MUNICIPALITY OF BARCELONETA MANAGEMENT'S DISCUSSION AND ANALYSIS

Fundamentals of Financial Statements Presentation

The new approach used in the presentation of the financial statements of the Municipality is based on a government-wide view of such statements as well as a presentation of individual funds behavior during fiscal year 2011. The combination of these two perspectives provide the user the opportunity to address significant questions concerning the content of said financial statements, and provide the basis for a comparable analysis of future years performance. The comparative analysis is a meaningful and useful management tool for municipal management in the decision making process.

Under the aforementioned approach, assets and liabilities are recognized using the accrual basis of accounting which is similar to the method used by most private enterprises. This means that current year's revenues and expenses are accounted for regardless of when cash is received or paid.

Financial Statements Components

The basic financial statements consist of the government wide financial statements, the major funds financial statements and the notes to the financial statements which provide details, disclosure and description of the most important items included in said statements.

Governmental-wide financial statements - The government-wide financial statements which begin on page 11 of this report are designed to provide reads with a broad overview of the Municipality's finances, in a manner similar to a private-sector business. The government wide statements provide short and long term information about the municipality's status as a whole.

The Statement of Net Assets reflects information of the Municipality as whole of a consolidated basis and provides relevant information about its financial strength as reflected at the end of the fiscal year. Such financial level is measured as the difference between total assets and liabilities, with the difference between both items reported as net assets. It is important to note that although municipalities as governmental public entities were not created to operate under a profit motive framework, the return on assets performance plays an important role in their financial operations. The higher the increments achieved in net revenues, the higher the capacity to increase the net assets figure either thru additional borrowings or thru internally generated funds.

The Statement of Activities is focused on both gross and net cost of the various activities of the Municipality. It presents information which shows the changes in the Municipality's net assets at the most recent fiscal year. Based on the use of the accrual basis of accounting, changes are reported as soon as the underlying event occurs, regardless of the timing of the related cash flows. Under said approach, revenues and expenses are reported in the Statement of Activities based on the theory that it will result in cash flows to be realized in future periods.

**MUNICIPALITY OF BARCELONETA
MANAGEMENT'S DISCUSSION AND ANALYSIS**

Governmental funds - The funds are reported using an accounting method known as modified accrual accounting which measures cash and all other financial assets that can be readily converted into cash. The fund statement approach gives the user a short term view of the Municipality's government operations and the basic services it provides. Since the focus of government funds is narrower than that of the financial statements as a whole, it also helps the user with comparable information presented in the governmental activities report. By doing so, readers of the basic financial statements may understand better the long-term effect of the Municipality's short-term financial decisions.

Infrastructure Assets

The Municipality implemented the major model portions of GASB statement 34 during the prior years. Historically, the governmental larger group of assets have not been reported nor depreciated in governmental financial statements. The new statement required that this asset be valued and reported within the Governmental column of the Governmental Wide Statement. Additionally, the government must elect to either depreciate these assets over their estimated useful life or develop a system of assets management designated to maintain the service delivered potentially to near perpetuity. If the government develops the assets management system, which periodically, by category, measures and demonstrate its maintenance of locally established level of services standards, the government may record its cost of maintenance in lieu of depreciation. The information about the condition and maintenance of condition of the government infrastructure assets should assist financial statements users in evaluating a local government and its performance over time.

Government-Wide Financial Analysis

Statement of Net Assets

The Statement of Net Assets reports information of the municipality as a whole. Increase or decrease of net assets may serve as an indicator of whether municipality's financial position is improving or deteriorating. In the case of the Municipality primary government assets exceeded liabilities by \$29,398,551 at the close of the recent fiscal year compared to \$29,306,169 at the end of previous year, as restated and showed in the following condensed Statement of Net Assets of the Primary Government.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Economic Factors and Next Year Budget

The Municipality is a political legal entity with full legislative and administrative powers in every area of municipal government, with perpetual existence and legal personality, separate and independent from the central governmental of Puerto Rico. The Municipal Government comprises the executive and legislative branches. The Mayor exercises the executive power and the legislative power by the Municipal Legislature, which has 16 members.

The Municipality relies primarily on property and municipal taxes as well as federal and state grants to carry out the governmental activities. Federal and State grant revenues may vary if new grants are available. Those factors were considered when preparing the Municipality's budget for the fiscal year 2010-2011.

The Budget for Revenues and expenditures were \$29.5 million for the general fund, total revenues decreased \$3.8 million when comparing the budgeted revenues with the actual revenue. The Municipal license tax decreased by \$6 million. The actual expenditures were \$674,652 less than budgeted expenditures. General Government reflected an increase of \$1,469,167 and Culture and Recreation a decrease of \$282,639 when compares Budget Expenditures with actual expenditures. Excess of revenues under expenditures reflect a deficiency of \$3.1 million.

The Municipality provides a full range of services including public works, education Public safety, public housing, health, community development, culture, recreation and other administrative services. The Municipality's principal sources of revenues are property taxes, municipal license taxes, contributions by the state government and federal grants.

The Municipality's management is committed to a continued improvement in the confection of a budget that will response to the need of the public and private sectors in accordance with its permissible revenues levels. Such has been the case of the financial operation corresponding to fiscal year 2011. It further contemplates to improve its current figure of net assets, which has been identified as one of the main short and long-term objectives of the Municipality.

INDEPENDENT AUDITOR'S REPORT

To the Mayor and Municipal Council of
the Municipality of Barceloneta
Barceloneta, Puerto Rico

We have audited the accompanying financial statements of the Governmental Activities, each major fund and the remaining fund information of the **Municipality of Barceloneta**, Puerto Rico, as of and for the year ended June 30, 2011, which collectively comprise the **Municipality of Barceloneta** basic financial statements, as listed in the accompanying table of contents. These financial statements are the responsibility of the Municipality's management. My responsibility is to express opinions on these financial statements based on my audit.

