INDEPENDENT AUDITORS' REPORT

To the Honorable Mayor
and Municipal Assembly
Municipality of Florida
Florida, Puerto Rico

We have audited the accompanying general-purpose financial statements of the Municipality of Florida, as of and for the year ended June 30, 2001, as listed in the table of contents. These general-purpose financial statements are the responsibility of the Municipality of Florida's management. Our responsibility is to express an opinion on these general-purpose financial statements based on our audit.

Except as described in the following paragraph, we conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall general purpose financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note 6, the Municipality of Florida has not maintained complete and adequate records relating to the fixed assets of the General Fixed Assets Account Group. Accordingly, we were unable to satisfy ourselves as to the fixed asset balance or such all group amounting to \$9,328,552.

In our opinion, except for the effects of such adjustments, if any, as might have been determined to be necessary had we been able to satisfy ourselves as to general fixed assets balances, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Municipality of Florida as of June 30,

2001, and the results of its operations for the fiscal year then ended, in conformity with generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 8, 2001, on our consideration of the Municipality's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Our audit was performed for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U. S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the general purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the general purpose financial statements taken as a whole.

San Juan, Puerto Rico

MUNICIPALITY OF FLORIDA
NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2001**

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Organization

The Municipality of Florida, Puerto Rico (Municipality) was incorporated in 1973. The Municipality is a political legal entity with full legislative and administrative faculties in every affair of the municipal character, with perpetual succession existence and legal personality, separate and independent from the central government of the Commonwealth of Puerto Rico. The Municipality provides a full range of services including health, public works, environmental control, education, public safety, public housing and community development, culture and recreation as well as many other general and administrative services.

The Municipal Government comprises the executive and legislative branches. The executive power is exercised by the Mayor and the legislative by the Municipal Assembly, which has 12 members. The members of these branches are elected every four years in the Puerto Rico general elections.

b. Summary of Significant Accounting Policies

The accounting policies of the Municipality are in accordance with the generally accepted accounting principles applicable to government entities. The Governmental Accounting Standards Board (GASB), is the standard-setting body for governmental accounting and financial reporting. On June 15, 1987, the GASB issued a codification of the existing Governmental Accounting and Financial Reporting Standards which, along with subsequent GASB pronouncements (Statements and Interpretations), constitutes GAAP for governmental units. The following is a summary of the more significant policies:

1) Fund Accounting

The accounts of the Municipality are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprises its assets, liabilities, fund equity, revenues, and expenditures, or expenses, as appropriate.

**COMMONWEALTH OF PUERTO RICO
MUNICIPALITY OF FLORIDA
NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS (CONTINUED)
FOR THE FISCAL YEAR ENDED JUNE 30, 2001**

Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

The various funds are grouped in the financial statements into four fund types and other fund category, as follows:

a) Governmental Funds

i. General Funds

The General funds are the general operating funds of the Municipality. It is used to account for all financial resources except those required to be accounted for in another fund.

ii. Special Revenue Funds

Special revenue funds are used to account for the proceeds of specific revenue sources (other than special assessments, expendable trusts, or major capital projects) that are legally restricted to expenditures for specified purposes.

iii. Debt Service Funds

Debt service funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

iv. Capital Project Funds

Capital project funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds, Special Assessments Funds and Agency Funds).

**COMMONWEALTH OF PUERTO RICO
MUNICIPALITY OF FLORIDA
NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS (CONTINUED)
FOR THE FISCAL YEAR ENDED JUNE 30, 2001**

b) Fiduciary Funds

Trust and Agency Funds

Trust and Agency Funds are used to account for assets held by the Municipality in a trustee capacity or as an agent for individuals, private organizations, other governments and/or other funds. Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

c) Account Groups

Account groups are used to establish accounting control and accountability for the Municipality's general fixed assets and general long-term debt. The following are the Municipality's account groups:

i. General Fixed Assets Account Group

This group of accounts is established to account for all fixed assets of the Municipality.

ii. General Long-term Debt Account Group

This group of accounts is established to account for all long-term debts of the Municipality.

d) Budgetary Control:

The Mayor submits and the Municipal Assembly approves, an annual budget for each fiscal year beginning July 1 as well as any amendment thereon. Appropriations in the Municipality budget consist of the following:

i. General Fund appropriations for recurrent and ordinary functions of the Municipality.

ii. Appropriations of Special Funds for specific purposes and for capital improvements are, for the most part, authorized by separate laws and

**COMMONWEALTH OF PUERTO RICO
MUNICIPALITY OF FLORIDA
NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS (CONTINUED)
FOR THE FISCAL YEAR ENDED JUNE 30, 2001**

do not require annual legislative budget authorization because they are continuing appropriations.

