from prior year:

MUNICIPALITY OF ARROYO**

NOTES TO THE BASIC FINANCIAL STATEMENTS

FOR THE FISCAL YEAR ENDED JUNE 30, 2011

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The **Municipality of Arroyo, Puerto Rico** (Municipality) was founded in the year 1855, and operates as a governmental unit of the Commonwealth of Puerto Rico, under the Law Number 81 of August 30, 1991, known as "Autonomous Municipalities Law of the Commonwealth of Puerto Rico". The governmental system of the Municipality is composed of the executive and legislative bodies. The Mayor is the Chief Executive Officer and is elected every four years in the general elections of the Commonwealth of Puerto Rico. The legislative body consists of twelve Legislators also elected in the general elections of Puerto Rico for a four-year term.

The Municipality provides services such as: health, public works, sanitation, aids and services to low-income and elderly citizens, public safety, housing and urban development, culture and recreation, planning, zoning and other general and administrative services.

The accounting policies of the Municipality conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The following is a summary of the more significant policies.

The accompanying basic financial statements of the Municipality have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB). The GASB is the standard-setting body for governmental accounting and financial reporting. The GASB periodically updates its codification of the existing Governmental Accounting and Financial Reporting Standards which, along with subsequent GASB pronouncements (Statements and Interpretations) constitutes GAAP for governmental units.

In June 1999, the GASB issued Statement Number 34, *Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments*. This statement establishes new financial reporting requirements for state and local governments. The Municipality adopted the provisions of GASBS No. 34, No. 37 and No. 38. They require new information and restructure much of the information that governments have presented in the past.

The accompanying basic financial statements present the financial position and the results of operations of the Municipality and its various funds and fund types. The basic financial statements are presented as of June 30, 2011, and for the fiscal year then ended. The more significant of these accounting policies are described below and, where appropriate, subsequent pronouncements will be referenced.

In the current year, the Municipality adopted the provisions of GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* (GASB No. 54), which modified the interpretations of certain terms within the definition of the special revenue funds and the types of activities the Municipality may choose to report in those funds. GASB No. 54 also clarified the capital projects fund type definition for better alignment with the needs of preparers and users. Definitions of other governmental fund types were also modified for clarity and consistency.

A. Financial Reporting Entity

In evaluating how to define the Municipality for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the provisions of Statement No. 14, *The Financial Reporting Entity*, of the GASB, as amended by GASB Statement No. 39. The basic, but not the only criterion for including a potential component unit within the reporting entity is if elected officials of a primary government are financially accountable for the entity. Financial accountability exists if the primary governmental appoints a voting majority of the entity's governing body, and if either one of the following conditions exist: the primary government can impose its will on the other entity or the potential exists for the other entity to (1) provide specific financial benefits to or (2) impose specific financial burdens on the primary government.

MUNICIPALITY OF ARROYO**

**NOTES TO THE BASIC FINANCIAL STATEMENTS (CONTINUED)
FOR THE FISCAL YEAR ENDED JUNE 30, 2011**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

A. Financial Reporting Entity (Continued)

A second criterion used in evaluating potential component units is if the nature and significance of the relationship between the entity and a primary government are such that to exclude the entity from the financial reporting entity would render the financial statements misleading or incomplete. GAAP details two methods of presentation: blending the financial data of the component unit's balances and transactions in a manner similar to the presentation of the Municipality's balances and transactions or discrete presentation of the component unit's financial data in columns separate from the Municipality's balances and transactions.

B. Measurement Focus and Basis of Accounting

The relative importance of each criterion must be evaluated in light of specific circumstances in order to determine which components units are to be included as part of the reporting entity. Based on the above criteria, the financial statements of Brisas de Arroyo Housing Project no. 565039950 were included in the general-purpose financial statements as a blended component unit.

Blended Component Unit: Brisas de Arroyo Housing Project is a housing development consisting of one hundred four (104) dwelling units located in Arroyo, Puerto Rico. The Project is owned by the Municipality, but the activities on it are carried-on by a management agent unrelated to the Municipality. The housing development is designated to assist various segments of the general public in obtaining adequate and reasonable priced rental housing. The Project operated under financing from US Department of Agriculture Section 515 Rural Rental Housing Loans Program, and with a Section 8 New Construction and Substantial Rehabilitation Program housing assistance grant agreement with US Housing and Urban Development. For financial reporting purposes, the Housing Project is reported as if it were part of the Municipality's operations because its purpose is to provide low-income housing to citizens of the Municipality. The Financial Statements of the blended component unit can be obtained directly from the Municipality's Chief Financial Officer at PO Box 477, Arroyo, Puerto Rico 00714-0477, or call (787) 839-2030.

Government-Wide Financial Statements

The government-wide financial statements (the Statement of Net Assets and the Statement of Activities) are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grant and similar items are recognized as revenue as soon as all eligibility requirements have been met.

Governmental Fund Financial Statements

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recorded when susceptible to accrual; as soon as it is both measurable and available. "Available" means collectible within the current period or soon enough thereafter, normally within sixty (60) days, to be used to pay liabilities of the current period. Expenditures are generally recognized when the related liability is incurred.

MUNICIPALITY OF ARROYO**

**NOTES TO THE BASIC FINANCIAL STATEMENTS (CONTINUED)
FOR THE FISCAL YEAR ENDED JUNE 30, 2011**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Measurement Focus and Basis of Accounting (Continued)

The exception to this general rule is the principal and interest on general obligation long-term debt and compensated absences, if any, are recognized when due.

In applying the “susceptible to accrual” concept to intergovernmental revenues (federal grants) pursuant to GASBS No. 33, *Accounting and Financial Reporting for Nonexchange Transactions* (the Municipality may act as either provider or recipient), the provider should recognize liabilities and expenses and the recipient should recognize receivables and revenue when the applicable eligibility requirements including time requirements, are met. Resources transmitted before the eligibility requirements are met should, under most circumstances, be reported as advances by the provider and deferred revenue by the recipient.

There are essentially two types of revenue. For some grants, funds must be expended by the Municipality on the specific purpose or project before any amounts will be reimbursed. Revenue is, therefore, recognized as expenditures are incurred to the extent available. For the other revenue, moneys are virtually unrestricted and are generally revocable only for failure to comply with prescribed compliance requirements. These resources are reflected as revenue at the time of receipt or earlier if the susceptible to accrual criteria is met. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. Modifications to the accrual basis of accounting include the following:

- ❖ Employee’s vested annual vacation and sick leave is recorded as expenditure when utilized. The amount of accumulated annual vacation and sick leave unpaid at June 30, 2011, has been reported only in the government-wide financial statements.

C. Financial Statement Presentation

The basic financial statements include both government-wide (based on the Municipality as a whole) and fund financial statements. While the previous financial reporting model emphasized fund types (the total of all funds of a particular type), in the new financial model the focus is on either the Municipality as a whole, or major individual funds (within the basic financial statements). Both the government-wide and fund financial statements (within the basic financial statements) categorize primary activities as either governmental or business type.

Government-Wide Financial Statements

The government-wide financial statements (the Statement of Net Assets and the Statement of Activities) report information of all the activities of the Municipality. For most part, the effect of interfund activity has been removed from these government-wide financial statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The focus of the Statement of Net Assets is designed to be similar to bottom line results for the Municipality and its governmental activities. This statement, for the first time, combines and consolidates governmental fund’s current financial resources (short-term expendable resources) with capital assets and long-term obligations.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Financial Statement Presentation (Continued)

The Statement of Net Assets presents the reporting entities' assets and liabilities, with the difference reported as net assets. Net Assets are reported in three categories:

- ❖ **Invested in Capital Assets, Net of Related Debt** – These consists of capital assets, net of accumulated depreciation and amortization, and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.
- ❖ **Restricted Net Assets** – These results when constraints are placed on net assets use, which can be either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.
- ❖ **Unrestricted Net Assets** – These consists of net assets which do not meet the definition of the two preceding categories. Unrestricted net assets often are designated, to indicate that management does not consider them to be available for general operations. Unrestricted net assets often have constraints on resources that are imposed by management, but can be removed or modified.

When both restricted and unrestricted resources are available for use, generally it is the Municipality's policy to use restricted resources first, then the unrestricted resources as they are needed.

The Statement of Activities is focused on both the gross and net costs per functional category. The statement reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. This is intended to summarize and simplify the user's analysis of cost of various governmental services.