We have conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not the purposes of expressing an opinion on the effectiveness of the Municipality internal control over financial reporting. Accordingly, I express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the **Municipality of Barceloneta**, Puerto Rico, as of June 30, 2011, and the respective changes in financial position, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, I have also issued my report dated March 20, 2012 on my consideration of the **Municipality of Barceloneta**, Puerto Rico internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts, grants, agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the result of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of and audit performed in accordance with Governmental Auditing Standards and should be considered in assessing the results of my audit.

Our audit was performed for the purpose of forming an opinion on the Governmental Activities financial statements of the **Municipality of Barceloneta**, Puerto Rico taken as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-profit Organizations, and is not a required part of the general purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and in my opinion, is fairly stated in all material respects, in relation the by financial statement a taken as whole.

As described in Note 1, on July 1, 2004, **the Municipality** implemented a new financial reporting model required by GASB Statement No. 34, (GASB No. 34), *Basic Financial Statements – And Management’s Discussion and analysis-for State and Local Governments*. In conjunction with the adoption of GASB No. 34, the Municipality has also adopted the following pronouncements: (1) GASB Statement No. 37-*Basic Financial Statements-and Management’s Discussion and Analysis-for State and Local Governments: Omnibus*, (2) GASB Statement No.38-*Certain Financial Statement Note Disclosures*, and (3) GASB Interpretation No. 6-*Recognition and Measurement of Certain Liabilities and Expenditures in Governmental Fund Financial Statements*.

The Management’s Discussion and Analysis and budgetary comparison schedule information on pages 1 through 8 and page 16, are not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. I have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, I did not audit the information and express no opinion on it.

MUNICIPALITY OF BARCELONETA, PUERTO RICO
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2011

GENERAL ORGANIZATION

The **Municipality of Barceloneta (The Municipality)** was founded in 1881. The governmental system of the Municipality is composed of the executive and legislative bodies. The Mayor is the Chief Executive Officer and is elected every four years in the general elections of Puerto Rico. The legislative body consists of fourteen assemblymen also elected in the general elections of Puerto Rico for a four-year period.

The **Municipality** provides services such as: health, public safety, sanitation, recreation and sports, education, housing, transportation, welfare, construction and/or improvements of highways and streets, and other general and administrative services.

The financial statements of **the Municipality** have been prepared in conformity with generally accepted accounting principles (GAAP) as applicable to governmental entities. The Governmental Accounting Standards Board (GASB) is the primary standard-setting body for establishing governmental accounting and financial reporting principles. The GASB periodically updates its existing Governmental Accounting and Financial Reporting Standards, which along with subsequent GASB Pronouncement (Statements and Interpretations,) constitute GAAP for governmental units. A summary of **the Municipality's** significant accounting policies consistently applied in the preparation of the accompanying basic financial statements follows:

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Reporting Entity

The Municipality's financial statements include the operations of all departments and separate legal entities for which **the Municipality** is financially accountable or for which exclusion would leave the financial statements misleading or incomplete.

In June 1999, the GASB issued Statement No. 34 *Basic Financial Statements and Management Discussion and Analysis for State and Local Governments*. This Statement establishes new financial reporting requirements for state and local governments. It requires new information and restructures much of the information that governments have reported in the past. Comparability with reports issued in prior years is affected. In June 2001, the GASB issued Statement No. 37 *Basic Financial Statements and Management Discussion and Analysis for State and Local Governments Omnibus*, which in part addressed the Management Discussion and Analysis (MD&A) requirements, Program Revenue Classifications and Major Fund criteria requirements in the reporting model in Statement No. 34.

The Municipality implemented this Standard for the fiscal year ended June 30, 2003.

MUNICIPALITY OF BARCELONETA, PUERTO RICO
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2011

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continuation)

b. Financial Reporting Entity

The accompanying basic financial statements include all departments, agencies and municipal entities that: (1) are under the legal and administrative control of the Mayor, and (2) whose funds are under the legal custody and control of the **Municipality's** Director of Finance, as prescribed by Law No. 81 of August 30, 1991, as amended, known as the *Autonomous Municipalities Act of the Commonwealth of Puerto Rico*. **The Municipality's** management has considered all potential component units for which it may be financially accountable and other legally separate organizations for which the nature and significance of their relationship with **the Municipality's** may be such that exclusion of their financial statements from those of the Municipality would cause **the Municipality's** basic financial statements to be misleading or incomplete according to GASB Statement No. 14, - *The Financial Reporting Entity (GASB No. 14.)*

The Municipality's management has concluded that, based on the aforementioned criteria, there are no legally separate entities or organizations that should be reported as component units of **the Municipality** as of June 30, 2011 nor for the year then ended.

c. Basic Financial Statements-GASB Statement No. 34

The basic financial statements include both government-wide and fund financial statements. While the previous model emphasized fund types (the total of all funds of a particular type), in the new reporting model the focus is on major individual funds (within the fund financial statements). Both the government-wide and fund financial statements categorize activities as governmental activities. In the government-wide Statement of Net Assets the governmental activities (a) are presented on a consolidated basis in one column, and (b) are reflected, on a full accrual, economic resource basis, which incorporates long-term assets and receivables as well as long-term debt and obligations.

The Government-wide Statement of Activities reflects both the gross and net cost per functional category. The Statement of Activities reduces gross expenses (including depreciation) by related operating grants and contributions. The operating grants include operating-specific grants.

This government-wide focus is more on the sustainability of **the Municipality's** as an entity and the change in aggregate economic position resulting from the activities of the fiscal period.