2) Basis of Accounting

Governmental revenues and expenditures are recognized using the modified accrual basis. Revenues are recognized in the accounting period in which they become both measurable and available to be used to pay recorded liabilities. Expenditures are recognized in the accounting period in which the final liability is incurred, measurable, except for unmatured interest on general long-term debt, which is recognized when due. Agency fund assets and liabilities are accounted for on modified accrual basis.

To accrue the intergovernmental revenues, the legal and contractual requirements of individual programs are used as a guide. Essentially, there are two types of revenues. In one, the resources must be used in the specific projects and purposes before the revenues are recognized by the Municipality. Therefore, revenues are recognized based on recorded expenditures and submitted to the granting agencies for reimbursements. In the other revenues, resources are unrestricted as to purpose of expenditures and are usually revocable only for failure to comply with prescribed compliance requirements.

Licenses, fees, permits, fines and other revenues are recognized when received.

Interest income is recognized and accrued in the accounting period in which they are earned.

3) Encumbrances

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrances accounting (under which purchase orders, contracts, and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation) is utilized in the governmental funds. Encumbrances outstanding at a year end are reported as reservations of fund balances and do not constitute expenditures

MUNICIPALITY OF FLORIDA

or liabilities because the commitments will be honored during the subsequent year.

4) Total Column (Memorandum Only)

The amounts presented under this column represent the aggregate amount of the different types of funds and account groups. The totals under this column were not obtained from eliminations or consolidations, accordingly, they do not present consolidated information.

5) Insurance

The Municipality has insurance coverage for their public facilities and certain officials are covered by a fidelity bond. The Secretary of Treasury is the person authorized to negotiate the insurance coverage of the Municipality.

6) Inventories

The General and Special Revenue Fund purchase office and printing supplies, gasoline, oil and other items. The cost of current purchases is recorded as expenditures.

7) Interfund Transactions

Interfund transactions represent operating transfers from a fund receiving revenues to a fund through which the resources are to be disbursed.

8) Vacation and Sick Leave

Employees are entitled to 30 days vacations leave and 18 days sick leave per year. Sick leave is recorded as an expenditure in the year paid. Employees are entitled to payment of unused sick leave upon retirement if have been employed for at least 10 years in the municipal government. On July 1997, state Law 152 supra amended the Article 12.016, Section b (2) of the Municipal Law, authorizing the Municipality to pay any excess of vacations and sick leave accumulated over the maximum previously permitted by law. Calculations must be made until December 31 of every

year. Excess of sick leave must be paid until March 31 next every natural year. Excess of vacations can be paid after July 1 of every fiscal year.

9) Reporting Entity

In evaluating the Municipality as a reporting entity, management has addressed all potential component units which may or may not fall within the Municipality's oversight and control and, as such, be included within the Municipality's financial statements. The basic criteria for including a component unit within the Municipality's reporting entity is the exercise of oversight responsibility by the Municipality's Council. The specific criteria used by the Municipality for establishing oversight responsibility are:

Manifestations of Oversight Responsibility

- Selection of Governing Authority
- Designation of Management
- Ability to Influence Operations Significantly

Accountability for Fiscal Matters

- Budgetary Authority
- Surplus/Deficit
- Responsibility for Debt
- Fiscal Management
- Revenue Characteristics

Factors other than oversight which may significantly influence the entity relationship are:

**Scope of Public Service
Special Financing Relationships**

The relative importance of each criteria is evaluated in light of specific circumstances in order to determine which component units are to be included as part of the reporting entity. Our specific evaluations of the criteria applicable to the Municipality of Florida indicate that the reporting entity consists of all funds and accounts groups included in the combined

**COMMONWEALTH OF PUERTO RICO
MUNICIPALITY OF FLORIDA
NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS (CONTINUED)
FOR THE FISCAL YEAR ENDED JUNE 30, 2001**

balance sheet, therefore no organizations, activities or functions were excluded from the reporting entity.

10) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and related disclosures at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.

2. CASH AND SHORT-TERM INVESTMENTS

a. Cash in Bank and Concentration Risk

The amounts reflected as cash in the balance sheet represents the individual funds' equity in pooled cash balance.

The Municipality maintains its cash accounts in one bank located in Puerto Rico. Accounts are guaranteed by the Federal Deposit Insurance Corporation (FDIC) up to \$100,000. The following is a summary of the total insured by collateral provided by bank and held by the Treasury Department of the Commonwealth of Puerto Rico pursuant to applicable laws and regulations.

	<u>Total</u>	<u>Insured by FDIC</u>	<u>Insured by Collateral in Treasury Department</u>
Popular Bank	\$ <u>1,408,343</u>	\$ <u>100,000</u>	\$ <u>1,308,343</u>

b. Cash with Fiscal Agents

An additional special tax of 1.25% of the assessed value of all real and personal properties are levied by the Municipality. The proceeds of said tax are required to be credited to the Debt Service Fund for payment of General Obligation Bonds and Notes of the Municipality. The property taxes are collected by the Municipal Revenues Collection Center as agent for the Municipality and are retained by the

Government Development Bank for debt service purposes. At June 30, 2001, the balance of cash retained by the Government Development Bank amounted to \$326,280.

The bond issued by the Municipality is administrated by the Government Development Bank with a method of escrow system. At June 30, 2001, the balance of cash retained by the Government Bank available for the acquisition of real property and federal program amounted to \$697.

3. PROPERTY TAXES

The Municipal Revenues Collection Center of the Commonwealth of Puerto Rico (CRIM) is responsible by law for the assessment, levy and collection of all real and personal property taxes. The tax on personal property is self assessed by the taxpayer. The assessment is made in a return which must be filed with the Municipal Revenues Collection Center by May 15 of each year. The tax on real property is assessed by the Municipal Revenues Collection Center. The assessment is made as of January 1 of each year and is based on estimated current values of the property as of the year 1957. The tax on personal property must be paid in full together with the return on or before May 15. The tax on real property is due in two equal installments in July 1 and January 1, following the assessment date.

The rates are 8.08% for real property and 6.08% for personal property. The composition is as follows:

	<u>Real</u>	<u>Personal</u>
Basic property	6.00%	4.00%
Additional special property - state	1.03%	1.03%
Additional special property - municipal	1.25%	1.25%
Discount made by state to taxpayer	< .20% >	< .20% >
 Total	 <u>8.08%</u>	 <u>6.08%</u>

The "Additional special property tax - municipal" is restricted for debt service and retained by the Government Development Bank for such purposes and it is recorded as revenue in the Debt Service Fund when collected by the Municipal Revenues Collection Center and reported to the Municipality.

FOR THE FISCAL YEAR ENDED JUNE 30, 2001

The "Additional special property tax - state" is collected by the Municipal Revenue Collection Center for the payment of principal and interest of general obligation bonds and certain other obligations issued by the state government.

Residential real property occupied by its owner is exempt by law from the payment of property taxes on the first \$15,000 of the assessed value. For such exempted amounts, the Department of the Treasury assumes payment of the basic tax to the Municipality, except for property assessed of less than \$3,500, for which no payment is made. Revenue related to the basic tax on exempt property is recorded in the General Fund when payments are received from the Municipal Revenues Collection Center.

Complete exemption from personal property taxes up to an assessment of \$50,000 is granted to merchants with an annual volume of net sales less than \$150,000.

The Municipal Revenues Collection Center advances to the Municipality an estimated amount of the basic property tax levied on nonexempt property for each fiscal year. Advances are repaid through actual collections from the taxpayers. The Municipal Revenues Collection Center periodically informs the Municipality of the amounts collected and applied to outstanding advances. The basic property tax advanced by the Municipal Revenues Collection Center (nonexempt) is recorded as other financing sources in the Municipality's General Fund and as an obligation in the General Fund. To the extent that such taxes are collected and informed by the Municipal Revenues Collection Center, they are recorded in the General Fund as revenue and as due to the Municipal Revenues Collection Center.

4. MUNICIPAL LICENSE TAX

Municipal License Tax receivables are recorded in the fiscal year in which payment is due and, accordingly, represent taxes which are due and uncollected at June 30, 2001. The annual Municipal License Tax is determined based on the gross income of all commerce and industrial organizations who have operations in the Municipality of Florida, and are not totally or partially exempt under the Industrial Incentive Law of Puerto Rico.