Governmental Fund Financial Statements

The fund financial statements (the Balance Sheet and the Statement of Revenues, Expenditures, and Changes in Fund Balances) are, in substance, very similar to the financial statements presented in the previous financial reporting model. Emphasis here is on the major funds in the governmental category. Non-major funds are summarized into a single column.

Traditional users of governmental financial statements will find the Fund Financial Statements presentation more familiar. The focus is on Major Funds, rather than the previous financial model's fund types. The Governmental Major Fund Statements are presented on current financial resources and modified accrual basis of accounting.

This is the manner in which these funds are normally budgeted. This presentation deemed most appropriate to (a) demonstrate legal and covenant compliance, (b) demonstrate the source and use of liquid resources, and (c) demonstrate how the Municipality's actual experience conforms to the budgeted fiscal plan.

Since the governmental fund statements are presented in a different measurement focus and basis of accounting than the government-wide statements, reconciliation is presented and a separate explanation for each differences.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Financial Statement Presentation (Continued)

The Municipality reports its financial position (Balance Sheet) and results of operations (Statement of Revenues, Expenditures and Changes in Fund Balance) in funds, which are considered separate accounting entities. The operations of each fund are accounted for within a set of self-balancing accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with legal, financial, and contractual provisions.

The new model as defined in GASBS No. 34 established criteria (percentage of the assets, liabilities, revenues, or expenditures/expenses of either fund category in the governmental fund) for the determination of major funds. The non-major funds are combined in a single column in the fund financial statements. The Municipality reports the following major fund:

General Fund – is the Municipality main operating fund used to account for and report all financial and reported resources and governmental activities, except for those required to be accounted for in another fund. It is presumed that the Municipality's governmental activities have been reported in the general fund except for transactions for which one of the following compelling reasons has required the use of another fund: (1) legal requirements, (2) USGAAP requirements or (3) the demands of sound financial administration requiring the use of a governmental fund other than the general fund. Its revenues consist mainly of taxes, licenses and permits, intergovernmental, charges for services and other.

Special Revenue Fund – Federal Grants – is a major governmental fund used to account for and report the proceeds of specific revenue sources that are legally restricted or committed to expenditure for specified purposes other than debt service or capital projects. Resources restricted or committed to expenditure for purposes normally financed from the general fund are generally accounted for in the general fund provided that all applicable legal requirements can be appropriately satisfied and the use of special revenue funds is not required unless they are legally mandated.

Capital Projects Fund – State & Local Grants – is a major governmental fund used to account for and report financial resources that are restricted or committed to expenditure for capital outlays, including the acquisition or construction of major capital facilities, including those outlays financed by the general obligation bond proceeds (other than those financed by proprietary funds or in trust funds for individuals, private organizations, or other governments). The use of the capital projects funds has been limited to only for major capital acquisitions, construction or improvement activities that would distort financial resources trend data if not reported separately from the other Municipality's operating activities. The routine purchases of minor capitalizable assets (such as furniture, office equipment, vehicles and other minor capital assets or improvements) have been reported in the governmental fund from which financial resources were used for the payment.

Debt Service Fund – is a major governmental fund used to account for and report for the accumulation of financial resources that are restricted for, and the payment of, principal and interest for: (1) bonds payable for which debt service payments are legally mandated to be accounted for in a debt service fund and (2) certain special long-term obligations for which the Municipality is been accumulating financial resources in advance to pay principal and interest payments maturing in future years.

GASBS No. 34 eliminates the presentation of Account Groups, but provides for these records to be maintained and incorporates the information into the Governmental column in the Government-Wide Statement of Net Assets.

The accounts of the Municipality are organized on the basis of funds, each if which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures. Fund types are as follows:

General Fund – Is the general operating fund of the Municipality. It is used to account for all governmental activity, except those required to be accounted for in another fund.

Special Revenue Fund – Local and State Grants – Special Revenue Funds are used to account for revenues derived from local funds, state grants or other restricted revenue sources. The uses and limitations of each special revenue fund are specified by Municipality ordinances and state statutes.

The uses and limitations of each special revenue fund are specified by Municipality ordinances or federal and state statutes.

Special Revenue Fund – Housing Project – Special Revenue Funds are used to account for revenues derived from the blended component unit activities. The uses and limitations of each special revenue fund are specified by Municipality ordinances or federal and state statutes.

Special Revenue Fund – Federal Grants – Special Revenue Funds are used to account for revenues derived from federal grants. The uses and limitations of each special revenue fund are specified by Municipality ordinances or federal and state statutes.

Capital Projects Fund – State and Local Grants – Capital Projects Fund are used to account for financial resources used for the acquisition or construction of major capital facilities.

Capital Projects Fund – Federal Grants – This is the fund used to account for revenues derived from federal grants related to capital projects. The uses and limitations of each capital projects fund are specified by Municipality ordinances or federal and state statutes.

Debt Service Fund – Debt Service Fund are used to account for the accumulation of resources for and the payment of, general long-term debt principal, interest, and related costs.

D. Budgetary Data

The Municipality annually adopts the Budget Resolution for all operating funds of the Municipality except for certain restricted accounts of Proprietary Funds and Special Revenue Funds. Budgetary control is legally maintained at the fund level. The budget is prepared using the modified accrual basis of accounting with encumbrance included as budgetary basis expenditures. The Municipality's Budget Resolution provides transfer authority (1) to the Mayor and the Management and Budget Director, within and between departments and funds, as long as the total budget of the Municipality (net of interfund transfers) is not increased; (2) to the Management and Budget Director to implement grant budgets as the grant applications are accepted by the Municipality; and (3) to the Management and Budget Director to amend (re-appropriate) each new year's budget, to the extent of outstanding encumbrances, and/or unexpended project/grant appropriations at year end. Municipality's Legislature action is required for (1) use of the budgeted Legislature contingency, and (2) the approval of supplemental appropriations. During the year, several supplemental appropriations were necessary.

The budget columns (original and final budgets) of the Budgetary Comparison – General Fund reflect the original budget and the amended budget (which have been adjusted for legally authorized revisions of the annual budgets during the year). Appropriations, except remaining project appropriations, encumbrances, and unexpended grant appropriations, lapse at the end of each fiscal year.

D. Budgetary Data (Continued)

Amendments to the budget, including transfers, require the approval of the Municipal Legislature. Unencumbered appropriations lapse at the end of the next fiscal year. The Municipality follows these procedures, in accordance with law, in order to establish the budgetary data reflected in the basic financial statements:

1. Prior of May 15 of each fiscal year, the Mayor submits to the Municipal Legislature a proposed budget for the fiscal year commencing the following July 1 in addition of a budget message.
2. The budget document is available for public inspection prior to its approval by the Municipal Legislature.
3. The Commissioner of Municipal Affairs examines the budget to verify if it complied with the law's standards and sends it to the Mayor for any comments or recommendation before the limited date establishes by the Law.
4. Prior to June 13, the annual budget is legally enacted through passage of the annual appropriation ordinance.
5. If a budget is not adopted prior to the end of the end of the fiscal year, the annual budget for the preceding fiscal year, as approved by the Municipal Legislature and the Mayor, is automatically renewed for the ensuing fiscal year until a new budget is approved. This permits the Municipality to continue making payments for its operating and other expenses until the new budget is approved.
6. Subsequent to the enactment of the annual appropriation ordinance, the Municipal Legislature has the authority to make necessary amendments made during the fiscal year and are reflected in the budget information included in the Budgetary Comparison Schedule – General Fund.

Since the budgetary basis differs from accounting principles generally accepted in the United States of America (GAAP), actual amounts for the General Fund in the accompanying Budgetary Comparison Schedule, is presented on the budgetary basis to enhance comparability.

The principal differences between the budgetary and GAAP bases are the following:

1. Encumbrances are recorded as expenditures under the budgetary basis and as a reserve of fund balances under GAAP.
2. The non-exonerated portion of the property tax advances are presented as revenue in the budgetary basis and as other financing sources under GAAP.
3. Interfund transactions of the General and Special Revenue Funds are not included in the budgetary basis.
4. Certain accrued liabilities and other debts are not included in the budgetary basis.
5. Certain revenues susceptible to accrual, i.e., both measurable and available, are not included in the budgetary data.

