## INDEPENDENT AUDITORS' REPORT

**To the Honorable Mayor and  
the Municipal Assembly  
Municipality of Coamo  
Coamo, Puerto Rico**

We have audited the accompanying general-purpose financial statements of the **Municipality of Coamo**, as of and for the year ended June 30, 2001, as listed in the table of contents. These general purpose financial statements are the responsibility of the Municipality's management. Our responsibility is to express an opinion on these general-purpose financial statements based on our audit.

Except as discussed in the following paragraph, we conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the provisions of the Office of Management and Budget Circular A-133, "*Audits of States, Local Governments, and Non-Profit Organizations*". Those standards and OMB Circular A-133 standards require that we plan and perform the audit to obtain reasonable assurance about whether the general-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall general-purpose financial statements presentation. We believe that our audit provides a reasonable basis for our opinion.

The **Municipality of Coamo** accounting system and subsidiary records of property and equipment did not provide us sufficient competent evidence with respect to the amounts presented in the accompanying general-purpose financial statements. Therefore, we do not express an opinion on such amounts included in the general fixed assets account group.

In our opinion, except for the effect of such adjustments, if any, as might have been determined to be necessary had we been able to audit the general fixed assets account group, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the **Municipality of Coamo** as of June 30, 2001, and the results of its operations for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 7, 2001 on our consideration of the Municipality's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grants.

**INDEPENDENT AUDITORS' REPORT (Continued)**

Our audit was performed for the purpose of forming an opinion on the general-purpose financial statements of the **Municipality of Coamo**, taken as whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the general purpose financial statements. The information in that schedule has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly presented, in all material respects, in relation to the general purpose financial statements taken as a whole.

**NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS**

**YEAR ENDED JUNE 30, 2001**

**1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:**

The **Municipality of Coamo** (the Municipality) was established in 1579. The Municipality's governmental system consists of an executive and a legislative body. It is governed by a Mayor and a fourteen member Municipal Assembly who are elected every four years through the Puerto Rico general elections.

The Municipality provides the following services: public safety, public works, culture and recreation, health, urban development and welfare.

The Municipality's general-purpose financial statements are presented in accordance with generally accepted accounting principles (GAAP), as applicable to governmental entities. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. A summary of the Municipality's significant accounting policies follows:

**A. Financial reporting entity:**

In evaluating how to define the Municipality for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the provisions of *Statement No. 14* of the Governmental Accounting Standards Board. The basic, but not the only criterion for including a potential component unit within the reporting entity is if elected officials of a primary government are financially accountable for the entity. Financial accountability exists if the primary government appoints a voting majority of the entity's governing body and if either one of the following conditions exist: the primary government can impose its will on the other entity or the potential exists for the other entity to (1) provide specific financial benefits to or (2) impose specific financial burdens on the primary government. A second criterion used in evaluating potential component units is the nature and significance of the relationship between the entity and a primary government is such that to exclude the entity from the financial reporting entity would render the financial statements misleading or incomplete. Based on the above criteria there are no potential component units, which should be included in the general-purpose financial statements.

**1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES  
(CONTINUED):**

**B. Basis of presentation:**

The Municipality records its transactions in the fund types and account groups described below:

**Governmental fund types:**

Governmental funds are those through which most governmental functions are financed. The acquisition, use and balances of the Municipality's expendable financial resources and the related current liabilities are accounted for through governmental funds. The measurement focus is upon determination of changes in financial position, rather than upon net income determination. The following are the Municipality's governmental fund types:

**General** - is the general operating fund of the Municipality. It is used to account for all financial resources, except for those required to be accounted for in another fund.

**Special Revenue** - is used to account for the proceeds of specific revenue sources that are legally restricted to be expended for specific purposes.

**Debt Service** - is used to account for the accumulation of resources for the payment of general long-term debt principal, interest and related costs.

**Capital Projects** - is used to account for financial resources to be used for the acquisition or construction of major capital facilities.

**Account groups:**

The account groups are used to maintain accounting control and accountability of the Municipality's general fixed assets and long-term debt. The Municipality's account groups are:

**General Fixed Assets** - is used to account for all fixed assets of the Municipality.

**General Long-term Debt** - is used to account for all long-term debt obligations of the Municipality.

**YEAR ENDED JUNE 30, 2001**

**1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES  
(CONTINUED):**

**C. Basis of accounting:**

All governmental funds are accounted for using the modified accrual basis of accounting. Revenues are recognized when they become measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Revenues collected in advance of the fiscal year to which they apply are recorded as deferred revenues and recognized as revenues in the corresponding year. Expenditures are recorded when the liability is incurred, except for (1) interest on general long-term debt obligations which is recorded when due, and (2) accruals for vacation, sick leave, claims and judgments which are recorded in the general long-term debt account group.

In applying the susceptible to accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. There are essentially two types of such revenues. In one situation, funds must be expended on the specific purpose or project before any amount is reimbursed to the Municipality; therefore, revenues are recognized based upon the expenditures recorded. In the other situation, funds are virtually unrestricted as to purpose of expenditure and are usually revocable only for failure to comply with prescribed compliance requirements. These resources are recognized as revenues at the time of receipt or earlier if they meet the criteria of availability.

Licenses, permits, rent of property, fines, penalties and other miscellaneous revenues (except investment earnings) are recorded as revenues when received because they are generally not measurable until actually received.

**1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES  
(CONTINUED):**

**D. Reservations of fund balance:**

Reservations of fund balance represent portions of fund balances that are legally segregated for a specific future use or are not appropriate for expenditure. The Municipality has the following reservations of fund balance:

Encumbrances – Represent future expenditures under purchases orders, contracts and other commitments issued for goods and services not received at year-end. Where the appropriations lapse at year-end these will be honored during subsequent year. Encumbrances constitute the equivalent of expenditures for budgetary purposes and, accordingly, are reported with expenditures in all budgetary basis statements.

Debt Service – Represents net assets available to finance future debt service payments.

**E. Budgetary data:**

In establishing the budgetary data presented in the general purpose financial statements, the Municipality follows these procedures, which are in accordance with the Municipal Law:

- Prior to May 31, the Major submits to the Municipal Assembly a proposed budget for the fiscal year commencing the following July 1. The proposed budget includes estimated expenditures and the means of financing them.
- The budget document is available for public inspection prior to its approval by the Municipal Assembly.
- Prior to July 1, the annual budget is legally enacted through passage of the annual appropriation ordinance.
- Subsequent to the enactment of the annual appropriation ordinance, the Municipal Assembly has the authority to make necessary adjustments to the budget. Adjustments made during the year are reflected in the budget information included in the general-purpose financial statements.