MUNICIPALITY OF BARCELONETA, PUERTO RICO
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2011

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continuation)

The fund financial statements are, in substance, very similar to the financial statements presented in the previous model. Emphasis here is on the major funds in the governmental category. Non-major funds are aggregated into a single column.

The governmental funds financial statements are presented on a current financial resource measurement focus and modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. This presentation is deemed most appropriate to (a) demonstrate legal and covenant compliance, (b) demonstrate the sources and use of liquid resources, and (c) demonstrate how **the Municipality** actual experience conforms to the budget or fiscal plan. Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statement, a reconciliation is presented on the fund statement, which briefly explains the adjustments necessary to transform the fund based financial statements into the governmental column of the government-wide presentation.

d. Basis of Presentation

The new model as defined in Statement No. 34 establishes criteria (percentage of the assets, liabilities, revenues or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds. **The Municipality** reports the following major funds on **Fund Financial Statements**:

Major Funds

General Fund – Always a major fund. The general fund is the main operating fund of **the Municipality**. It is used to account for all financial resources except those required to be accounted for in another fund.

Bond Issue Fund – Bond Issue funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

HUD Programs Fund – This fund accounts for revenues sources for the development of viable urban communities, decent housing suitable living environment, rental assistance to help very low-income families afford decent, safe and sanitary housing by encouraging property owners to rehabilitate substandard housing and lease the units with rental subsidies to low income families.

Debt Service Fund – Debt service fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

MUNICIPALITY OF BARCELONETA, PUERTO RICO
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2011

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continuation)

Head Start – Program Funds – The special revenue fund of Head Start is a major fund used by **the Municipality** to account for revenues derived from the grant that is legally restricted by outside parties for use on specific purpose. The uses and limitations of this revenue fund are specified by municipal ordinances of federal and state statutes.

However, resources restricted to expenditure for purposes normally financed from the general fund are reported in **the Municipality's** general fund provided that all applicable legal requirements are appropriately satisfied. In this case, a special revenue fund to account for such kind of transactions will be used only if legally mandated.

Other Funds (non major funds) – Special revenue funds are used to account for the proceeds of specific revenues sources that are legally restricted to expenditures for specified purposes. Capital projects fund is used to account for the financial resources for the acquisition of personal property and/or construction of major improvements, which are not financed by other funds.

e. Basis of Accounting

The accounts of **the Municipality** are organized on the basis of funds, each of which is considered to be a separate accounting entity. **The Municipality** has created various types of funds. Each fund is accounted for by a separate set of self-balancing accounts, which include its assets, liabilities, fund balances, and revenues and expenditures/expenses, as applicable. The individual funds accounts for the governmental resources allocated to **the Municipality** for the purpose of carrying on specific activities in accordance with laws, regulations, or other restrictions.

Measurement Focus, Basis of Accounting and Financial Statement presentation

Government-wide Financial Statements – The government wide financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which **the Municipality** gives (or receives) value without directly receiving (or giving) equal value in exchange, include grants. Revenue from grants is recognized in the fiscal year in which all eligibility requirements have been satisfied.

MUNICIPALITY OF BARCELONETA, PUERTO RICO
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2011

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continuation)

e. Basis of Accounting (Continuation)

Governmental Funds Financial Statement – Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. “Available” means collectible within the current period or 90 days after the end of the period to use them to pay liabilities of the current period. Miscellaneous revenues are recorded when collected. Revenues collected in advance of the fiscal year to which they apply are recorded as deferred revenues and recognized as revenues in the year to which they apply. Expenditures are generally recognized when the related fund liability is incurred. General capital asset acquisitions are reported as expenditures in governmental funds.

Governmental Fund Types / Governmental Activities – Governmental funds are those through which most governmental functions of **the Municipality** are financed. The acquisition, use, and balances of **the Municipality’s** expendable financial resources and the related liabilities are accounted for through governmental funds. The measurement focus is upon determination of changes in financial position, rather than upon net income determination.

Licenses and permits, charges for services, fines and forfeits and miscellaneous revenues (except investment earnings) are recorded as revenues when received. Investment earnings (interest) are recorded as earned since they are measurable and available.

g. Budgetary Control

The Municipality follows the following procedures, which are in accordance with the municipal law; in establishing the annual budget as reflected in the basic financial statements.

- (1) On or prior to May 15, the Mayor submits to the Municipal Assembly a proposed budget for the fiscal year commencing the following July 1st. The proposed budget includes estimated expenditures and their financing sources.
- (2) The budget document is available for public inspection prior to its approval by the Municipal Assembly.
- (3) Prior to July 1st. the annual budget is legally enacted through passage of the annual appropriation ordinance.
- (4) Subsequent to the enactment of the annual appropriation ordinance, the Municipal Assembly has the authority to make necessary adjustments to the budget.

The budget is prepared following the modified accrual basis of accounting except for the encumbrances, as described below:

The actual results of operations, presented in the Statement of Revenues, Expenditures and changes in Fund Balances-Budget and Actual-General Fund, are reflected in conformity with the budgetary accounting of the Municipality for a better comparison with the budget information.

Amendments to the budget, and budgetary transfers related to personal expenditures, require the approval of the Municipal Assembly. Non-capital encumbrances lapse at the end of the next fiscal year.

Since the budgetary basis differs from generally accepted accounting principles (GAAP), actual amounts for the general fund and debt service fund in the accompanying Statement of Revenues and Expenditures-Budget and Actual are presented on the budgetary basis to enhance comparability. The principal differences are as follows:

- (1) Encumbrances are recorded as expenditures under the budgetary basis and as reservations of fund balance under the GAAP basis.
- (2) The property tax advances are presented as revenue in the budgetary basis and as other financing sources in the GAAP basis.
- (3) The Municipality receives certain revenues as contributions from governmental entities, legislative and private parties, which are not included therein nor are the related expenditures.
- (4) Certain debt issuance to acquire personal property is reflected in the general fund and is restricted for that purpose.