All encumbrance appropriations in the operating budget lapse at the end of the fiscal year. Property taxes collected during the current year by the Municipal Revenue Collection Center (Fiscal Agent) are presented as revenues in the accounting basis but are not considered in the budgetary schedule.

D. Budgetary Data (Continued)

The special funds of the Special Revenue Fund have not been included in the budgetary comparison because balances are not budgeted. Also the budget prepared for the Federal Finance Awards Programs included in the Capital Projects and Special Revenue Funds is based on a program period which is not necessarily a year. Accordingly, it's not practical to present an annual comparison of budget for such programs.

E. Cash, Cash Equivalent and Investment

The Director of Finance of the Municipality is responsible for investing the available resources in certificates of deposit and other short-term investments. Investments are made from the available combined funds of the Municipality and, accordingly, it is not practical to disclose certificates of deposit and other short-term investments individually by fund in the combined financial statements. Interest earned on certificates of deposit and other short-term investments are recognized as revenue in the General Fund. Cash in the Special Revenue, Debt Service and Capital Project Funds are restricted; accordingly, resources available were not used for pool investments.

Under the laws and regulations of the Commonwealth, public funds deposited by the Municipality in commercial banks must be fully collateralized for the amounts deposited in excess of the federal depository insurance generally provided by the Federal Deposit Insurance Corporation (FDIC). All securities pledged as collateral are held by agents designated by the Commonwealth's Secretary of the Treasury, but not in the Municipality's name.

Cash with fiscal agent represents property tax collections retained by the Municipal Revenues Collection Center and undisbursed proceeds of certain bonds, loans or grants which are maintained in a cash custodian account by the Government Development Bank of the Commonwealth of Puerto Rico. The sinking fund is maintained by the Governmental Development Bank of Puerto Rico, agency which acts as the insurer and payer of the Municipality's bonds and notes issued in accordance with law.

F. Receivables

Receivable are stated nets of estimated allowances for uncollectible accounts, which are determined upon past collection experience and current economic conditions. Receivable from Federal Government represents amounts owed to the Municipality for reimbursement of expenditures incurred pursuant to federally funded programs.

G. Inventories

The General, Special Revenue and Capital Project Funds, purchases office and printing supplies, gasoline, oil and other expendable supplies held for consumption. The cost of purchases is recorded as expenditure in the appropriate fund and the inventory is not recorded in the basic financial statements.

H. Capital Assets

Property, plant and equipment purchased or acquired is carried at historical cost or estimated historical cost. Contributed assets are recorded at fair market value as of the date received. The Municipality's capitalization levels are \$500 on personal property. For improvements other than buildings, the capital outlay must be greater than \$10,000, extend the estimated useful life for ten years, and be greater than 10% of the original cost of the asset. Other costs incurred for repairs and maintenance is expensed as incurred.

H. Capital Assets (Continued)

Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Capital Assets	Years
Buildings and site improvements	40
Infrastructure	40
Works of art	10
Motor vehicles, furniture and fixtures	5
Machinery and equipments	3-5

- I. Deferred revenues-** In the GFFS, deferred revenues arises when one of the following situations occur:
- a. Potential revenue does not meet both the “measurable” and “available” criteria for revenue recognition in the current period (unavailable revenue). As previously discussed, available is defined as due (or past due) at June 30, 2011 and collected within 60 days thereafter to pay obligations due at June 30. In subsequent periods, when both criteria are met, the liability for deferred revenue is removed and revenue is recognized.
 - b. The Municipality receives resources before it has a legal claim to them (unearned revenue). In subsequent periods, when the revenue recognition criterion is met, the liability for deferred revenue is removed and revenue is recognized.

Deferred revenues at the government-wide level arise only when the Municipality receives resources before it has a legal claim to them.

J. Long-Term Obligations

The liabilities reported in the government-wide financial statements included general and special obligation bonds and notes, and other long-term liabilities, such as vacation, sick leave, litigation, long-term liabilities to other governmental entities.

In the fund financial statements, governmental fund types recognize bond issuances cost, during the current period. The face amount of debt issued is reported as other financing sources, while bond issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

K. Compensated Absences

The Municipality accrues accumulated unpaid vacation and sick leave and associated employee-related costs when earned (or estimated to be earned) by the employee. The Municipality’s employees are granted 30 days of vacations and 18 days of sick leave annually. Vacations may be accumulated up to a maximum of sixty (60) days and sick leave up to a maximum of ninety (90) days. In the event of employee resignation, the employee is paid for accumulated vacation days up to the maximum allowed. Separation from employment prior to use of all or part of the sick leave terminates all rights for compensation, except for employees with ten years of service who are entitled to sick leave pay up to the maximum allowed. The Municipality accrued a liability for compensated absences, which meet the following criteria:

1. The Municipality's obligation relating to employee's rights to receive compensation for future absences is attributable to employee's services already rendered.
2. The obligation relates to rights that vest or accumulate.
3. Payment of the compensation is probable.
4. The amount can be reasonably estimated.

K. Compensated Absences (Continued)

In accordance with the above criteria and requirements as established by GASBS No. 16; the Municipality has accrued a liability for compensated absences, which has been earned but not taken by Municipality's employees. For the government-wide statements, the current portion is the amount estimated to be used in the following year. For the governmental funds statements, all of the compensated absences are considered long-term and therefore, are not a fund liability and represents a reconciling item between the fund level and government-wide presentations.

The following is a summary of changes in the balance of Compensated Absences for the fiscal year ended June 30, 2011.

BALANCE JULY 1, 2010	NEW ISSUES	RETIREMENTS AND CURRENT MATURATES	BALANCE JUNE 30, 2011	CURRENT PORTION	LONG-TERM PORTION
\$ 1,113,259	\$ 148,829	\$ -	\$ 1,262,088	\$ 125,000	\$ 1,137,088

L. Insurance

The Municipality has insurance coverage for its public facilities, primarily to provide protection from catastrophic losses. Also, principal officials of the Municipality are covered under various surety bonds. The Secretary of the Treasury Department of the Commonwealth of Puerto Rico is the agent commissioned to place all of the Municipality's insurance coverage. Corresponding premiums payable are withheld by the Municipal Revenue Collection Center from quarterly advances of annual property tax and subsidy sent to the Municipality.

M. Interfund Transactions

Interfund transactions are reflected as loans, reimbursements or transfers. Loans are reported as receivables and payables as appropriate and are subject to elimination upon consolidation. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide columnar presentation. The Municipality has the following types of reciprocal and nonreciprocal interfund activities:

- ❖ **Interfund loans** – Represent amounts provided with a requirement for repayment, which are recorded as “due from” in the lender governmental fund and “due to” in the borrower governmental fund. Interfund receivables, which are not considered currently available financial resources, are reported as advances. For amounts not expected to be collected within a reasonable period, interfund receivables/payables are reduced to the estimated realizable value and the amount that is not expected to be repaid is reported as a transfer from the governmental fund that made the loan.
- ❖ **Interfund transfers** – Represent flows of assets (permanent reallocation of financial resources among governmental funds) without equivalent flows of assets in return and without a requirement for repayment. Transfers are reported as other financing uses in the governmental fund making transfers and as other financing sources in the governmental fund receiving transfers.
- ❖ **Interfund reimbursements** – Represent repayments from the governmental fund responsible for particular expenditures or expenses to the governmental fund that initially paid for them.

N. Reservations of Fund Balance – Governmental Funds

In the current year, the Municipality adopted the provisions of GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* (GASB No. 54), which enhanced the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied. This statement establishes fund balance classifications that comprise a hierarchy upon the use of the resources reported in governmental funds

Pursuant to the provisions of GASB No. 54, the accompanying GFFS report fund balance amounts that are considered restricted, assigned, and unassigned, based on the relative strength of the constraints that control how specific amounts can be spent, as described as follows:

- ❖ **Restricted** – Represent resources that can be spent only for the specific purposes stipulated by constitutional provisions, external resource providers (externally imposed by creditors or grantors), or through enabling legislation (that is, legislation that creates a new revenue source and restricts its use). Effectively, restrictions may be changed or lifted only with the consent of resource providers.
- ❖ **Assigned** – Represent resources intended to be used by the Municipality for specific purposes but do not meet the criteria to be classified as restricted or committed (generally executive orders approved by the Mayor). Intent can be expressed by the Municipal Legislature, the Mayor or by an official or body to which the Municipal Legislature delegates authority in conformity with the Autonomous Municipalities Act of Puerto Rico, as amended. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed.
- ❖ **Unassigned** – Represent the residual classification for the Municipality's general fund and includes all spendable amounts not contained in the other classifications. In other funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

Negative fund balance amounts are assigned amounts reduced to the amount that will raise the fund balance to zero. Consequently, negative residual amounts in restricted, committed and assigned fund balance classifications have been reclassified to unassigned fund balances.