**1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES  
(CONTINUED):**

**E. Budgetary data (continued):**

The budget is prepared following the modified accrual basis of accounting, except for the encumbrances that are recorded as expenditures under the budgetary basis and as a reserve of funds balances under GAAP and for the interfund transactions that are not included in the budgetary basis.

The actual result of operations, presented in the Statement of Revenues, Expenditures, Encumbrances, and Changes in Fund Balances-Budget and Actual-General and Debt Service Funds, is in conformity with the budgetary accounting of the Municipality for a better comparison with the budget information.

The budget prepared for each of the special revenue funds is based on a program period, which is not necessarily the same as the Municipality's fiscal year. Accordingly, it is not practical to present an annual comparison of budget and actual for the special revenue funds.

**F. Inventories:**

The General Fund purchases office and printing supplies, gasoline, oil and other items. The cost of purchases is recorded as expenditure and, consequently, the inventory is not recorded in the general-purpose financial statements.

**G. Property and equipment:**

Property and equipment acquired are recorded as expenditures in the governmental funds and are capitalized at cost in the General Fixed Assets Account Group. Donated property and equipment are recorded at their estimated fair market value at the time they are received by the Municipality. No depreciation has been provided on property and equipment. Interest cost during the construction period is capitalized, when significant.

**H. Cash and cash equivalents:**

The Municipality's Director of Finance is responsible for investing available resources and is restricted by law to invest only in saving accounts and certificates of deposit with banks qualified as depositories of public funds by the Department of the Treasury of the Commonwealth of Puerto Rico. The Municipality maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the combined balance sheet as "Cash and Cash Equivalents". All cash in banks at June 30, 2001 is insured by the Federal Deposit Insurance Corporation up to \$100,000, and by collateral held by the Treasury Department to its name. Interest earned from certificates of deposit and other short-term investments is recorded as revenue in the General Fund. Cash and Cash Equivalents include investments with original maturities of ninety days or less.

Cash with fiscal agent represents property tax collections retained by the Municipal Revenue Collection Center and Government Development Bank of the Commonwealth of Puerto Rico and restricted for the payment of the Municipality's debt service, unused proceeds from bonds and notes issued for the acquisition or construction of permanent improvements and Federal grants resources.

**I. Interfund transactions:**

The Municipality has the following types of transactions among funds:

Operating transfers- Transfers that are reported when incurred as "Operating transfers from other fund" by the recipient fund and as "Operating transfers to other fund" by the disbursing fund.

Transfer of Expenditures (Reimbursements) – Reimbursement of expenditures made by one fund for another that are recorded as expenditures in the reimbursing fund and as reduction of expenditures in the reimbursed fund.

**1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):**

**J. Compensated absences:**

Municipal employees are granted 30 days of vacation and 18 days of sick leave annually. Vacations may be accumulated up to a maximum of 60 days and sick leave up to a maximum of 90 days. In the event of an employee resignation, the employee is reimbursed for accumulated vacation days up to the maximum allowed. Separation from employment prior to the use of all or part of the sick leave before 10 years of service terminates all rights for compensation.

The Municipality accrues a liability for compensated absences, which meet the following criteria:

1. The Municipality's obligation relating to employee's rights to receive compensation for future absences is attributable to employee's services already rendered.
2. The obligation relates to rights that vest or accumulate.
3. Payment of the compensation is probable.
4. The amount can be reasonably estimated.

In accordance with the above criteria and requirements as established by *GASB Number 16*, the Municipality has accrued a liability for compensated absences, which has been earned but not taken by municipal employees. This liability is presented in the general long-term debt account group because they will not be funded with available expendable financial resources at June 30, 2001.

**K. Insurance:**

The Municipality has insurance coverage for its public facilities, primarily to provide protection from catastrophic losses. The Secretary of the Treasury Department of the Commonwealth of Puerto Rico is the agent commissioned to place all of the Municipality's insurance coverage.

Consequently, amounts shown in total columns do not represent financial position or result of operations, in conformity with generally accepted accounting principles. Such data is not comparable to a consolidation since interfund eliminations have not been made.

**M. Use of estimates in the preparation of general purpose financial statements:**

The preparation of general purpose financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and related disclosures at the date of the general purpose financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

**N. Claims and judgments:**

The estimated amount of the liability for claims and judgments, if any, which is due on demand, such as from adjudicated or settled claims, is recorded in the General Fund. The General Long-term Debt Account Group includes an amount estimated as a contingent liability or liabilities with a fixed or expected due date, which will require future available financial resources for its payment.

**2. DUE TO OTHER GOVERNMENTAL ENTITIES:**

The amounts due to other governmental entities in the General Fund include the following:

Puerto Rico Aqueduct and Sewer Authority	\$ 13,002
Treasury Department (Income Tax)	68,375
General Services Administration	2,901
State Insurance Fund	5,391
	<hr/>
Total	<u>\$ 89,669</u>

MUNICIPALITY OF COAMO**

**NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - (CONTINUED)**

**YEAR ENDED JUNE 30, 2001**

**2. DUE TO OTHER GOVERNMENTAL ENTITIES (CONTINUED):**

The Municipality reached agreements with other governmental entities for the payment of debts on a long-term basis. These liabilities are presented in the General Long-term Debt Account Group because they will not be funded with available expendable financial resources at June 30, 2001. The following is the balance of these accounts:

Department of Labor (Unemployment)	\$ 36,402
Puerto Rico Electric Power Authority	<u>13,203</u>
Total	<u>\$ 49,605</u>

**3. PROPERTY TAXES:**

The Municipal Revenue Collection Center ("CRIM") of the Commonwealth of Puerto Rico is responsible by law to assess, levy and collect real and personal property taxes. The tax on personal property is self-assessed by the taxpayer. The assessment, as of January 1 of each year, is made on a return, which must be filed, with the CRIM, together with the payment, by May 15 of each year. The tax on real property is assessed by the CRIM. The assessment is made as of January 1 of each year and is based on estimated current values of the property as of the year 1957.

Tax rates are 8.18% for real property and 6.18% for personal property of which 1.03% of both belongs to the Commonwealth of Puerto Rico. The Municipality's share is composed of the basic tax of 5.8% for real property and 3.8% for personal property, which is recorded in the General Fund, and the additional tax of 1.35% in both cases, which is restricted for debt service and retained by the CRIM for such purposes. To the extent that such taxes are informed and collected by the CRIM, they are recorded as revenue in the General Fund and in the Debt Service Fund.

Residential real property occupied by its owner is exempt by law from the payment of property taxes on the first \$15,000 of the assessed value. For such exempted amounts, the CRIM assumes payment of the basic tax to the Municipality, except for property assessed at less than \$3,500, for which no payment is made. Revenue related to the basic tax on exempt property is recorded in the general fund when payments are received from the CRIM.