The Municipality has not legally adopted a budget for the Head Start special revenue and capital projects funds. Accordingly, it has not presented an annual comparison of budget and actual for these major funds.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continuation)

g. Budgetary Control (Continuation)

Legal Compliance

Article 7.003, Law No. 81 of August 31, 1991, amended require that Mayor provide to Municipal Legislature an annual balanced budget indicating: 1) interest, amortization and retirement public debt, 2) statutory obligations, 3) judicial claims payments, 4) any amount to cover prior years deficit, 5) contract commitments and operational expenditures. For annual interest and principal debt amortization, CRIM provides annual estimated resources that will be obtained of additional special property tax (municipal) collections. **The Municipality's** management shows budgetary financial statements in general and debt service funds in compliance with state law and which are based in annual activity. The legal level of budgetary control is at the individual department level for general fund (Mayor and Legislature funds) expenditures, and annual principal and interest due for debt service fund.

h. Deposits

Substantially all cash balances are commingled in a general checking account and several special purpose bank accounts, except for cash and investments restricted by law. Each fund records its equity interest in the pooled cash balance. The available cash balance in the general checking account beyond immediate needs is invested in interest-bearing deposits. Generally, cash is deposited in interest-bearing bank accounts. Investment earnings are credited to the respective fund.

Investments consist of short-term certificates and are stated at cost, which approximates fair value.

h. Inventories

The general funds purchase office and printing supplies, gasoline, oil, medicines and other items. The cost of purchases is recorded as expenditures and the inventory is not recorded in the basis financial statements since amount is insignificant.

j. Capital Assets

Fund Financial Statements

The capital assets acquired are recorded as expenditures at cost in the governmental funds.

Government Wide Financial Statements

Purchased capital assets are recorded at cost. Donated capital assets are recorded at their estimated fair value as of the time they are received by **the Municipality** and are capitalized in the Statement of net Assets. Major renewals and betterment are capitalized: replacement, maintenance and repairs, which do not improve or extend the life of the respective assets, are charged to operations.

Depreciation is provided over the estimated useful life of the respective assets on straight-line basis.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continuation)

k. Vacation and Sick Leave and Other Compensated Absences

Municipal employees are granted 30 days of vacation and 18 days of sick leave annually. Vacation leave may be accumulated up to a maximum of 60 days and sick leave up to a maximum of 90 days. In the event of employee resignation, the employee is paid for accumulated vacation days up to the maximum allowed. Separation from employment prior to use of all or part of the sick leave terminates all rights for compensation, except for employees with ten years or more of service who are entitled to sick leave pay to the maximum allowed. The Municipality is required to pay excess sick leave over 90 days on or before March 31 of the accumulated excess at December 31, of prior year. Employees' maximum allowed accumulated vacation, with the employer's share of payroll taxes, is accounted for in the Statement of Net Assets.

l. Insurance

The Municipality has insurance coverage for its public facilities and equipment, primarily to provide protection in case of disaster and other losses. Also, principal officials of the Municipality are covered under various surety bonds. The Secretary of the Department of the Treasury of the Commonwealth of Puerto Rico is the designated agency to obtain the necessary insurance coverage for the Municipality.

m. Restricted Assets

Investments and Certificates

Certain proceeds of the Municipality revenue bonds as well as certain resources set aside for their repayment are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants. The "revenue bond" maintenance account is used to report those rental proceeds that are restricted for use in maintenance of the properties. The "revenue bond fund account" is used to segregate resources accumulated for debt service payments over the next twelve months. The "Debt Service Account" is used to report resources set aside to make up potential future deficiencies in the "revenue bond fund account".

Cash with fiscal agent

The cash with fiscal agent pertaining to the debt service represents property tax collections retained by the Government Development Bank for Puerto Rico and another financial institution restricted for the payment of Municipality's debt service (See Note 2) and unused proceeds from bonds and notes issued principally for the acquisition or construction of permanent improvements are accounted in the capital project fund. In debt service fund are unsecured and collateralized, as no collateral is required by governmental banks.

n. Fund Balance

During year ended June 30, 2011, **the Municipality** implemented GASB Statement No. 54, Fund Balance Reporting and Governmental Type Definitions ("GASB 54"). The objective of GASB 54 is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund type definitions. GASB 54 establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in the governmental funds. The implementation of this statement had no impact on the total fund balances for **the Municipality's** governmental funds.

The Municipality classifies governmental fund balances as follows:

- **Nonspendable**– includes amounts that inherently cannot be spent either because it is not in spendable form (i.e., prepaid, inventories, long-term portions of loans receivable, etc.) or because of legal or contractual requirements (i.e., principal of an endowment, etc.).
- **Restricted** – includes amounts that are constrained by specific purposes which are externally imposed by (a) other governments through laws and regulations, (b) grantors or contributions through agreements, (c) creditors through debt covenants or other contracts, or (d) imposed by law through constitutional provisions or enabling legislation.
- **Committed** – includes amounts that are constrained for specific purposes that are internally imposed by the government through formal actions made by **the Municipality's** legislative body, which is the highest level of decision making authority, before the end of the reporting period. Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of action it employed to previously commit those mounts.
- **Assigned** – includes amounts that are intended to be used for specific purposes that are neither consider restricted nor committed; in addition, such assignments are made before the report issuance date.