The Municipality reports resources constrained to stabilization as a specified purpose (restricted or committed fund balance in the general fund) only if: (1) such resources meet the other criteria for those classifications, as described above and (2) the circumstances or conditions that signal the need for stabilization are identified in sufficient detail and are not expected to occur routinely. However, the Municipality has not entered into any stabilization-like arrangements, nor has set aside material financial resources for emergencies and has not established formal minimum fund balances amounts as of for the fiscal year ended June 30, 2011.

In situations when expenditure is made for a purpose for which amounts are available in multiple fund balance classifications, the Municipality generally spends committed resources first, and then unrestricted resources. Within unrestricted resources, the Municipality generally spends committed resources first, followed by assigned resources, and then unassigned resources.

O. Claims and Judgments

The estimated amount of the liability for claims and judgments, if any, which is due on demand, such as from adjudicated or settled claims, is recorded in the General Fund. The Long-Term Liabilities includes an amount estimated as a contingent liability or liabilities with a fixed or expected due date, which will require future available financial resources for its payment.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

P. Use of Estimates

The preparation of the basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the basic financial statements and the reported revenue and expenses during the reporting period. Actual results could differ from those estimates.

Q. Accounting for Pension Costs

For the purpose of applying the requirements of GASB Statement No. 27, *Accounting for Pensions by State and Local Government Employers* (GASB No. 27), the state government of the Commonwealth of Puerto Rico is considered to be the sponsor of the Employees' Retirement System of the Government of Puerto Rico and its Instrumentalities (ERS) and System 2000, a multi-employer cost-sharing defined benefit pension plan and a hybrid defined contribution plan, respectively, in which the employees of the Municipality participate. The Municipality is considered a participant and not a sponsor, of these retirement systems since the majority of the participants in the aforementioned pension trust funds are employees of the Commonwealth of Puerto Rico and the basic financial statements of such retirement systems are part of the financial reporting entity of the Commonwealth of Puerto Rico. Accordingly, no portion of the net pension obligation (NPO) related to ERS has been allocated to the Municipality in the accompanying basic financial statements. The basic financial statements of the Commonwealth of Puerto Rico report the total amount of the net pension obligation of ERS, including any amount that may correspond to the Municipality.

The Municipality accounts for pension costs from the standpoint of a participant in a multiple-employer cost-sharing plan. Accordingly, pension costs recognized in the accompanying basic financial statements are equal to the statutorily required contributions, with a liability recorded for any unpaid required contributions.

R. Risk Financing

The Municipality carries commercial insurance to cover casualty, theft, tort claims and other losses. Insurance policies are negotiated by the Puerto Rico Treasury Department and costs are allocated among all the Municipalities of Puerto Rico.

Cost of insurance allocated to the Municipality and deducted from the gross property tax collections by the Municipal Revenue Collection Center ("CRIM") for the year ended June 30, 2011 amounted to \$159,243. The current insurance policies have not been cancelled or terminated. The CRIM also deducted \$120,832 for workers compensation insurance covering all municipal employees.

S. Future Adoption of Accounting Pronouncements

The GASB has issued the following statements that have effective dates after June 30, 2011:

- ❖ GASB Statement No. 60, *Accounting and Financial Reporting for Service Concession Arrangements* (GASB 60). The requirements of this statement are effective for the fiscal year commencing on July 1, 2011.
- ❖ GASB Statement No. 61, *The Financial Reporting Entity* (GASB 61). The requirements of this statement are effective for the fiscal year commencing after June 15, 2012.

- ❖ GASB Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA pronouncements* (GASB 62). The requirements of this statement are effective for the fiscal year commencing on July 1, 2012.
- ❖ GASB Statement No. 63, *Financial Reporting Deferred Outflows of Resources, Deferred Inflows of Resources and Net Position*. The requirements of this statement are effective for the fiscal year commencing on December 15, 2011.
- ❖ GASB Statement No. 64, *Derivative Instruments: Application of Hedge Accounting Termination Provision (amendment to GASB Statement No. 53)*. The requirements of this statement are effective for the fiscal year commencing on June 15, 2011.

The impact of these statements on the Municipality's basic financial statements has not yet been determined.

NOTE 2 – CASH AND CASH EQUIVALENTS

The Municipality maintains its deposits in various commercial banks located in Puerto Rico and Government Development Bank for Puerto Rico (GDB). Proceeds from bonds and funds related to certain grant awards are required by law to be held with GDB.

The Municipality adopted the provisions of GASB Statement No. 40 (GASB No. 40), *Deposit and Investment Risk Disclosure, an Amendment to GASB Statement No. 3*. This statement requires that state and local governments disclose essential risk information about deposits and investments. The disclosure requirements cover four main areas: (1) credit risk, (2) interest rate risk, (3) custodial credit risk, (4) foreign exchange exposure.

Credit risk – This is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. In compliance with the laws and regulations of the Commonwealth, the Municipality has adopted, as its custodial and credit risk policy, the *Statement of Investment Guidelines for the Government of the Commonwealth of Puerto Rico*. Accordingly the Municipality invests only in obligations of the Commonwealth, obligations of the United States of America, certificates of deposits, commercial paper, bankers' acceptances, or in pools of obligations of the municipalities of Puerto Rico, which are managed by GDB. According to the aforementioned investment guidelines, the Municipality does not invest in marketable securities or any types of investments for which credit risk exposure may be significant. Therefore, the Municipality's management has concluded that the risk related to any possible loss related to defaults by commercial banks on the Municipality's deposits is considered low at June 30, 2011.

Interest rate risk – This is the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment. The Municipality manages its exposure to declines in fair values by: (1) not including debt investments in its investment portfolio at June 30, 2011, (2) limiting the weighted average maturity of its investments to three months or less, and (3) keeping most of its bank deposits in interests bearing accounts generating interests at prevailing market rates. At June 30, 2011, the Municipality's investments in certificates of deposits are recorded at cost, which approximates their fair value. Therefore, the Municipality's management has concluded that at June 30, 2011, the interest rate risk associated with the Municipality's cash and cash equivalents is considered low.

**COMMONWEALTH OF PUERTO RICO
MUNICIPALITY OF ARROYO**

NOTES TO THE BASIC FINANCIAL STATEMENTS (CONTINUED)

FOR THE FISCAL YEAR ENDED JUNE 30, 2011

NOTE 2 – CASH AND CASH EQUIVALENTS (CONTINUED)

Custodial credit risk – In the case of deposits, this is the risk that in the event of a bank failure, the Municipality's deposits may not be recovered. Pursuant to the *Statement of Investment Guidelines for the Government of the Commonwealth of Puerto Rico* the balances deposited in commercial banks by the Municipality are insured by the Federal Deposit Insurance Corporation (FDIC) generally up to a maximum of \$250,000 per depositor. In addition, public funds deposited in commercial banks by the Municipality are fully securities pledged as collateral are held, in the Municipality's name, by the agents of the Commonwealth's Secretary of Treasury. Deposits with GDB are uninsured and uncollateralized. However, no losses related to defaults by GDB on deposit transactions have been incurred by the Municipality through June 30, 2011. Therefore, the Municipality's management has concluded that at June 30, 2011 the custodial credit risk associated with the Municipality's cash and cash equivalents is considered low.

Foreign exchange risk – The risk that changes in exchange rates will adversely affect the value of an investment or a deposit. According to the aforementioned investment guidelines, the Municipality is prevented from investing in foreign securities or any other types of investments in which foreign exchange risk exposure may be significant. Accordingly, management has concluded that the foreign exchange risk related to the Municipality's deposits is considered low at June 30, 2011.

The Municipality's bank balances in commercial banks of \$519,757 in the general fund and \$735,130 in the special revenue were fully collateralized at June 30, 2011. In the other governmental funds, there were deposits with commercial banks of \$1,663,614 that were fully collateralized.

The deposits at GDB of \$1,379,945 in the general fund, the \$3,429 in the special revenue fund – federal grants, the \$2,437,328 in the capital projects fund – state and local grants, and the \$2,123,359 in the debt service fund are unsecured and uncollateralized, as no collateral is required to be carried by governmental banks.