MUNICIPALITY OF COAMO**

**NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - (CONTINUED)**

**YEAR ENDED JUNE 30, 2001**

**3. PROPERTY TAXES (CONTINUED):**

Complete exemption from personal property taxes up to an assessment of \$50,000 is granted to retailers with an annual volume of net sales under \$150,000.

The CRIM advances to the municipality the estimated property tax collection for each fiscal year. Advances are repaid through actual collections from the taxpayers. The CRIM periodically informs the Municipality of the amounts collected and applied to outstanding advances. The property tax advanced by the CRIM during the year is recorded as property taxes revenues in the Municipality's General Fund. During the current year the advances were more than actual collections by \$267,593 according to CRIM preliminary liquidation. Such amount, added to \$1,027,713 property tax advance debt balance from prior years, was included as a long-term debt in the General Long Term Debt Account Group because it will not be funded with available expendable financial resources at June 30, 2001.

**4. MUNICIPAL LICENSE TAXES:**

The municipal license tax is levied each year based on the prior year's gross revenues for all commercial and industrial organizations doing business in the Municipality, and which are not totally or partially exempt from this tax under the Industrial Incentives Acts of Puerto Rico. All taxpayers are required to file their declaration by April 15, of each year.

The tax rates are as follows:

Financial institutions	1.50%
Savings and loans associations	1.50%
Other organizations	0.50%

The tax may be paid in two equal semi-annual installments on July 15 and January 15 following the filing date. However, a discount of 5% is allowed for total payment received on or before April 15. Collections made prior to June 30 pertaining to the next fiscal year are recorded as deferred revenues.

**5. INTERGOVERNMENTAL:**

Intergovernmental revenues consist mainly of payments from the Commonwealth of Puerto Rico and payments in lieu of taxes from certain quasi-public corporations, principally the Puerto Rico Electric Power Authority.

**COMMONWEALTH OF PUERTO RICO  
MUNICIPALITY OF COAMO**

**NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - (CONTINUED)**

**YEAR ENDED JUNE 30, 2001**

**5. INTERGOVERNMENTAL (CONTINUED):**

Grants and subsidies received from the Commonwealth of Puerto Rico include, among others, a general subsidy for capital improvements. Intergovernmental revenues are recorded in the General Fund, except for those related directly to capital improvements, which are recorded in the Capital Projects Fund.

**6. CASH AND CASH EQUIVALENTS:**

Cash in bank accounts	\$ 4,035,498
Certificates of deposit (90 days or less)	-
	-
Total cash and cash equivalents	\$ 4,035,498

**7. DEBT SERVICE FUND:**

Revenue for the Debt Service Fund consists mainly of the share of property taxes, which is designated for the debt service requirements of the bonds and notes obligations issued by the Municipality. The Government Development Bank pays principal and interest on these obligations.

**8. GENERAL FIXED ASSETS:**

A summary of changes in the General Fixed Assets Account Group is as follows:

**11. RETIREMENT PLAN:**

**Defined Benefit Pension Plan**

The Employees' Retirement System of the Commonwealth of Puerto Rico and its Instrumentalities (the "System") is the administrator of a cost sharing multiple-employer defined benefit public employee retirement system established by the Commonwealth of Puerto Rico. The System was created under the Act 447 approved on May 15, 1951, as amended. All regular employees of the Municipality hired before January 1, 2000 and under 55 years of age at the date of employment became members of the System as a condition to their employment. No benefits are payable if the participant receives a refund of his/her accumulated contributions. The System also provides for death and disability benefits pursuant to legislation enacted by the Commonwealth's legislature.

Under the System, the employees and employer portions are contributed, for which, the employee amount is withheld from salaries. Covered employees are required by Commonwealth statute to contribute 5.775% for the first \$550 of monthly gross salaries plus 8.275% for the excess of this amount, or on the alternative, 8.275% of monthly gross salaries. The Municipality contributes to the System 9.275% of the participating employee's gross salaries.

Pension benefits for employees that joined the system before April 1, 1990 are as follows:

<u>Years of Service</u>	<u>Participant Age</u>	<u>Pension Benefits</u>
30 or more	54 or less	65% of the average of the three years of highest salary during the employees' service period.
30 or more	55 or more	75% of the average of the three of highest salary during the employees' service period.

For participants who retire with less than 30 years of service the pension benefits is computed at the rate of 1-1/2% of their average compensation for each year of credited service for the first 20 years and 2% for each of credited service for the remaining years.

MUNICIPALITY OF COAMO**

**NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - (CONTINUED)**

**YEAR ENDED JUNE 30, 2001**

**11. RETIREMENT PLAN (CONTINUED)**

For those employees that joined the system after April 1, 1980 the pension benefits are as follows:

<b>Years of Service</b>	<b>Participant Age</b>	<b>Pension Benefits</b>
25 or more	Between 55 and 64	Computed at the rate of 1-1/2% of their average compensation for each year of credited service, with an actuarial reduction based on the actuarial guides adopted by the Board of Trustees.
10 or more	65 or more	Computed at the rate of 1-1/2% of their average compensation for each year-credited service.

For participants who retire with less than 25 years of service and the participant age are 64 or less the pension benefit is computed at the rate of 1-1/2% of their average compensation for each year of credited service.

**Defined Contribution Plan**

The Legislature of the Commonwealth enacted Act No. 305 on September 24, 1999, which amends Act No. 447 to establish, among other, a defined contribution saving plan program (the "Program") to be administered by the Retirement System. All regular employees hired for the first time on or after January 1, 2000 and former employees who participated in the defined benefit pension plan, received a refund of their contributions and are rehired on or after January 1, 2000 become members of the Program as a condition to their employment. In addition, employees who at December 14, 1999 were participants of the defined benefit pension plan, had the option, up to March 31, 2000, to irrevocably transfer their prior contributions to the defined benefit pension plan plus interest thereon to the Program.

Act No. 305 requires employees to contribute 8.275% of their monthly gross salary to the Program. Employees may elect to increase their contribution up to 10% of their monthly gross salary. Employee contributions are credited to his/her individual account established under the Program. Participants have three options to invest their contributions to the Program. Investment income is credited to the participant's account semi-annually.

MUNICIPALITY OF COAMO**

**NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - (CONTINUED)**

**YEAR ENDED JUNE 30, 2001**

**11. RETIREMENT PLAN (CONTINUED):**

The Municipality is required by the Act No. 305 to contribute 9.275% of the participant's gross salary. The System will use these contributions to increase its asset level and reduce the unfounded status of the defined benefits pension plan.

Upon retirement, the balance in the participant's account will be used to purchase an annuity contract, which will provide for a monthly benefit during the participant's life and 50% of such benefit to the participant spouse in case of the participant death. Participants with balance of \$10,000 or less at retirement will receive a lump-sum payment. In case of death, the balance in the participant's account will be paid in a lump sum to his/her beneficiaries. Participants have the option of a lump sum or purchasing an annuity contract in case of permanent disability.