JUNE 30, 2011

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continuation)

n. Fund Balance (continued)

- **Unassigned** – include amounts that do not qualify to be accounted for and reported in any of the other fund balance categories. This classification represents the amount of fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund. The General Fund should be the only fund that reports a positive unassigned fund balance amount. In other government funds, if expenditures incurred for specific purposes exceeded the amounts that are restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

The Municipality generally uses restricted amounts first when both restricted and unrestricted (committed, assigned, and unassigned) fund balance is available unless there are legal documents, contracts, or agreements that prohibit doing such. Additionally, **the Municipality** generally would first use committed, then assigned, and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

o. Claims and Judgment

The estimated amount of the liability for claims and judgments, which is due on demand, such as from adjudicated or settled claims, is recorded in the general fund and in the Statement of Net Assets.

p. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Data in these columns do not present financial position or results of operations in conformity with generally accepted accounting principles. Such data is not comparable to a consolidation, since Interfund eliminations have not been made.

2. PROPERTY TAXES

The Municipal Revenue Collection Center (CRIM) of the Commonwealth of Puerto Rico is responsible by law for the assessment of all real and personal property located within the **Municipality of Barceloneta** and for the levy, administration and collection of all real and personal property taxes.

The property tax is levied each year on the assessed value of the property at the beginning of the calendar year. Assessed values of real property are established at the estimated current value existing in the year 1957 and of personal property at the current value at the date of the assessment.

Real property taxes are billed by the CRIM and are due in two equal installments in July and January following the assessment date. Personal property taxes are self-assessed and are due in May 15, when the property tax return is required to be filed.

The tax rate per annum is 10.33% for real property and 8.33% for personal property of which 3.83% and 1.83%, respectively, belongs to the Commonwealth of Puerto Rico and 4.25% of both percents belong to **the Municipality**. From the portion belonging to **the Municipality**, 3% represents **the Municipality's** basic rate, which is appropriated for general purposes and, therefore, accounted for through the general fund. The remaining portion belonging to **the Municipality** of 1.25% represents the "ad-valorem" tax withheld by the CRIM as fiscal agent, and restricted for debt service, which is accounted for through the debt service fund (See note 2). **The Municipality** has reached the maximum statutory tax rate limit for the basic tax while there is no limitation for the ad-valorem tax rate.

Complete real property tax exemption is granted by the Commonwealth of Puerto Rico on the first \$15,000 of the assessed valuation of owner occupied residential units. However, **the Municipality** receives the full amount levied, except for residential units assessed at less than \$3,500, on which a complete exemption is granted. Veterans have additional exemption from taxes of \$5,000 of the assessed value of real property. The Department of Treasury instead of the property taxpayer became the source of payment in these cases.

Complete exemption from personal taxes up to an assessment of \$50,000 is granted to retailers with an annual volume of net sales under \$150,000.

MUNICIPALITY OF BARCELONETA, PUERTO RICO
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2011

The CRIM reports annually to the Municipality the estimated basic property tax and the tax to be used for the debt service, which will be collected in the fiscal year. The basic tax is advanced to **the Municipality** during such fiscal year. It is the practice to amortize these advances through the subsequent collection by the CRIM of the basic tax from the taxpayers.

The basic property tax advances from the CRIM are recorded in the general fund as other financing sources. As this tax is collected and reported by the CRIM, it is recorded in the general fund as revenue. The property tax received from the Department of Treasury, which is related to the exoneration granted by the Commonwealth of Puerto Rico is reflected as revenue in the general fund.

Since the collection of property taxes from the taxpayers is under the administration of the CRIM, the Municipality recognized as an expenditure the operational expenses allocated by the CRIM to the Municipality, which amounted to \$353,182 during 2011.

The following is a summary of the property tax advances that resulted in an accounts payable, for the year ended June 30, 2011. The resulting payable is presented as a decrease in the general fund and the Government Wide Financial Statements.

3. DEPOSITS

The Municipality's cash and investments at June 30, 2011, were entirely covered by the Federal Depository Insurance Corporation by collateral provided by the banks and held by the Department of the Treasury pursuant to applicable laws and regulations. Cash with fiscal agent is maintained in interest-bearing accounts in the Government Development Bank for Puerto Rico and is collateralized by the Commonwealth of Puerto Rico.

Puerto Rico laws authorize governmental entities to invest in direct obligations or obligations guaranteed by the federal government or the Commonwealth of Puerto Rico. The Municipality is also allowed to invest in bank acceptances, other bank obligations and certificates of deposit in financial institutions authorized to do business under the federal and Commonwealth laws. During the year, the Municipality invested its funds in interest-bearing bank accounts, and short-term certificates of deposit if due date is not more than 90 days, the certificate considered as cash equivalents.

4. CONCENTRATION OF CREDIT RISK

The Municipality maintains its cash account in local commercial banks, whose accounts are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000. Deposits in excess of \$250,000 are collateralized by the bank securities to properly safeguard such funds. Nevertheless, management believes that concentration of credit risk is limited because balances are deposited with high standing financial institutions.

5. MUNICIPAL LICENSE TAXES

The volume of business tax is levied each year based on the prior year's gross revenues for all commercial and industrial organizations doing business in the Municipality and which are not totally or partially exempt from this under the Industrial Incentives Acts of Puerto Rico. All taxpayers are required to file an annual return of business volume by April 15 of each year.

The tax rates are as follow:

- 1% for financial institutions
- for all other organizations 0.5%

MUNICIPALITY OF BARCELONETA, PUERTO RICO
NOTES TO FINANCIAL STATEMENTS

5. MUNICIPAL LICENSE TAXES (continuation)

The deferred revenue of the general fund correspond to the business tax levied received from the next fiscal year.

The minimum gross revenue to file the Volume of Business Tax Declaration is \$5,000 and the minimum tax payable is \$25. The date to file the Volume of Business Tax Declaration is April 15. The Municipality grants a 5% discount, if the taxes are paid on or before April 15. Otherwise, 50% of taxes payable must be paid within the first 15 days of each semester beginning with the first semester ending December 31.