NOTE 3 – RECEIVABLES

A. Municipal Sales and Use Taxes Receivable

As described below in Note 14, the Municipal Legislature approved the imposition of the municipal sales and use tax during fiscal year 2006-2007. Individuals, organizations and entities subject to collect the municipal sales and use tax must file a tax return to the Municipality. Tax is due each 20th day of each month based on tax collected in the preceding month. Therefore, sales tax receivable of \$61,541 in the general fund and \$29,236 in the debt service fund represents the amount due by the taxpayers at June 30, 2011.

B. Intergovernmental Receivables

Intergovernmental receivable in the special revenue fund – federal grants represent expenditures incurred not yet reimbursed by the federal agencies or the pass-through grantors. Following is a detail of the intergovernmental receivable:

A. LEGAL DEBT MARGIN

The Municipality is subject to a legal debt margin requirement, which is equal to 10% of the total assessment of property located within the Municipality plus balance of the ad valorem taxes in the debt service fund, for bonds payable to be repaid with the proceeds of property taxes restricted for debt service. In addition, before any new bonds are issued, the revenues of the debt service fund should be sufficient to cover the projected debt service requirement. Long-term debt, except for the bonds payable, is paid with unrestricted funds.

D. COMPENSATED ABSENCES

The government-wide statement of net assets includes \$859,703 of accrued sick leave benefits, and \$402,385 of accrued vacation benefits, representing the Municipality's commitment to fund such costs from future operations.

E. CLAIMS AND JUDGMENTS

Liabilities of \$121,422 reported in the statement of net assets represent the balance owed for claims and judgments at June 30, 2011, as described in Note 18.

F. PROPERTY TAX DEBT – LAW 42

On January 26, 2000, Act No. 42 was enacted to authorize the CRIM to enter into a financing agreement of up to \$200 million, for a term not exceeding 30 years. The financing agreement allows for the financing of a debt that the municipalities of Puerto Rico have with the CRIM, arising from the final settlements of property tax advances versus actual collections through fiscal year 2000. The amounts that the municipalities will collect from the additional property taxes resulting from the increases in the subsidy from the Commonwealth to the municipalities are assigned through this law to repay such loan. The increase in this subsidy was the result of the Public Law No. 238 of August 15, 1999. The outstanding balance of the note payable to the CRIM at June 30, 2011 amounted to \$2,113,493.

G. PROPERTY TAX DEBT – LAW 146

On September 24, 2002, the CRIM, on behalf of the municipalities of Puerto Rico, entered into a financing agreement with GDB pursuant to the provisions of Law No. 146 of October 11, 2001. The purpose of this financing agreement was to extinguish in advance certain bonds payable issued by the Public Finance Corporation, a subsidiary of the GDB, which were originally issued to pay certain property tax receivables owned by the municipalities of Puerto Rico through 1996. The outstanding balance of the note payable to the CRIM at June 30, 2011 amounted to \$512,188.

H. PROPERTY TAX DEBT – FINAL LIQUIDATION

Property tax debt of \$75,595 reported in the statement of net assets represents the balance owed resulted from CRIM final liquidation, as described in Note 18.

I. LANDFILL OBLIGATION

The \$1,659,276 reported as landfill obligation at June 30, 2011, represents an estimate related to closure and post closure costs, as described in Note 10.

J. LIMS REPAYMENT PLAN

During the fiscal year 2001-2002, the Municipality authorized the CRIM to retain the corresponding portion for the financing project of Land Information Management System – LIMS, contracted by the CRIM. A total of \$248,774 is to be retained in a ten years period at an interest rate of 5.95%, until November 28, 2011. At June 30, 2011, the outstanding debt balance was \$16,201. This amount will be presented in the government wide statement of net assets.

K. PUERTO RICO AQUEDUCT AND SEWER AUTHORITY

During past years, the Municipality entered into a financing agreement with Puerto Rico Aqueduct and Sewer Authority, for the payment of the Municipality's debt for water and sewer services. The balance at June 30, 2011 of this agreement was \$7,000.

NOTE 10 – LANDFILL OBLIGATION

State and federal laws and regulations require the Municipality to place a final cover on its landfill site, when it stopped accepting waste, and perform certain maintenance and monitoring functions at the site for 30 years after closure. In accordance with Statement No. 18 of the GASB, "Accounting for Municipal Solid Waste Landfill Closure and Post-closure Care Costs", the Municipality has performed a study of the activities that need to be implemented at the Municipality's landfill to guarantee the maximum yield of available space and to comply with applicable state and federal regulations.

Based on this study, the Municipality has recognized \$1,659,276 as the Municipality's estimated current cost for landfill closure and post-closure costs as of June 30, 2011. The annual estimate of post closure costs has been assessed approximately to be \$15,500 for a period of approximately 30 years. Actual costs may be different due to inflation, changes in technology, or changes in laws and regulations. The balance of closure and post-closure costs are reported in the government-wide statement of net assets.

NOTE 11 – DEBT RETIREMENT

Revenues of the debt service fund consist of the ad-valorem property taxes which are recognized as revenue when collected from taxpayers and reported by the Municipal Revenue Collection Center of the Commonwealth of Puerto Rico to the Municipality.

These property taxes are accumulated by the Municipal Revenue Collection Center in costs of the general obligations bonds issued by the Municipality. Payments are made to the Government Development Bank of the Commonwealth of Puerto Rico from such accumulated funds by the Municipal Revenue Collection Center of Puerto Rico.

NOTE 12 – PROPERTY TAXES

The personal property tax is self assessed by the taxpayer on a return which is to be filed by May 15 of each year with the Municipal Revenue Collection Center (CRIM), a governmental entity created by the government of Puerto Rico as part of the Municipal Governmental Autonomous Law of August 1991. Real property tax is assessed by the CRIM on each piece of real estate and on each building.

The assessment is made as of January 1 of each year and is based on current values for personal property and on estimated values as of 1957 for real property tax. The tax on personal property must be paid in full together with the return by May 15. The tax on real property may be paid in two installments by July 1 and January 1. The CRIM is responsible for the billing and collections of real and personal property taxes on behalf of all the municipalities of Puerto Rico. Prior to the beginning of each fiscal year, the CRIM informs the Municipality of the estimated amount of property tax expected to be collect for the ensuing fiscal year. Throughout the year, the CRIM advances funds to the Municipality based on the initial estimated collections.

**COMMONWEALTH OF PUERTO RICO
MUNICIPALITY OF ARROYO**

NOTES TO THE BASIC FINANCIAL STATEMENTS (CONTINUED)

FOR THE FISCAL YEAR ENDED JUNE 30, 2011

NOTE 12 – PROPERTY TAXES (CONTINUED)

The CRIM is required by law to prepare a settlement statement on a fiscal year basis, whereby a comparison is made between the amounts advanced to the Municipality and amounts actually collected from taxpayers. This settlement has to be completed on a preliminary basis not later than three months after fiscal year-end, and a final settlement made not later than six months after year-end. If the CRIM remits to the Municipality property tax advances, which are less than the tax actually collected, a receivable from the CRIM is recorded at June 30. However, if advances exceed the amount actually collected by the CRIM, a payable to the CRIM is recorded at June 30.

On January 26, 2000, Public Law No. 42 was enacted which authorized the CRIM to obtain a loan up to \$200,000,000, and for a term not to exceeding 10 years, to allow for the financing of the debt that the Municipalities of Puerto Rico have with the CRIM arising from final settlements of property tax advances versus actual collections through fiscal year ended June 30, 2000. The amounts that the Municipalities will collect from additional property taxes resulting from increases in the subsidy from the Commonwealth of Puerto Rico to the Municipalities are assigned through this law to repay such loan. The increase in this subsidy was the result of the Public Law No. 238, enacted on August 15, 1999. On October 11, 2001, Public Law No. 146 was enacted to amend Public Law No. 42, to extend the loan amortization period up to 30 years.

Also, on October 11, 2002, Public Law No. 172 was enacted, to provide as an option for the Municipalities to include the debt that the Municipalities of Puerto Rico have with the CRIM arising from final settlements of property tax advances versus actual collections for the fiscal year ended June 30, 2001 with the loan authorized through Public Law No. 42 enacted on January 26, 2000.