MUNICIPALITY OF FLORIDA
NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS (CONTINUED)
FOR THE FISCAL YEAR ENDED JUNE 30, 2001**

An annual return of business volume should be filed on or before April 15 of each year and payable in two equal installments due on July 1 and January 1. The rates of municipal license in the Municipality of Florida are as follows:

Savings and loans associations	=	1.50%
Financing institution	=	1.50%
Other organizations	=	.50%

The amounts collected in advance are recorded as deferred revenues in the General Fund. The Municipality invoiced and collected in advance during the current year \$106,136, corresponding to the next fiscal year municipal license.

5. INTERGOVERNMENTAL REVENUES

Intergovernmental revenue sources consist of contributions received from certain quasi-public corporations of the Government of Puerto Rico, such as the Water and Sewer Authority, the Electric Power Authority and from certain federal agencies, such as U.S. Department of H.U.D., U.S. Department of Health and Human Services and U.S. Department of Labor.

6. GENERAL FIXED ASSETS

General fixed assets have been acquired for general governmental purposes. Assets purchased are recorded as expenditures of the various governmental funds and capitalized at cost, or, if donated, at their estimated fair market value at time of contribution in general fixed assets accounts group. Maintenance, repairs and minor renewals are expended as incurred. Asset dispositions and retirements are informed monthly to the Department of Treasury and written-off after authorization of that department. Depreciation is not provided on general fixed assets. Public domain or infrastructure, such as roads, streets, gutter, curbs, sidewalks, and drainage, is not recorded in this group of accounts. The Municipality has not maintained adequate records for its Fixed Assets, and management was not able to make an assertion as to the completeness of the General Fixed Assets Account Group. However, the Finance Department at present is in the process of updating these records in order to maintain a proper system in its future.

The property taxes are collected and retained by the Municipal Revenues Collection Center as agent for the Municipality.

11. RETIREMENT PLAN

a. Plan Description

The Employee's Retirement System of the General Government of Puerto Rico and its Instrumentalities (ESR) is the administrator of a cost-sharing multiple-employer retirement system established by the Commonwealth of Puerto Rico. The System was created under the ACT 447, approved on May 15, 1951, as amended, and became effective on January 1, 1952. ERS covers all regular employees of the Commonwealth of Puerto Rico and its instrumentalities and of certain municipalities and components units not covered by their own retirements systems.

Participation is mandatory except for members of the Legislature, Government Secretaries, Heads for Agencies and Public Instrumentalities, Assistants to the

FOR THE FISCAL YEAR ENDED JUNE 30, 2001**

Governor, the Comptroller of Puerto Rico, Gubernatorial Board and Committee appointees and Experimental Service Station employees.

The Systems provides retirement, death and disability benefits. Disability retirement benefits are available to members for occupational and non-occupational disabilities. Retirement benefits depend upon age at retirement and number of years of credited service. Benefits vest after ten years of plan participation.

Members who have attained an age of at least fifty-five (55) years and have completed at least twenty-five (25) years of creditable service of members who have attained an age of at least fifty-eight (58) years and have completed at least fifty-eight (58) years and have completed at least ten (10) years of creditable service, are entitled to an annual benefit, payable monthly for life.

The amounts of the annuity will be one and one-half percent of the average compensation multiplied by the number of years of creditable service up to twenty years, and 2 percent of the average compensation multiplied by the number of years of creditable service in excess of twenty years. In no case the annuity will be less than \$200 per month.

Participants who have completed at least thirty (30) years of creditable service are entitled to receive the Merit Annuity. Participants who have not attained fifty-five (55) years of age will receive 65% of the average compensation or if they have attained fifty-five (55) years of age will receive 75% of the average compensation. Disability retirement benefits are available to members for occupational and non-occupational disability. However, for non-occupational disability a member must have at least ten (10) years of service.

No benefit is payable if the participant receives a refund of his accumulated contributions.

b. Contribution Requirements

Commonwealth legislation requires employees to contribute 5.775% of gross salary up to \$6,600 plus 8.275% of gross salary in excess of \$6,600. The Municipality contributions are 9.275% of gross salary. Contributions' requirements are established by law. The actuarially determined contribution requirement and

Trend information prior to 1998 is not available

For a ten-year trend information, refer to the separately issued financial statements of the Employee's Retirement System as of and for the year ended June 30, 2001.