Total Municipality contributions to the above-mentioned plans during the year ended June 30, 2001 recorded as pension expenditures was approximately \$ **255,800**. This amount represent 100% of the required contribution for the fiscal year ended June 30, 2001.

The amount of the total pension benefit obligation is based on a standardized measurement established by GASB Number 27, *Accounting for Pensions by State and Local Governmental Employers*. The standardized measurement is the actuarial present value of credited projected benefits. This pension valuation method reflects the present value of estimated pension benefits that will be paid in future years as a result of employee's services performed to date and is adjusted for the effects of projected salary increases. The significant actuarial assumptions used to determine the standardized measure of the pension benefit obligation are summarized below:

- \* The present value of the future pension payments was computed by using a discount rate of 8.5%. The discount rate is equal to the estimated long-term rate of return on current and future investments of the pension plan.
- \* Future pension payments reflect an assumption of 5% salary increase.

The measure is intended to help users assess the System's funding status on a going-concern basis, assess progress made in accumulating sufficient assets to pay benefits when due, and make comparisons among other public retirement systems. The measure is independent of the actuarial funding method used to determine contributions to the plan.

**11. RETIREMENT PLAN (CONTINUED):**

The membership of retirees and beneficiaries currently receiving benefits and terminated employees entitled to benefits, but not yet receiving benefits, and active employees and the distribution of active employees between vested and nonvested is not readily available. Contributions in 2001 and prior years were made based on percentages established by the law. Such percentage has not been based on actuarial studies, as required by generally accepted accounting principles. An actuarial compilation of the annual contribution applicable to the Municipality has not been prepared. Accordingly, the accounts by which the actual contributions differ from the required actuarial contributions are not known.

The ten-year historical trend information is available in the separately issued audited financial statements of the Retirement System.

**12. INTERFUND TRANSACTIONS:**

**Due from/to other funds**

Interfund receivables and payables represent temporary loans between the funds.

**Operating transfers**

Operating transfers represent transfers between funds to specific purposes designated by the management.

**13. COMMITMENTS AND CONTINGENCIES:**

**A. Federal grants:**

The Municipality participates in a number of Federal Financial Assistance Programs. These programs are subject to financial and compliance audits. The amount, if any, of expenditures which may be disallowed by such audits cannot be determined at this time, although the Municipality expects such amounts, if any, not to be material.

**13. COMMITMENTS AND CONTINGENCIES (CONTINUED):**

**B. Claims and lawsuits:**

The Municipality is a defendant in legal matters that arise in the ordinary course of the Municipality's activities. With respect to pending and threatened litigation, the Municipality has reported liabilities of \$10,000 in the general long-term debt account group for anticipated settlement related to case number BPD-99-0006. The amount presented in the general long-term debt account group represents the amount of estimated as probable liability, which will require future available financial resources for its payment. The administration believes that the ultimate liability in excess of amounts provided would not be significant.

**14. BEGINNING FUND BALANCES RESTATEMENT:**

The beginning Fund Balances for General, Special Revenue and Capital Projects Funds have been restated by accounting errors detected during the fiscal year that affect the Fund Equity section of those Governmental Funds, as follows:

**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS**

**YEAR ENDED JUNE 30, 2001**

**1. BASIS OF PRESENTATION:**

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of the **Municipality of Coamo** and is presented on the modified accrual basis of accounting. The basis of accounting is the same used to prepare the general-purpose financial statements. The information in this Schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*.

**2. RELATIONSHIP TO FEDERAL FINANCIAL REPORTS:**

Amounts reported in the accompanying Schedule are included in the Special Revenue Fund in the Municipality's general-purpose financial statements. The reconciliation between the expenditures in the general-purpose financial statements and the expenditures in the Schedule of Expenditures of Federal Awards is as follows:

<u>Description</u>	<u>Special Revenue</u>
Per Schedule of Expenditures of Federal Awards	\$ 2,523,282
Non federal programs expenditures	<u>1,128,115</u>
Total expenditures in the general purpose financial Statements	<u>\$ 3,651,397</u>

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

**To the Honorable Mayor  
and the Municipal Assembly  
Municipality of Coamo  
Coamo, Puerto Rico**

We have audited the general purpose financial statements of the **Municipality of Coamo** as of and for the year ended June 30, 2001, and have issued our report thereon dated December 7, 2001, which was qualified because we been unable to audit the fixed assets of the general fixed assets account group. Except as discussed in the preceding sentence, we conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the **Municipality of Coamo's** general purpose financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of general purpose financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the **Municipality of Coamo's** internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the general purpose financial statements and not to provide assurance on the internal control over financial reporting. However, we noted a matter involving the internal control over financial reporting that, in our judgment, could adversely affect **Municipality of Coamo's** ability to record, process, summarize, and report financial data consistent with the assertions of management in the general purpose financial statements. The reportable conditions are described in the accompanying schedule of findings and questioned costs items **01-01** through **01-05**.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE AND ON INTERNAL  
CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL  
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING  
STANDARDS (CONTINUED)***

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the general purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose reportable conditions that are also considered to be material weaknesses. However, we believe items **01-01** and **01-03** of the reportable conditions described in the accompanying Schedule of Findings and Questioned Costs are material weaknesses. We also noted other matters involving the internal control over financial reporting, which we have reported to management of the **Municipality of Coamo** in a separate letter dated December 7, 2001.

This report is intended for the information of the management and federal awarding agencies and pass-through entities. However, this report is a matter of public record and its distribution is not limited.

**INDEPENDENT AUDITORS' REPORT  
ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR  
PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE  
WITH OMB-CIRCULAR A-133**

**To the Honorable Mayor  
and the Municipal Assembly  
Municipality of Coamo  
Coamo, Puerto Rico**

Compliance

We have audited the compliance of the **Municipality of Coamo** with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2001. The **Municipality of Coamo's** major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the **Municipality of Coamo's** management. Our responsibility is to express an opinion on the **Municipality of Coamo's** compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in the *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the **Municipality of Coamo's** compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the **Municipality of Coamo's** compliance with those requirements.

In our opinion, the **Municipality of Coamo** complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2001. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements that are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as items, **01-06** through **01-09**, and **01-11**.