On June 26, 1997, Public Law No. 21 was enacted authorizing the CRIM, among other things, to sell the property tax receivables related to taxpayers who owned property taxes from 1974 to 1996. Such property tax receivables were purchased by the Public Financing Corporation, a subsidiary of the Government Development Bank of Puerto Rico (GDB) using the proceeds of a bond issuance executed for such purposes. Said Law imposed the CRIM the obligation to replace uncollectible property tax receivables with any valid property tax receivable or equivalent in money.

Subsequent to the approval of the Law and to the sale transaction, it was detected that a substantial percentage of the receivables sold were uncollectible. In order to protect the economic damage to the financial structure of municipalities caused by the substitution of uncollectible tax receivables with sound collectible receivables, on October 11, 2001, Public Law No. 146 was approved and enacted. Through this Law, the CRIM was authorized to obtain a loan from any qualified financial institution and pay in advance the outstanding balance of the bonds issued and any related cost incurred for the purchase by the Public Financing Corporation (a GDB subsidiary) of the tax receivables. The loan is being paid by the municipalities thru a 30 year long term financing negotiated by the CRIM with GDB on behalf of such municipalities as authorized by the indicated Law.

Residential real property occupied by its owner is exempt by law from the payment of property taxes on the first \$ 15,000 of the assessed value. For such exempted amounts, the Puerto Rico Treasury Department assumes payment of the basic tax to the Municipalities, except for property assessed at less than \$ 3,500 for which no payment is made. As part of the Municipal Autonomous Law of 1991, the exempt amount to be paid by the Puerto Rico Treasury department to the Municipalities was frozen as of January 1, 1992. In addition, the law grants a tax exemption from the payment of personal property taxes of up to \$50,000 of the assessed value to retailers having annual net sales of less than \$ 150,000.

The annual tax rate is 8.83% for real property and 6.83% for personal property of which 1.03% of both tax rates are for the redemption of public debt issued by the Commonwealth of Puerto Rico. The remaining percentage is distributed as follows: (a) 5.8% and 3.8%, respectively, represents the Municipality's basic property tax rate which is appropriated for basics and accounted for in the general fund. A portion of such amount is deposited in an equalization fund together with a percentage of the net revenues of the Puerto Rico electronic lottery and a subsidy from the Commonwealth of Puerto Rico. From such fund, a distribution is made to all municipalities; (b) 2.00% represents the ad valorem tax restricted for debt service and accounted for in the debt service fund.

NOTE 13 – MUNICIPAL LICENSE TAX

The Municipality imposes a municipal license tax on all businesses that operate within the Municipality, which are not totally or partially exempt from the tax pursuant to the Industrial Incentives Acts of the Commonwealth of Puerto Rico. This is a self-assessed tax based on the business volume in gross sales as shown in the tax return that is due on April 15 of each year. Entities with sales volume of \$1,000,000 or more must include audited financial statements together with the tax return. During the fiscal year ended June 30, 2011, the tax rates were as follows:

- ❖ Financial business- 1.50% of gross revenues
- ❖ Other organizations- 0.50% of gross revenues

This tax is due in two equal installments on July 1 and January 1 of each fiscal year. A discount of 5% is allowed when full payment is made on or before April 15. Municipal license tax receivable represents filed municipal license tax returns that were uncollected as of June 30, 2011 net of allowance for uncollectible.

Municipal license taxes collected prior to June 30 but pertaining to the next fiscal year are recorded as deferred revenues.

NOTE 14 – MUNICIPAL SALES AND USE TAXES

On July 29, 2007, an amended to Act No. 117 of July 4, 2006, known as the "Tax Fairness Act of 2006", was enacted with the purpose of establishing a mandatory sales and use tax of 1.5% at the Municipal Level. The Municipalities of Puerto Rico are responsible to collect 1% of the corresponding tax with the same exemptions and limitations that the portion collected by the Treasury Department. The Act provides an optional surtax on the un-process food. This surtax must be approved by the Municipal Legislature.

The Treasury Department is responsible to create the Municipal Development Fund (.02%), the Municipal Redemption Fund (.02%) and the Municipal Improvements Fund (.01%) with the remaining 0.5%.

On September 2, 2008, the Municipal Legislature approved the transfer of 50% from the Municipal Development Fund to the Municipal Redemption Fund, as approved by Law 64 from July 3, 1996, as amended, to increase its debt issuance capacity. Loans issued with those funds can be used for waste management and recycling activities, construction of infrastructure, health and public safety projects and the payroll expenses related to those programs.

NOTE 15 – INTERGOVERNMENTAL REVENUES

Intergovernmental revenues consist primarily of funds received from the Commonwealth of Puerto Rico, "in lieu of tax" payments from the Quasi-public Corporation, Puerto Rico Electric Power Authority, and federal financial assistance received from federal government.

Grants and subsidies received from the Commonwealth of Puerto Rico and federal agencies include, among others, a general subsidy for urban development and capital improvements. Intergovernmental revenues are accounted for through the General Fund except for those directly related to urban development and capital improvements, which are accounted for through the Special Revenue and the Capital Project Funds. Federal Financial Assistance is recorded in the Special Revenue Fund.

Total			<u>\$ 112,395</u>

NOTE 17 – PENSION PLAN

The Employee's Retirement System of the Commonwealth and its Instrumentalities (the Retirement System) is a cost-sharing multiple defined benefit pension plan sponsored by, and reported as a component unit of the Commonwealth of Puerto Rico. All regular employees of the Municipality under 55 years of age at the date of employment become members of the Retirement System as a condition to their employment.

The Retirement System provides retirement, death and disability benefits pursuant to legislation enacted by the Commonwealth's legislature. Disability retirement benefits are available to members for occupational and non-occupational disabilities. Retirement benefits depend upon age at retirement and the number of years of creditable service. Benefits vest after ten years of plan participation.

Members who have attained 55 years of age and have completed at least 25 years of creditable service or members who have attained 58 years of age and have completed ten years of creditable service are entitled to an annual benefit payable monthly for life.

The amount of the annuity shall be one and one-half percent of the average compensation, as defined, multiplied by the number of years of creditable service up to twenty years, plus two percent of the average compensation, as defined, multiplied by the number of years of creditable service in excess of 20 years. In no case will the annuity be less than \$200 per month.

Participants who have completed at least 30 years of creditable service are entitled to receive the Merit Annuity. Participants who have not attained 55 years of age will receive 65 percent of the average compensation, as defined; otherwise they will receive 75 percent of the average compensation, as defined. No benefits are payable if the participant receives a refund of his/her accumulated contributions. Disability retirement benefits are available to members for occupational disability up to a maximum benefit of 50% of the average salary, as defined. However, for non-occupational disability, a member must have at least 10 years of creditable services.

Commonwealth legislation requires employees to contribute 5.775% for the first \$550 of their monthly gross salary and 8.275% for the excess over \$550 of monthly gross salary. The Municipality is required by the same statute to contribute 9.275% of the participant's gross salary.

On September 24, 1999, an amendment to Act No. 447 of May 15, 1951, which created the Retirement System, was enacted with the purpose of establishing a new pension program (System 2000). Employee's participation in the current system as of December 31, 1999, may elect to stay in the defined benefit plan or transfer to the new program. Persons joining the Municipality on or after January 1, 2000, will only be allowed to become members of System 2000. System 2000 will reduce the retirement age from 65 years to 60 for those employees who joined the current plan on or after April 1, 1990.

NOTES TO THE BASIC FINANCIAL STATEMENTS (CONTINUED)

FOR THE FISCAL YEAR ENDED JUNE 30, 2011

NOTE 17 – PENSION PLAN (CONTINUED)

System 2000 is a hybrid defined contribution plan, also known as a cash balance plan. Under this new plan, there will be a pool of pension assets, which will be invested by ERS together with those of the current defined benefit plan. The Commonwealth of Puerto Rico will not guarantee benefits at retirement age. The annuity will be based on a formula which assumes that each year the employee's contribution (with a minimum of 8.275% to the employee's salary up to a maximum of 10%) will be invested in an account which will either: (1) earn a fixed rate based on the two-year Constant Maturity Treasury Note or, (2) earn a rate equal to 75% of the return of the ERS's investment portfolio (net of management fees), or (3) earn a combination of both alternatives. Participants will receive periodic account statements similar to those of defined contribution plans showing their accrued balances. Disability pensions will not be granted under System 2000. The employer's contribution (9.275% of the employee's salary) will be used to fund the current plan.