The **Municipality** recognized an account receivable for the estimated municipal license taxes to be collected during the first two months of next year, but corresponding to current year. Municipal license taxes collected prior to June 30, 2011 but pertaining to the next fiscal year is recorded as deferred revenues.

6. INTERFUND TRANSACTIONS

Due From/To Other Funds (Fund Financial Statement)

Interfund receivables and payables generally reflect temporary loans, billings for services provided and recovery of expenditures. The balances of internal transactions of June 30, 2011 are as follows:

Funds	Due From	Due To
General	\$ 1,468,175	\$ 261
Head Start Programs	-	10,924
Hud Programs	3,334	78,255
Other Funds	-	1,382,069
TOTAL	\$ 1,471,509	\$ 1,471,509

For the most part, the effect of inter-fund activity has been removed from the Statement of Net Assets (Government Wide Financial Statements).

7. INTERGOVERNMENTAL REVENUES

The Sources of intergovernmental revenue consist primarily of governmental payments from the Commonwealth of Puerto Rico and in lieu of tax” payments from certain “quasipublic” corporations, such as the Puerto Rico Electric Power Authority.

Grants and subsidies received from the Commonwealth of Puerto Rico include, among others, a general subsidy for capital improvements. Almost all these intergovernmental revenues are accounted for in the general fund.

9. CAPITAL ASSETS (continued)

Government Wide Financial Statements

Capital assets purchased are carried at historical costs. Contributed assets are recorded at fair value as of the date donated. Additions, Improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance is expensed as incurred. Depreciation on capital assets is calculated using the straight-line method over the following estimated useful lives:

Vehicles, Heavy Equipment	5-25	\$300
Furniture and Fixture	5-10	\$300
Computer and Electronic Equipment	5	\$300
Buildings	50	\$ 1

The Municipality is required to limit the amount of general obligation debt to 10% of the total assessment of property located within the Municipality, for bonds to be repaid with the proceeds of property tax restricted for debt services. Other obligations include compensated absences; LIMS refinance debt, claims and judgments.

12. DEBT SERVICE FUND

The revenues of the debt service fund arise from the additional property tax and are recognized when collected and reported by the CRIM (See Note 2). The CRIM retains these collections for the payment of principal and interest of bonds and notes issued by the Municipality used. Interest income is used for the payment of interest or special obligations notes and property taxes are for the debt service requirements of the general obligations bonds and notes.

The Government Development Bank pays principal and interest on these obligations for Puerto Rico from funds obtained from the Following:

Property taxes	\$ 4,889,232
General funds	1,002,986
Special funds	915,000
Municipal sales tax	519,772
TOTAL	\$ 7,326,990

Expenditures for the year 2010-2011 were as follows:

13. RETIREMENT PLAN

Plan Description

Regular full time employees of the Municipality contribute to a cost sharing multiple-employer defined benefit retirement plan, administered by the Employee' Retirement System of the Government of Puerto Rico and its instrumentalities (ERS). ERS covers all regular full time public employees working for the central government, public corporations and the municipalities of Puerto Rico. The system provides retirements pensions, death and disability benefits. Retirement benefits depend upon age at retirement and number of years of credited service. Disability retirement benefits are available to members for occupational and non-occupational disabilities. Benefits vest after ten years of plan participation. The system was created under Act 447, approved on May 15, 1951, "Retirement Pensions, Disability and Death Benefits", as amended, and became effective on January 1, 1952. ERS issues a publicly financial report that includes financial statements and required supplementary information of the Plan, which may be obtained from the ERS at G.P.O. Box 42005, San Juan Puerto Rico. 00940.

The annual retirement benefits for those regular full-time employees hired on or before March 31, 1990 or those attaining permanent status before that date (Old Plan) and for those hired or attaining permanent status on or after April 1, 1990 (New Plan) are as follows:

OLD PLAN (LAW 447)

Eligibility

Pension Benefits

Age 55 and 30 years
Of service

5% of average highest compensation
during any years of credited service

Under 55 and 30 years
Of service

65% of average highest compensation
during any 3 years of credit service

Participants in the System who retire prior to 30 years of credited service are entitled to an annual retirement benefit equal to 1.5% of the highest compensation in any 3 years of credited service for each year of service up to 20 years, and 2% for each year in excess of 20 years.

No benefit is payable if the participant receives a refund of his accumulated contributions.

Additional information of ERS is provided in its financial statements for the year ended June 30, 2011 a copy of which can be obtained from the ERS, Minillas Station, PO Box 42003, San Juan, PR 00940.

NEW PLAN (REFORMA 2000)

Eligibility

Age 65 with 10 years
of service

Pension Benefits

.5% of average compensation during
the final 5 years of credited services
multiples by the numbers of years
credited service

For both plans, the employees are vested when attaining ten years of plan participation. Disability and death benefits are available with certain limitations and all annuities in pay status will be increased every three years by 3% subject to the approval by the Legislature of Puerto Rico.

Reform 2000 is a hybrid defined contribution plan, also known as a cash balance plan. Under this new plan, there will be a pool of pension assets, which will be invested by ERS, together with those of the current defined benefit plan. Benefits at retirement age will not be guaranteed by the Commonwealth of Puerto Rico. The annuity will be based on a formula which assumes that each year the employee's contribution (with a minimum of 8.275% of the employee's salary upon to a maximum of 10%) will be invested in an account which will either: (1) earn a fixed rate based on the two-year Constant Maturity Treasury Note or, (2) earn rate equal to 75% of the return of the ERS's investment portfolio (net of management fees), or (3) earn a combination of both alternatives. Participants will receive periodic account statements similar to those of defined contribution plans showing their accrued balances. Disability pensions will not be granted under Reform 2000. The employer's contribution (9.275% of the employee's salary) will be used to fund the current plan.