**INDEPENDENT AUDITORS' REPORT  
ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR  
PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE  
WITH OMB-CIRCULAR A-133(CONTINUED)**

Internal Control Over Compliance

The management of the **Municipality of Coamo** is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the **Municipality of Coamo's** internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

We noted certain matters involving the internal control over compliance and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over compliance that, in our judgment, could adversely affect the **Municipality of Coamo's** ability to administer a major federal program in accordance with applicable requirements of laws, regulations, contracts and grants. Reportable conditions are described in the accompanying Schedule of Findings and Questioned Costs as items **01-06** through **01-11**.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees on the normal course of performing their assigned functions. Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weakness. However, of the reportable conditions described above, we consider items **01-06** through **01-09**, and **01-11** to be material weaknesses. We also noted other matters involving the internal control over compliance and certain immaterial instance of noncompliance, which we have reported to management of the **Municipality of Coamo** in a separate letter dated December 7, 2001.

<b>Requirement</b>	<b>Financial Reporting – Accounting Records</b>
<b>Statement of Condition</b>	During our examination of the Municipality’s accounting system we noted that it does not summarize the transactions in a formal General Ledger in order to properly record and account for the transactions of all of its Governmental Funds (Local, State and Federal funds) and Account Groups.
<b>Criteria</b>	Article 8.010 of State Act Number 81 of August 30, 1991 states that the Municipality should maintain an effective and updated accounting system.
<b>Cause of Condition</b>	The Municipality did not establish effective internal control over the transactions recorded on its accounting records. Also, the accounting data is not summarized in the form of a double-entry general ledger record.
<b>Effect of Condition</b>	The Municipality accounting system did not provide updated and complete financial information that present the financial position and the result of operations and the change in fund balances. Such information is necessary to take management decisions.
<b>Recommendation</b>	We recommend that the Municipality should implement internal control and procedures in order to maintain an accounting system that contains information pertaining to authorizations, obligations, unobligated balances, assets, liabilities, outlays or expenditures, interfund transactions, etc.
<b>Questioned Costs</b>	None
<b>Management Response</b>	The Municipality’s Management concurs with the finding. Auditor’s recommendation would be considered as part of corrective action plan development and implementation.

<b>Requirement</b>	<b>Cash Receipts</b>
<b>Statement of Condition</b>	There is no adequate segregation of duties in the cash receipts and cash reconciliation activities. A municipal employee (Official Collector) issue cash receipts, prepare daily cash reports, deposit funds collected and prepared bank reconciliation's.
<b>Criteria</b>	Article 6.005 (f) of State Act Number 81 of August 30, 1991 establishes that the Finance Director should maintain effective control and accountability over cash, real and personal property, and other assets.
<b>Cause of Condition</b>	As of audit date, the Municipality does not have and additional employee to prepare the bank reconciliations.
<b>Effect of Condition</b>	The Municipality's cash has not been adequately safeguarded.
<b>Recommendation</b>	We recommend to the Municipality Management to segregate the duties of cash collection and bank reconciliation.
<b>Questioned Costs</b>	None
<b>Management Response</b>	The Municipality's Management concurs with the finding. Auditor's recommendation would be considered as part of corrective action plan development and implementation.

<b>Requirement</b>	<b>Expenditures for Goods and Services and Account Payables - Purchasing and Receiving</b>
<b>Statement of Condition</b>	<p>During our examination of the Municipality's procedures related to the purchasing and receiving process we examined forty-four (44) disbursement vouchers and we noted the following situations:</p> <ul style="list-style-type: none"><li>a. In five (5) disbursement vouchers the purchase orders was issued after the services were rendered.</li><li>b. Four (4) disbursement vouchers were not marked as paid.</li><li>c. Three (3) quotations were not available for examination in two (2) disbursements.</li><li>d. In two (2) disbursement vouchers we did not have evidence of the purchase order.</li></ul>
<b>Criteria</b>	<p>The Revised Regulations on Basic Standard for the Municipalities of Puerto Rico establish in Chapter four (4) that the Finance Director will be responsible to account and to prepare disbursements through documents duly prepared and certified, including sufficient evidential matter to support the transactions. Also, the Chapter eight (8) of the Revised Regulations on Basic Standards for the Municipalities of Puerto Rico establishes the procedures related to the formal bids or quotations for the purchase of goods or services.</p>
<b>Cause of Condition</b>	<p>The Municipality did not establish effective internal control to assure that all transactions include all the required documentation.</p>
<b>Effect of Condition</b>	<p>The Municipality is not in compliance with Revised Regulations on Basic Standards for the Municipalities of Puerto Rico.</p>

<b>Requirement</b>	<b>Cash Receipts, Excise Taxes and Municipal License Taxes</b>
<b>Statement of Condition</b>	<p>We performed a cash receipt test and examined a sample of sixty (60) collections. The following will summarize the deficiencies found:</p> <ul style="list-style-type: none"><li>a. In one (1) case we found no evidence of construction permit used to determine the tax computation.</li><li>b. The audited financial statements of two (2) sales volume taxpayers were not available for examination.</li><li>c. The income tax return of eight (8) sales volume of taxpayers were not available for examination.</li></ul>
<b>Criteria</b>	<p>The Chapter (9) of the Revised Regulations on Basic Standards for the Municipalities of Puerto Rico states that the Municipality should maintain adequately documented taxpayer files including evidence of audited financial statement in the case of volume of business taxpayers who's volume of business were in excess of one million dollars (\$1,000,000.00).</p>
<b>Cause of Condition</b>	<p>There is no internal control procedure implemented to assure that taxpayer files are properly documented.</p>
<b>Effect of Condition</b>	<p>The taxpayers will be paying less taxes than amount required by law.</p>
<b>Recommendation</b>	<p>We recommend to the Municipality Management to implement the following procedures in order to avoid these situations in a future:</p> <ul style="list-style-type: none"><li>a. Assign an employee to prepare a file including construction permits, construction contracts and other necessary information to assure that excise tax computation for construction projects is duly documented in order to be examined by the auditors.</li><li>b. ## **INDEPENDENT AUDITORS' REPORT**

**To the Honorable Mayor and  
the Municipal Assembly  
Municipality of Coamo  
Coamo, Puerto Rico**

We have audited the accompanying general-purpose financial statements of the **Municipality of Coamo**, as of and for the year ended June 30, 2001, as listed in the table of contents. These general purpose financial statements are the responsibility of the Municipality's management. Our responsibility is to express an opinion on these general-purpose financial statements based on our audit.

Except as discussed in the following paragraph, we conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall general-purpose financial statements presentation. We believe that our audit provides a reasonable basis for our opinion.

The **Municipality of Coamo** accounting system and subsidiary records of property and equipment did not provide us sufficient competent evidence with respect to the amounts presented in the accompanying general-purpose financial statements. Therefore, we do not express an opinion on such amounts included in the general fixed assets account group.

In our opinion, except for the effect of such adjustments, if any, as might have been determined to be necessary had we been able to audit the general fixed assets account group, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the **Municipality of Coamo** as of June 30, 2001, and the results of its operations for the year then ended in conformity with generally accepted accounting principles.

**NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS**

**YEAR ENDED JUNE 30, 2001**

**1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:**

The **Municipality of Coamo** (the Municipality) was established in 1579. The Municipality's governmental system consists of an executive and a legislative body. It is governed by a Mayor and a fourteen member Municipal Assembly who are elected every four years through the Puerto Rico general elections.

The Municipality provides the following services: public safety, public works, culture and recreation, health, urban development and welfare.

The Municipality's general-purpose financial statements are presented in accordance with generally accepted accounting principles (GAAP), as applicable to governmental entities. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. A summary of the Municipality's significant accounting policies follows:

**A. Financial reporting entity:**

In evaluating how to define the Municipality for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the provisions of *Statement No. 14* of the Governmental Accounting Standards Board. The basic, but not the only criterion for including a potential component unit within the reporting entity is if elected officials of a primary government are financially accountable for the entity. Financial accountability exists if the primary government appoints a voting majority of the entity's governing body and if either one of the following conditions exist: the primary government can impose its will on the other entity or the potential exists for the other entity to (1) provide specific financial benefits to or (2) impose specific financial burdens on the primary government. A second criterion used in evaluating potential component units is the nature and significance of the relationship between the entity and a primary government is such that to exclude the entity from the financial reporting entity would render the financial statements misleading or incomplete. Based on the above criteria there are no potential component units, which should be included in the general-purpose financial statements.

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES  
(CONTINUED):

**B. Basis of presentation:**

The Municipality records its transactions in the fund types and account groups described below:

**Governmental fund types:**

Governmental funds are those through which most governmental functions are financed. The acquisition, use and balances of the Municipality's expendable financial resources and the related current liabilities are accounted for through governmental funds. The measurement focus is upon determination of changes in financial position, rather than upon net income determination. The following are the Municipality's governmental fund types:

**General** - is the general operating fund of the Municipality. It is used to account for all financial resources, except for those required to be accounted for in another fund.

**Special Revenue** - is used to account for the proceeds of specific revenue sources that are legally restricted to be expended for specific purposes.

**Debt Service** - is used to account for the accumulation of resources for the payment of general long-term debt principal, interest and related costs.

**Capital Projects** - is used to account for financial resources to be used for the acquisition or construction of major capital facilities.

**Account groups:**

The account groups are used to maintain accounting control and accountability of the Municipality's general fixed assets and long-term debt. The Municipality's account groups are:

**General Fixed Assets** - is used to account for all fixed assets of the Municipality.

**General Long-term Debt** - is used to account for all long-term debt obligations of the Municipality.

**YEAR ENDED JUNE 30, 2001**

**1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES  
(CONTINUED):**

**C. Basis of accounting:**

All governmental funds are accounted for using the modified accrual basis of accounting. Revenues are recognized when they become measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Revenues collected in advance of the fiscal year to which they apply are recorded as deferred revenues and recognized as revenues in the corresponding year. Expenditures are recorded when the liability is incurred, except for (1) interest on general long-term debt obligations which is recorded when due, and (2) accruals for vacation, sick leave, claims and judgments which are recorded in the general long-term debt account group.

In applying the susceptible to accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. There are essentially two types of such revenues. In one situation, funds must be expended on the specific purpose or project before any amount is reimbursed to the Municipality; therefore, revenues are recognized based upon the expenditures recorded. In the other situation, funds are virtually unrestricted as to purpose of expenditure and are usually revocable only for failure to comply with prescribed compliance requirements. These resources are recognized as revenues at the time of receipt or earlier if they meet the criteria of availability.

Licenses, permits, rent of property, fines, penalties and other miscellaneous revenues (except investment earnings) are recorded as revenues when received because they are generally not measurable until actually received.

**1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES  
(CONTINUED):**

**D. Reservations of fund balance:**

Reservations of fund balance represent portions of fund balances that are legally segregated for a specific future use or are not appropriate for expenditure. The Municipality has the following reservations of fund balance:

Encumbrances – Represent future expenditures under purchases orders, contracts and other commitments issued for goods and services not received at year-end. Where the appropriations lapse at year-end these will be honored during subsequent year. Encumbrances constitute the equivalent of expenditures for budgetary purposes and, accordingly, are reported with expenditures in all budgetary basis statements.

Debt Service – Represents net assets available to finance future debt service payments.

**E. Budgetary data:**

In establishing the budgetary data presented in the general purpose financial statements, the Municipality follows these procedures, which are in accordance with the Municipal Law:

- Prior to May 31, the Major submits to the Municipal Assembly a proposed budget for the fiscal year commencing the following July 1. The proposed budget includes estimated expenditures and the means of financing them.
- The budget document is available for public inspection prior to its approval by the Municipal Assembly.
- Prior to July 1, the annual budget is legally enacted through passage of the annual appropriation ordinance.
- Subsequent to the enactment of the annual appropriation ordinance, the Municipal Assembly has the authority to make necessary adjustments to the budget. Adjustments made during the year are reflected in the budget information included in the general-purpose financial statements.

**1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES  
(CONTINUED):**

**E. Budgetary data (continued):**

The budget is prepared following the modified accrual basis of accounting, except for the encumbrances that are recorded as expenditures under the budgetary basis and as a reserve of funds balances under GAAP and for the interfund transactions that are not included in the budgetary basis.

The actual result of operations, presented in the Statement of Revenues, Expenditures, Encumbrances, and Changes in Fund Balances-Budget and Actual-General and Debt Service Funds, is in conformity with the budgetary accounting of the Municipality for a better comparison with the budget information.

The budget prepared for each of the special revenue funds is based on a program period, which is not necessarily the same as the Municipality's fiscal year. Accordingly, it is not practical to present an annual comparison of budget and actual for the special revenue funds.

**F. Inventories:**

The General Fund purchases office and printing supplies, gasoline, oil and other items. The cost of purchases is recorded as expenditure and, consequently, the inventory is not recorded in the general-purpose financial statements.

**G. Property and equipment:**

Property and equipment acquired are recorded as expenditures in the governmental funds and are capitalized at cost in the General Fixed Assets Account Group. Donated property and equipment are recorded at their estimated fair market value at the time they are received by the Municipality. No depreciation has been provided on property and equipment. Interest cost during the construction period is capitalized, when significant.

(CONTINUED):**

**H. Cash and cash equivalents:**

The Municipality's Director of Finance is responsible for investing available resources and is restricted by law to invest only in saving accounts and certificates of deposit with banks qualified as depositories of public funds by the Department of the Treasury of the Commonwealth of Puerto Rico. The Municipality maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the combined balance sheet as "Cash and Cash Equivalents". All cash in banks at June 30, 2001 is insured by the Federal Deposit Insurance Corporation up to \$100,000, and by collateral held by the Treasury Department to its name. Interest earned from certificates of deposit and other short-term investments is recorded as revenue in the General Fund. Cash and Cash Equivalents include investments with original maturities of ninety days or less.