If at the time of retirement accumulated benefits amount to \$10,000 or less may elect to receive a lump sum distribution up to the accumulated benefits. Under the new program the retirement age is reduced from 65 to 60 for those employees who joined the current plan on or after April 1, 1990.

FUNDING POLICY

The authority under which the funding policy and the obligations to contribute to the ERS and System 2000 by the plans' members, employers and other contributing entities (state and municipal contributions), are established or may be amended by law.

Contribution requirements are established by law and are as follows:

Municipality	9.275% of gross salary
Employees:	
Hired on or before March 31, 1990	5.775% of gross salary up to \$6,600
	8.275% of gross salary over \$6,600
Hired on or before April 1, 1990	8.275% of gross salary

ANNUAL CONTRIBUTION

The Municipality contributions during those years are recognized as total pension expenditures/expenses in the category of administration as follows:

<u>Fiscal year</u>	<u>Law No. 447</u>	<u>System 2000</u>
2011	\$ 188,601	\$ 42,710
2010	\$ 194,768	\$ 40,896
2009	\$ 187,853	\$ 38,540

These amounts represented the 100% of the required contribution for the corresponding year. Additionally, changes made in the types and amounts of benefits offered by special laws and cost of living adjustments, led to a one-time recommended contribution to fund the retroactive adjustment related to the changes.

Additional information on the Retirement System is provide in its financial statements for the year ended June 30, 2011, a copy of which can be obtained from the Retirement System, Minillas Station, PO Box 42004, San Juan, PR 00940.

NOTE 18 – COMMITMENTS AND CONTINGENCIES

A. CLAIMS AND JUDGMENTS

The Municipality is a defendant in a number of lawsuits arising principally from claims against the Municipality for alleged improper actions, and other legal matters that arise in the ordinary course of the Municipality's activities.

With respect to pending and threatened litigation, the Municipality has reported liabilities of approximately \$121,422 for awarded and anticipated unfavorable judgments. This amount was included in the financial statements and represents the amount estimated as probable liability or a liability with a fixed or expected due date, which will require future available financial resources for its payment.

The Municipality participates in a number of federal financial assistance programs funded by the Federal Government. These programs are subject to audit on behalf the grantors to assure compliance with grant provisions. If expenditures are disallowed due to noncompliance with grant programs requirements, the Municipality may be required to reimburse these costs, to the grantor agency. The U.S. Department of Homeland Security issued a final resolution in relation to a disallowed cost arising from an audit of the federal program Public Assistance Grants. The governmental wide-statement of net assets and the fund financial statement-balance sheet includes a liability of \$928,439 for disallowed costs in accordance with the final resolution issued by the U.S. Department of Homeland Security.

B. Other Commitments:

At June 30, 2011, the general fund had commitments of approximately \$112,212 for executory purchase orders or contracts that will be honored during the subsequent year.

NOTE 21 – SUBSEQUENT EVENTS

Act No. 94 issued on June 16, 2011 by the Legislature established an incentive plan for the payment of real and personal property tax dues, beginning on July 14, 2011. This Act provides an amnesty to all property tax payers forgiving all penalties, charges and interests of the unpaid principal of pass-due property tax liability. The period that tax payers have to enjoy for such benefit is for exactly ninety (90) days beginning on July 14 through October 11, 2011. The unpaid property taxes covered under this Act are those related to fiscal year 2009-2010 and earlier (for real property taxes) and for 2008 and earlier for personal property tax.

NOTES TO BUDGETARY COMPARISON SCHEDULE – GENERAL FUND

FOR THE FISCAL YEAR ENDED JUNE 30, 2011

NOTE 1 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. BUDGETARY CONTROL

The Municipality's annual budget is prepared on the budgetary basis of accounting, which is not in accordance with GAAP, and represents departmental appropriations recommended by the Mayor and approved by the Municipal Legislature prior to the beginning of the fiscal year. Amendments to the budget require the approval of the Municipal Legislature. Transfers of appropriations within the budget, known as Mayor's Resolutions, do not require the approval of the Municipal Legislature.

The Municipality prepares its annual budget including the operations of the general fund.

For budgetary purposes, encumbrance accounting is used. The encumbrances (i.e., purchase orders, contracts) are considered expenditures when incurred. For GAAP reporting purposes, encumbrances outstanding at year-end are reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be honored during the subsequent year.

The unencumbered balance of any appropriation at the end of the fiscal year will lapse at the end of such fiscal year. Other appropriations, mainly capital project appropriations, are continuing accounts for which the Municipal Legislature has authorized that an unspent balance from the prior year be carried forward and made available for current spending.

The annual budget as presented in the Budgetary Comparison Schedule-General Fund is the budget ordinance at June 30, 2011 representing the original budget. There were no supplemental appropriations for the year ended June 30, 2011.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER
MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS

To the Honorable Mayor
and the Municipal Legislature
Municipality of Arroyo
Arroyo, Puerto Rico

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the **Municipality of Arroyo, Puerto Rico**, as of and for the year ended June 30, 2011, which collectively comprise the **Municipality's** basic financial statements and have issued our report thereon dated December 29, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the **Municipality of Arroyo's** internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the **Municipality of Arroyo's** internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the **Municipality of Arroyo's** internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weakness. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weakness, as defined about. However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies in internal control over financial reporting. Significant deficiencies are described in the accompanying schedule of findings and questioned costs as item **11-01 and 11-02**. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER
MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS (CONTINUED)

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the **Municipality of Arroyo's** financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

The **Municipality of Arroyo's** response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit the **Municipality of Arroyo's** response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of management and federal awarding agencies and pass-through entities. However, this report is a matter of public record and its distribution is not limited.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

**To the Honorable Mayor
and the Municipal Legislature
Municipality of Arroyo
Arroyo, Puerto Rico**

Compliance

We have audited the **Municipality of Arroyo** compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of **Municipality of Arroyo's** major federal programs for the fiscal year June 30, 2011. **Municipality of Arroyo's** major federal program are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of **the Municipality of Arroyo's** management. Our responsibility is to express an opinion on **the Municipality of Arroyo's** compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the **Municipality of Arroyo's** compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the **Municipality of Arroyo's** compliance with those requirements.

In our opinion, the **Municipality of Arroyo** complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2011. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements, which are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as item **11-03 through 11-07**.

Internal Control Over Compliance

Management of the **Municipality of Arroyo** is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the **Municipality of Arroyo's** internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of **Municipality of Arroyo's** internal control over compliance.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133 (CONTINUED)

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as discussed below, we identified certain deficiencies in internal control over compliance that we consider to be material weaknesses and others deficiencies that we consider to be significant deficiencies.

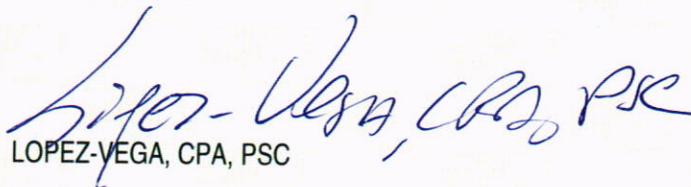

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness* in internal control over compliance is a deficiency, a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 11-07 to be material weaknesses.

A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 11-03 through 11-6 to be significant deficiencies.

The **Municipality of Arroyo's** responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit **Municipality of Arroyo's** response and, accordingly, we express no opinion on the responses.

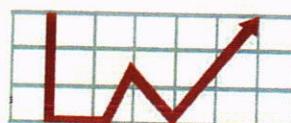

We also noted other matters involving the internal control over compliance and certain immaterial instance of noncompliance, which we have reported to management of the **Municipality of Arroyo** in a separate letter dated March 5, 2012.

This report is intended solely for the information and use of management and federal awarding agencies and pass-through entities. However, this report is a matter of public record and its distribution is not limited.