Funding Policy

The Act 447, as amended, is the authority under which obligations to contribute to the Plan by the Plan members, employer and other contributing entities are established or may be amended. The required contributions made by **the Municipality** were based on percentages established by the Administrator of the System. Such percentages were not based on actuarial studies as required by generally accepted accounting principles. An actuarial computation of the annual contribution applicable to **the Municipality** has not been prepared. Accordingly, the amounts by which the actual contributions differ from the required actuarial contributions are not known.

Contribution Requirements

The Municipality's total payroll for the fiscal year 2011 amounted to approximately \$16,060,932. The Puerto Rico Commonwealth legislation requires employees to contribute 5.775% of gross salaries up to \$6,600 plus 8.275% of the gross salary in excess of \$6,600. The Municipality is required to contribute 9.275% of gross salary annually during year 2011. The Municipality actual contribution under Act 447 and Reform 2000 during year ended on June 30, 2011 was \$340,055 and \$476,498 respectively.

Actuarial Valuation

As of June 30, 2010, the ERS has an unfunded accrual liability of approximately \$17.1 billion, representing a 9.7% funding ratio. This information is not available by each participating government agency or municipalities.

Net assets of the system consist principally of investments in stocks and bonds and loans to participants. The projected unit credit actuarial cost method was used for the actuarial calculation. Significant assumptions were as follows:

- | | |
|------------------------------------|--|
| a) Interest rate | 7.5% a year |
| b) Salary increases | 3.0% year |
| c) Pre-retirement Mortality | For General Employees and Mayors, RP-2000 Employee Mortality Rates for males and females projected on a generational basis using Scale AA. For members covered under Act 127, RP-2000 Employee Mortality Rates with blue collar adjustments for males and females, projected on a generational basis using Scale AA. |
| Post-retirement Health Mortality | Gender-specific mortality rates were developed based on a study of plan's experience from 2003 to 2007. Sample rates shown below are as of 2005 and are thereafter projected on a generational basis using Scale AA. |
| Post-retirement Disabled Mortality | RP 2000 Disabled Annuitant Mortality Rates, without projection. |

14. LONG TERM LIABILITIES

Compensated Absences

The liability for compensated absences was recorded in the Government-wide financial statements. The balance consists of unpaid, accumulated annual and sick leave balances. The liability has been calculated using the vesting method, in which sick leave amounts for both employees who currently are eligible to receive termination payments and other employees who are expected to become eligible in the future to receive such payments upon termination are included.

15. LEASES

Operating Leases

The Municipality has several short-term operating lease agreements covering some of the Municipality's premises and equipment. Most of the agreements are renewed annually. Total rental expenditures for the year ended June 30, 2011, were approximately \$780,820 included in all funds.

16. CLAIMS AND CONTINGENCIES

Contingencies

As per Act No. 72 of September 7, 1993, Act of the Health Insurance of PR Administration", (HIA) should negotiate with the municipalities a contribution from the operational budget for the medical services covered by the Health Care Reform. The Municipality paid \$1,148,888 during the year to Health Insurance of PR Administration.

On July 1, 1997, there was an amendment to Act No. 72 in which it was established that the balance due to HIA from October 1994 to June 30, 1997 would be earned from the additional lottery games.

Federal Programs

The Municipality participates in a number of federal financial assistance programs. Although the Municipality's grant programs have been audited in accordance with the provisions of the Single Audit Act of 1984, as amended, these programs are still subject to financial and compliance audits and resolution of previously identified questioned costs. These grants are also subject to audit on behalf of the grantors to assure compliance with grant provisions. If expenditures are disallowed due to noncompliance with grant program requirements, the Municipality may be required to reimburse the grantor agency. Accordingly, the Administrations compliance with applicable grant requirements will be established at some future date. Nevertheless, the Municipality's management expects the amount of expenditures, which may be disallowed by the granting agencies from such audits, to be immaterial.

16. CLAIMS AND CONTINGENCIES (continuation)

Comptroller's Office Audits

The Municipality of Barceloneta, Puerto Rico, has been audited by the Comptroller's Office of the Commonwealth of Puerto Rico. The Comptroller's Office has not issued a final report related to the financial operations of the Municipality for the prior period of the single audit. These audit reports do not cover any findings subsequently disclosed to Municipality operations by the Comptrollers' Office.

Contingencies and claims and judgments against the Municipality

The **Municipality** is a defendant in a number of lawsuits arising principally from claims against the **Municipality** for alleged improper actions. It is management's opinion, based on the advice of the legal counsel, that the probable claims against the **Municipality** not covered by insurance are not determined at June 30, 2011.

17. MUNICIPAL SALES TAX

Pursuant to the provisions of the Law number 80 of July 29, 2007 and effective August 1, 2007, the citizenship contribution was uniformly established in 1.5%, of which 1% will be collected by the Municipalities and the remaining .5% will be collected by the Treasury Department of the Commonwealth of Puerto Rico. Also, this Law uniformed the use of the contributions of 1.5% in the following activities; solid waste disposal costs, recycle, public works and improvements, health services and security services.

The Municipalities of Puerto Rico are responsible to collect 1% of the corresponding tax with the same exemptions and limitations that the portion collected by Treasury Department. The Act provides and optional surtax on the un-processed food. This surtax must be approved by the Municipal Legislature. The Treasury Department is responsible to create the Municipal Development Fund (.02%), the Municipal Redemption Fund (.02%) and the Municipal Improvements Fund (.01%0 with the remaining 0.5%. The Municipality collected \$3,356,424 during the year ended June 30, 2011.