Cash with fiscal agent represents property tax collections retained by the Municipal Revenue Collection Center and Government Development Bank of the Commonwealth of Puerto Rico and restricted for the payment of the Municipality's debt service, unused proceeds from bonds and notes issued for the acquisition or construction of permanent improvements and Federal grants resources.

**I. Interfund transactions:**

The Municipality has the following types of transactions among funds:

Operating transfers- Transfers that are reported when incurred as "Operating transfers from other fund" by the recipient fund and as "Operating transfers to other fund" by the disbursing fund.

Transfer of Expenditures (Reimbursements) – Reimbursement of expenditures made by one fund for another that are recorded as expenditures in the reimbursing fund and as reduction of expenditures in the reimbursed fund.

**1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES  
(CONTINUED):**

**J. Compensated absences:**

Municipal employees are granted 30 days of vacation and 18 days of sick leave annually. Vacations may be accumulated up to a maximum of 60 days and sick leave up to a maximum of 90 days. In the event of an employee resignation, the employee is reimbursed for accumulated vacation days up to the maximum allowed. Separation from employment prior to the use of all or part of the sick leave before 10 years of service terminates all rights for compensation.

The Municipality accrues a liability for compensated absences, which meet the following criteria:

1. The Municipality's obligation relating to employee's rights to receive compensation for future absences is attributable to employee's services already rendered.
2. The obligation relates to rights that vest or accumulate.
3. Payment of the compensation is probable.
4. The amount can be reasonably estimated.

In accordance with the above criteria and requirements as established by *GASB Number 16*, the Municipality has accrued a liability for compensated absences, which has been earned but not taken by municipal employees. This liability is presented in the general long-term debt account group because they will not be funded with available expendable financial resources at June 30, 2001.

**K. Insurance:**

The Municipality has insurance coverage for its public facilities, primarily to provide protection from catastrophic losses. The Secretary of the Treasury Department of the Commonwealth of Puerto Rico is the agent commissioned to place all of the Municipality's insurance coverage.

**L. Total columns (memorandum only):**

The total columns (memorandum only) are presented only to facilitate additional analysis. Consequently, amounts shown in total columns do not represent financial position or result of operations, in conformity with generally accepted accounting principles. Such data is not comparable to a consolidation since interfund eliminations have not been made.

**M. Use of estimates in the preparation of general purpose financial statements:**

The preparation of general purpose financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and related disclosures at the date of the general purpose financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

**N. Claims and judgments:**

The estimated amount of the liability for claims and judgments, if any, which is due on demand, such as from adjudicated or settled claims, is recorded in the General Fund. The General Long-term Debt Account Group includes an amount estimated as a contingent liability or liabilities with a fixed or expected due date, which will require future available financial resources for its payment.

**2. DUE TO OTHER GOVERNMENTAL ENTITIES:**

The amounts due to other governmental entities in the General Fund include the following:

Puerto Rico Aqueduct and Sewer Authority	\$ 13,002
Treasury Department (Income Tax)	68,375
General Services Administration	2,901
State Insurance Fund	5,391
	<hr/>

**2. DUE TO OTHER GOVERNMENTAL ENTITIES (CONTINUED):**

The Municipality reached agreements with other governmental entities for the payment of debts on a long- term basis. These liabilities are presented in the General Long- term Debt Account Group because they will not be funded with available expendable financial resources at June 30, 2001. The following is the balance of these accounts:

Department of Labor (Unemployment)	\$ 36,402
Puerto Rico Energy Power Authority	<u>13,203</u>
Total	<u>\$ 49,605</u>

**3. PROPERTY TAXES:**

The Municipal Revenue Collection Center ("CRIM") of the Commonwealth of Puerto Rico is responsible by law to assess, levy and collect real and personal property taxes. The tax on personal property is self-assessed by the taxpayer. The assessment, as of January 1 of each year, is made on a return, which must be filed, with the CRIM, together with the payment, by May 15 of each year. The tax on real property is assessed by the CRIM. The assessment is made as of January 1 of each year and is based on estimated current values of the property as of the year 1957.

Tax rates are 8.18% for real property and 6.18% for personal property of which 1.03% of both belongs to the Commonwealth of Puerto Rico. The Municipality's share is composed of the basic tax of 5.8% for real property and 3.8% for personal property, which is recorded in the General Fund, and the additional tax of 1.35% in both cases, which is restricted for debt service and retained by the CRIM for such purposes. To the extent that such taxes are informed and collected by the CRIM, they are recorded as revenue in the General Fund and in the Debt Service Fund.

Residential real property occupied by its owner is exempt by law from the payment of property taxes on the first \$15,000 of the assessed value. For such exempted amounts, the CRIM assumes payment of the basic tax to the Municipality, except for property assessed at less than \$3,500, for which no payment is made. Revenue related to the basic tax on exempt property is recorded in the general fund when payments are received from the CRIM.

**COMMONWEALTH OF PUERTO RICO  
MUNICIPALITY OF COAMO**

**NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - (CONTINUED)**

**YEAR ENDED JUNE 30, 2001**

**3. PROPERTY TAXES (CONTINUED):**

Complete exemption from personal property taxes up to an assessment of \$50,000 is granted to retailers with an annual volume of net sales under \$150,000.

The CRIM advances to the municipality the estimated property tax collection for each fiscal year. Advances are repaid through actual collections from the taxpayers. The CRIM periodically informs the Municipality of the amounts collected and applied to outstanding advances. The property tax advanced by the CRIM during the year is recorded as property taxes revenues in the Municipality's General Fund. During the current year the advances were more than actual collections by \$267,593 according to CRIM preliminary liquidation. Such amount, added to \$1,027,713 property tax advance debt balance from prior years, was included as a long-term debt in the General Long Term Debt Account Group because it will not be funded with available expendable financial resources at June 30, 2001.

**4. MUNICIPAL LICENSE TAXES:**

The municipal license tax is levied each year based on the prior year's gross revenues for all commercial and industrial organizations doing business in the Municipality, and which are not totally or partially exempt from this tax under the Industrial Incentives Acts of Puerto Rico. All taxpayers are required to file their declaration by April 15, of each year.

The tax rates are as follows:

Financial institutions	1.50%
Savings and loans associations	1.50%
Other organizations	0.50%

The tax may be paid in two equal semi-annual installments on July 15 and January 15 following the filing date. However, a discount of 5% is allowed for total payment received on or before April 15. Collections made prior to June 30 pertaining to the next fiscal year are recorded as deferred revenues.

**5. INTERGOVERNMENTAL:**

Intergovernmental revenues consist mainly of payments from the Commonwealth of Puerto Rico and payments in lieu of taxes from certain quasi-public corporations, principally the Puerto Rico Electric Power Authority.