Section II – Financial Statements Findings

Finding Reference	11-01
Requirement	Financial Reporting – Accounting Records
Statement of Condition	<p>During our examination of the Municipality's accounting system, we noted that the Municipality's accounting records for Local, State and Federal funds does not provide modified basis financial statements. Also, the accounting system does not offer subsidiaries to produce government wide financial statements. The computerized system provided by the Office of Commissioner of Municipal Affairs (OCAM) and manual system maintained by the finance department personnel do not provide adequate and effective financial information to generate the basic financial statements since the accounts balances were affected by accounting errors in the first years of the system operations.</p> <p>Therefore, the Municipality's hires the professional services of local accounting firms to perform the required adjustment entries to convert its accounting records from cash basis to modified and then to accrual basis and compile the necessary information as required by GAAP and Law 81.</p>
Criteria	Chapter VIII, Article 8.010 of the State Act Number 81 of August 30, 1991, states that the Municipality should maintain an effective and updated accounting system.
Cause of Condition	The Municipality did not establish effective internal control over the transactions recorded on its accounting records. Also, the accounting data is not summarized in the form of a double-entry general ledger record.
Effect of Condition	The Municipality's accounting system did not provide update and complete financial information that present the financial position and the result of operations and the change in fund balances. Such information is necessary to take management decisions.
Recommendation	We recommend that the Municipality should implement internal control and procedures in order to maintain an accounting system that contains information pertaining to authorizations, obligations, unobligated balances, assets, liabilities, outlays or expenditures, interfund transactions, etc.
Questioned Costs	None
Management Response and Corrective Action	The Municipality maintains two set of accounting records; a manual system and a computerized system provided by the Office of the Commissioner of Municipal Affairs (OCAM). Actually, all of the transactions were recorded in both systems, but the manual system is the primary financial records for financial statements preparation purposes at the end of each fiscal year due to the fact that the computerized system real accounts balances carried forward from prior years were affected by accounting errors in the first years of the system operation.

Nevertheless, as part of the corrective action plan, the Commissioner of Municipal Affairs (“OCAM”) considered alternatives to improve the accounting system, including the acquisition of new accounting software, and therefore, we will hope to solve our accounting system condition in a near future. Although, the Legislature of the Commonwealth Government of Puerto Rico has appropriated funds for the design and implementation of a new system, no further action has been taken on this matter.

Requirement	Expenditures for Goods and Services and Accounts Payables- Purchasing and receiving
Statement of Condition	<p>We performed a cash disbursements test and examined nineteen (19) payments which belonged to General Fund, six (6) which belonged to Permanent Improvements account, twenty two (22) which belonged to Joint Resolution, two (2) which belonged to Disaster Grant, and eleven (11) which belonged to Community Development Block Grants – State’s Program (CDBG). The following will summarize the internal control exceptions noted:</p> <ul style="list-style-type: none">a. In two (2) payments which belonged to General Fund, three (3) which belonged to Joint Resolutions and two (2) which belonged to Disaster Grant the disbursement vouchers did not include the signature of the Pre-Intervention Officer.b. One (1) payment voucher which belonged to General Fund, did not include the certification that the Municipality or any Municipality’s employee will not benefit from the goods or services received under contract.c. In two (2) payments which belonged to General Fund, one (1) payment which belonged to Permanent Improvements account and one (1) which belonged to a Joint Resolution the disbursement vouchers did not include the signature and date it was approved by the Mayor.d. In one (1) payment which belonged to General Fund and three (3) which belonged to Joint Resolutions the documents along the disbursement voucher were not marked as paid.
Criteria	“Reglamento para la Administración Municipal” establish in the Chapter Four (4) that the Finance Director will be responsible to account and prepare disbursements through documents duly prepared and certified, including sufficient evidential matter to support the transactions.
Cause of Condition	The Municipality internal control procedures failed to assure that all transactions include all the required documentation and approvals.
Effect of Condition	The Municipality is not in compliance with Chapter Four (4) of the “Reglamento para la Administración Municipal”.
Recommendation	We recommend that the Municipality should improve its internal control and procedures in order to assure that the disbursement vouchers contain all the necessary supporting documents before making the payments and are available for examination.

Requirement	Special Test – Establishment and Maintenance of a Replacement Reserve
Statement of Condition	In our audit process, we could not identify that a replacement reserve was properly, required monthly deposits were made, and disbursements were only for approved purposes.
Criteria	Code of Federal Regulations 24, Section 880.602 (a) states that a replacement reserve must be established and maintained in an interest-bearing account to aid in funding extraordinary maintenance and repair and replacement of capital items.
Cause of Condition	The Municipality controls and procedures failed to assure that a replacement reserve was establish in an interest-bearing account as required by Federal Regulation for the purpose of extraordinary maintenance and repairs and replacement of capital items.
Effect of Condition	The Municipality is not in compliance with Code of Federal Regulations 24, section 880.602 (a).
Recommendation	We recommend management to improve monitoring procedures to assure that the owner of the project establish and maintain a replacement reserve, make the required deposits to the reserve and perform all repair and maintenance functions (including ordinary and extraordinary maintenance), and replacement of capital items, as stated in the federal regulation.
Questioned Costs	None
Management Response and Correction Action	The Program will establish a procedure to assure and monitor the required deposit by the owner to cover the property's maintenance and repair. Implementation Date: June 2012 Responsible Person: Luis A. Torres Section 8 Program Coordinator

Requirement	Special Test – Selection from the Section 8 Waiting List
Statement of Condition	In our Waiting List test, we noted the following situation: a. We could not identify the process of the opening of a new Waiting List and could not verify the process of admission of new participants to the programs. b. The Waiting List did not include the racial or ethnic designation of the head of household.
Criteria	Code of Federal Regulations 24, Sections 982.54 (d) and 982.201 through 982.207 states the waiting list procedures and that the selection from the waiting list generally occurs when the PHA notifies a family, whose names reaches the top of the waiting list, to come in to verify eligibility for admission.
Cause of Condition	The Municipality internal control procedures failed to assure that the waiting list include all information required by Federal Regulation and that the participants were selected from the top of the waiting list.
Effect of Condition	The Municipality is not in compliance with Code of Federal Regulations 24, sections 982.54 (d) and 982.201 through 982.207.
Recommendation	We recommend management to improve monitoring procedures to assure that the participants are admitted to the program or are provided the opportunity to be admitted to the program according with the federal regulation. Also, we recommend management to establish control procedures to maintain a waiting list with all information required by the Federal Regulation (applicant name, family unit size, date and time of application, qualification for any local preference and ethnic designation of the head of household). This control must permit proper tracing of participants selected in the waiting list in order to assure the selection from the top of the waiting list.

Statement of Condition	During our audit, we noted that the Municipality did not comply with the compliance requirement of Depository Agreements. The PHA is required to enter into depository agreement with their financial institutions in the form required by HUD. (Form HUD-51999)
Criteria	Code of Federal Regulations 24, Subpart D, 982.156 states. (c) The PHA must enter into an agreement with the depository in the form required by HUD. (d) If required under a written freeze notice from HUD to the depository: (i) The depository may not permit any withdrawal by the PHA of funds held under the depository agreement unless expressly authorized by written notice from HUD to the depository; and (ii) The depository must permit withdrawals of such funds by HUD. (2) HUD must send the PHA a copy of the freeze notice from HUD to the depository.
Cause of Condition	The program is not performing an effective review of compliance requirement that are required by HUD.
Effect of Condition	The PHA is not in compliance with laws and established regulation as prescribed by HUD.
Recommendation	Procedures should be implemented to ascertain that the PHA complies with the established Federal Regulation, as prescribed by HUD.
Questioned Costs	None
Management Response and Corrective Action	The Program will make a procedure to comply with the preparation of Form HUD- 51999, Depository Agreement. Requirement	Financial Administration – Standard for Financial Management System
Statement of Condition	During our audit we noted that the Municipality did not maintain, for the Child Care and Development Block Grant Program, a reliable set of accounting records that present the financial position of the program, the results of operations and changes in fund balance.
Criteria	Code of Federal Regulations 45, Subpart C, Section 92.20 (b) (2) states that the grantees and sub grantees must maintain records, which adequately identify the source and application of funds, provided for financially-assisted activities. These records must contain information pertaining to grant or sub grant awards and authorizations, obligations, un-obligated balances, assets, liabilities, outlays or expenditures, and income.
Cause of Condition	The Municipality did not maintain adequate controls and accounting records to assure the accountability of all Federal transactions in accordance with Federal regulations. This situation may cause the non-compliance with certain regulations like allowable costs or allowable activities.
Effect of Condition	The Municipality is not in compliance with Code of Federal Regulation 45, Subpart C, Section 92.20 (b) (2).
Recommendation	We recommend that the Municipality should implement controls and procedures in order to assure that an accurate set of accounting records will be maintained.