18. LAND HELD FOR SALE

The Municipality, as part of a strategic within the "Plan de Obras y Mejoras Permanentes", has acquired several parcels of land for sale in the near future. The above mentioned land is ideal for the construction of tourism facilities, light industries and general commerce that will consolidate the economic development of the Municipality of Barceloneta. The total cost o acquiring this land is approximately \$3 million.

19. MUNICIPAL SOLID WASTE LANDFILL CLOSURE AND POST-CLOSURE COST:

State and federal laws and regulations require the Municipality to place a final cover on the Municipality's landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for 30 years after closure. In accordance with Statement No. 18 of the GASB (GASB 18), "Accounting for Municipal Solid Waste Landfill Closure and Post-closure Care Costs", the Municipality has to perform a study of the activities that need to be implemented at the Municipality's landfill to guarantee the maximum yield of available space and to comply with applicable state and federal regulations.

The Municipality of Barceloneta discontinued the landfill operation on December 31, 1998, allowing the United States Environmental Protection Agency (EPA) by the Consent Decree (CERLA-00304). State and Federal laws and regulations require the Municipality to perform certain closure procedures and establish monitoring and maintenance function at the landfill for 30 years after closure. During fiscal year-2005-2006 the U.S. Environmental protection Agency presented the first five – year review (the report) for Barceloneta Landfill site and found that the remedy was constructed according with the requirements of the Record of Decision and that the remedy is functioning as designed according to the report and that the immediate threats have been addressed and the remedy is protective in the short-term. The Municipality implemented controls in order for the remedy to be protective in the long-term. During this year the Municipality provided maintenance and monitoring to the landfill super fund site with the employees of public work department.

The estimated annual Post-closure applicable to entire landfill is as follows: Maintenance of final cover \$70,000, Ground water monitoring \$25,525, total landfill cost \$95,525. Accordingly the total landfill costs for the next eighteen years are estimated for \$1,719,450, and are included in the wide financial statements.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT
AUDITING STANDARDS**

To the Mayor and Municipal Council
Municipality of Barceloneta, Puerto Rico

We have audited the financial statements of the governmental activities of Municipality of Barceloneta, Puerto Rico as of and for the year ended June 30, 2011 and have issued my report thereon dated March 20, 2012. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing my audit, I considered Municipality of Barceloneta, internal control over financial reporting as a basis for designing my auditing procedures for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Municipality of Barceloneta internal control over financial reporting. Accordingly, I do not express an opinion on the effectiveness of the Municipality of Barceloneta, Puerto Rico's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on timely basis.

My consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. I did not identify any deficiencies in internal control over financial reporting that I consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Municipality of Barceloneta, Puerto Rico's financial statements are free of material misstatement, I performed test of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

We noted certain matters that I reported to management of Municipality of Barceloneta Puerto Rico in a separate letter dated March 20, 2012.

This report is intended solely for the information and use of management, Municipal Council and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO
EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE
IN ACCORDANCE WITH OMB-CIRCULAR A-133**

Independent Auditor's Report

To the Mayor and Municipal Council of the
Municipality of Barceloneta
Barceloneta, Puerto Rico

Compliance

I have audited the compliance of the Municipality of Barceloneta, with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2011. The Municipality of Barceloneta major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Municipality of Barceloneta's management. My responsibility is to express an opinion on Municipality of Barceloneta compliance based on my audit.

I conducted my audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, "Audits of States, Local Governments and Non-Profit Organizations". Those standards and OMB Circular A-133 require that I plan and perform the audit to obtain reasonable assurance about whether non-compliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Municipality of Barceloneta's compliance with those requirements and performing such other procedures as I considered necessary in the circumstances. I believe that my audit provides a reasonable basis for my opinion. My audit does not provide a legal determination of Municipality of Barceloneta's compliance with those requirements.

In my opinion, Municipality of Barceloneta, Puerto Rico, complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2011.

Internal Control Over Compliance

The management of Municipality of Barceloneta is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing my audit, I considered Municipality of Barceloneta internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine my auditing procedures for the purpose of expressing my opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of Municipality of Barceloneta internal control over compliance. Accordingly, I do not express an opinion on the effectiveness of Municipality of Barceloneta, Puerto Rico's internal control over compliance.

A *control deficiency* in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a in internal control over compliance is a deficiency, or combination of deficiencies, or combination of deficiencies, in internal control over compliance, such that there ia a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected and corrected, on a timely basis.

My consideration of internal control over compliance was for the limited purpose described in first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. I did not identify any deficiencies in internal control over compliance that I consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, Municipal Council, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

2011-01	<u>Statement of Condition and Criteria</u>	-0-

It was noted in my test of balance of accounts that the Municipality is not complying with the criteria established by the Standards of Financial Management Systems for Regulations for Municipal Administration and with GASB codifications 1700, with requirements stated in OMB Circular A-133.

Cause

The Municipality has some deficiencies in its financial management systems, and financial reporting practices as related to the General Fund.

Effect

The lack of deficiency in the financial management systems does not permit the Municipality:

- a) To provide services to citizens without affecting them.
- b) To determine compliance with finance – related legal and contractual provisions.

Auditors Recommendation

The Municipality should revise and evaluate in a monthly basis revenues and disbursements to adjust disbursements to the revenues receipts to comply with the Standards of Financial Management Systems for Regulations for Municipal Administration; and with GASB codifications 1700 with requirements stated in OMB Circular A-133. Implement measures to reduce the Municipal deficit. Evaluate the impact in the revenues of the change in construction tax and the increase of the real and personal taxes. Evaluate the impact in the disbursement to approve only necessary professional services and consolidate services.

Municipality Response

The Municipality management took serious and radical measures to minimize the impact of this condition and expects to correct them in the near future.