**11. RETIREMENT PLAN:**

**Defined Benefit Pension Plan**

The Employees' Retirement System of the Commonwealth of Puerto Rico and its Instrumentalities (the "System") is the administrator of a cost sharing multiple-employer defined benefit public employee retirement system established by the Commonwealth of Puerto Rico. The System was created under the Act 447 approved on May 15, 1951, as amended. All regular employees of the Municipality hired before January 1, 2000 and under 55 years of age at the date of employment became members of the System as a condition to their employment. No benefits are payable if the participant receives a refund of his/her accumulated contributions. The System also provides for death and disability benefits pursuant to legislation enacted by the Commonwealth's legislature.

Under the System, the employees and employer portions are contributed, for which, the employee amount is withheld from salaries. Covered employees are required by Commonwealth statute to contribute 5.775% for the first \$550 of monthly gross salaries plus 8.275% for the excess of this amount, or on the alternative, 8.275% of monthly gross salaries. The Municipality contributes to the System 9.275% of the participating employee's gross salaries.

Pension benefits for employees that joined the system before April 1, 1990 are as follows:

<u>Years of Service</u>	<u>Participant Age</u>	<u>Pension Benefits</u>
30 or more	54 or less	65% of the average of the three years of highest salary during the employees' service period.
30 or more	55 or more	75% of the average of the three of highest salary during the employees' service period.

For participants who retire with less than 30 years of service the pension benefits is computed at the rate of 1-1/2% of their average compensation for each year of credited service for the first 20 years and 2% for each of credited service for the remaining years.

**11. RETIREMENT PLAN (CONTINUED)**

For those employees that joined the system after April 1, 1980 the pension benefits are as follows:

<b>Years of Service</b>	<b>Participant Age</b>	<b>Pension Benefits</b>
25 or more	Between 55 and 64	Computed at the rate of 1-1/2% of their average compensation for each year of credited service, with an actuarial reduction based on the actuarial guides adopted by the Board of Trustees.
10 or more	65 or more	Computed at the rate of 1-1/2% of their average compensation for each year-credited service.

For participants who retire with less than 25 years of service and the participant age are 64 or less the pension benefit is computed at the rate of 1-1/2% of their average compensation for each year of credited service.

**Defined Contribution Plan**

The Legislature of the Commonwealth enacted Act No. 305 on September 24, 1999, which amends Act No. 447 to establish, among other, a defined contribution saving plan program (the "Program") to be administered by the Retirement System. All regular employees hired for the first time on or after January 1, 2000 and former employees who participated in the defined benefit pension plan, received a refund of their contributions and are rehired on or after January 1, 2000 become members of the Program as a condition to their employment. In addition, employees who at December 14, 1999 were participants of the defined benefit pension plan, had the option, up to March 31, 2000, to irrevocably transfer their prior contributions to the defined benefit pension plan plus interest thereon to the Program.

Act No. 305 requires employees to contribute 8.275% of their monthly gross salary to the Program. Employees may elect to increase their contribution up to 10% of their monthly gross salary. Employee contributions are credited to his/her individual account established under the Program. Participants have three options to invest their contributions to the Program. Investment income is credited to the participant's account semi-annually.

**11. RETIREMENT PLAN (CONTINUED):**

The Municipality is required by the Act No. 305 to contribute 9.275% of the participant's gross salary. The System will use these contributions to increase its asset level and reduce the unfounded status of the defined benefits pension plan.

Upon retirement, the balance in the participant's account will be used to purchase an annuity contract, which will provide for a monthly benefit during the participant's life and 50% of such benefit to the participant spouse in case of the participant death. Participants with balance of \$10,000 or less at retirement will receive a lump-sum payment. In case of death, the balance in the participant's account will be paid in a lump sum to his/her beneficiaries. Participants have the option of a lump sum or purchasing an annuity contract in case of permanent disability.

Total Municipality contributions to the above-mentioned plans during the year ended June 30, 2001 recorded as pension expenditures was approximately \$ 255,800. This amount represent 100% of the required contribution for the fiscal year ended June 30, 2001.

The amount of the total pension benefit obligation is based on a standardized measurement established by GASB Number 27, *Accounting for Pensions by State and Local Governmental Employers*. The standardized measurement is the actuarial present value of credited projected benefits. This pension valuation method reflects the present value of estimated pension benefits that will be paid in future years as a result of employee's services performed to date and is adjusted for the effects of projected salary increases. The significant actuarial assumptions used to determine the standardized measure of the pension benefit obligation are summarized below:

- \* The present value of the future pension payments was computed by using a discount rate of 8.5%. The discount rate is equal to the estimated long-term rate of return on current and future investments of the pension plan.
- \* Future pension payments reflect an assumption of 5% salary increase.

The measure is intended to help users assess the System's funding status on a going-concern basis, assess progress made in accumulating sufficient assets to pay benefits when due, and make comparisons among other public retirement systems. The measure is independent of the actuarial funding method used to determine contributions to the plan.

**11. RETIREMENT PLAN (CONTINUED):**

The membership of retirees and beneficiaries currently receiving benefits and terminated employees entitled to benefits, but not yet receiving benefits, and active employees and the distribution of active employees between vested and nonvested is not readily available. Contributions in 2001 and prior years were made based on percentages established by the law. Such percentage has not been based on actuarial studies, as required by generally accepted accounting principles. An actuarial compilation of the annual contribution applicable to the Municipality has not been prepared. Accordingly, the accounts by which the actual contributions differ from the required actuarial contributions are not known.

The ten-year historical trend information is available in the separately issued audited financial statements of the Retirement System.

**12. INTERFUND TRANSACTIONS:**

**Due from/to other funds**

Interfund receivables and payables represent temporary loans between the funds.

**Operating transfers**

Operating transfers represent transfers between funds to specific purposes designated by the management.

**13. COMMITMENTS AND CONTINGENCIES:**

**A. Federal grants:**

The Municipality participates in a number of Federal Financial Assistance Programs. These programs are subject to financial and compliance audits. The amount, if any, of expenditures which may be disallowed by such audits cannot be determined at this time, although the Municipality expects such amounts, if any, not to be material.

**13. COMMITMENTS AND CONTINGENCIES (CONTINUED):**

**B. Claims and lawsuits:**

The Municipality is a defendant in legal matters that arise in the ordinary course of the Municipality's activities. With respect to pending and threatened litigation, the Municipality has reported liabilities of \$10,000 in the general long-term debt account group for anticipated settlement related to case number BPD-99-0006. The amount presented in the general long-term debt account group represents the amount of estimated as probable liability, which will require future available financial resources for its payment. The administration believes that the ultimate liability in excess of amounts provided would not be significant.