12. CONTINGENCIES

- a. The Municipality receives Federal Grants for specific purposes that are subject to review and audit by the grantor agencies. Although such audits could generate expenditure disallowances under the terms of the grants, management believed that any required reimbursements would not be material.
- b. The Municipality is a defendant and/or co-defendant in various lawsuits which claims for actual damages. Some of these lawsuits are covered by insurance.

**COMMONWEALTH OF PUERTO RICO
MUNICIPALITY OF FLORIDA
NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS (CONTINUED)
FOR THE FISCAL YEAR ENDED JUNE 30, 2001**

The Municipality's management and counsels believe that any potential liability that might exist, if any, in excess of the insurance, will not affect significantly the financial position of the Municipality.

13. COMMITMENTS

The Municipality of Florida had several outstanding or planned construction projects as of June 30, 2001. These projects are evidenced by contractual commitments with contractors. The construction projects of the Municipality are commitments of the Capital Projects' funds that amounts to \$490,046.

14. LEASES

Leasing arrangements with the Municipality as lessor are as follows:

- a. The Municipality leases spaces in its market place and facilities under operating lease agreements with terms ranging from one to five years.
- b. Total income from leases during the year ended June 30, 2001 was approximately \$112,350.
- c. The Municipality retains title to its leased property. The lessee pays taxes, municipal license taxes, insurance, and maintenance costs of the leased assets.

Leasing arrangement with the Municipality as lessee:

The Municipality is obligated under noncancellable operational leases, with periods not longer than one year.

15. BUDGETARY COMPARISONS

As described in Note 1, the statement of revenues and expenditures budget and actual was prepared in accordance with the budgetary basis. This method is not in accordance in some aspects with generally accepted accounting principles.

**COMMONWEALTH OF PUERTO RICO
MUNICIPALITY OF FLORIDA
NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS (CONTINUED)
FOR THE FISCAL YEAR ENDED JUNE 30, 2001**

The principal difference between budgetary basis and generally accepted accounting principles, are as follows:

- a. The encumbrances are recorded as expenditures in the budgetary basis instead of as a reserve of the fund balance.
- b. The advances of property taxes are recorded as revenues in the budgetary basis instead as other financing sources, as required by generally accepted accounting principles.
- c. Under generally accepted accounting principles, the collection of property taxes through Municipal Revenue Collection Center is recorded as revenue and at the same time, such amount is recorded as expenditure and applied to previously advanced taxes when they are notified to the Municipality. In the budgetary basis, said revenues are recorded as revenues when the advances are received.

The necessary adjustments to reconcile the revenues and expenditures at the end of the year from the generally accepted accounting principles to budgetary basis, are as follows:

	<u>Revenues</u>	<u>Expenditures</u>
Generally accepted accounting principles basis	\$5,373,008	\$5,150,417
Plus current year encumbrances recorded as expenditures on the budgetary basis	-	150,462
Less prior year encumbrances recorded as expenditures on the GAAP basis	-	(65,922)
Plus advances of property taxes recorded as revenue on the budgetary basis	273,,567	-
Plus transfer in/out	11,832	179,908

Budgetary basis	<u>\$4,711,709</u>	<u>\$4,244,593</u>

The budget prepared for each of the special revenue funds is based on a program period which is not necessarily the same fiscal year of the Municipality. Accordingly, it is not practical to present an annual comparison of budget and actual for the Special Revenue Fund.

The Municipality budget is amended by the majority vote of the Municipal Assembly. Said amendments are included in the budgetary basis.

16. MUNICIPAL SOLID WASTE LANDFILL CLOSURE

The Municipality owns and operates a landfill located in the southern portion of the Municipality. State and federal laws will require the Municipality to close the landfill once its capacity is reached and to monitor and maintain the site. The most recent engineering study (1998) reveals that the landfill can operate for the next five years.

The Municipality is realizing some improvements to the landfill in order to comply with some local regulations. The costs are being financed with federal funds. The total estimates of the closure and post-closure cost of the landfill has no been determinated and accounted as required by generally accepted accounting principles as of June 30, 2001.

17. SUBSEQUENT EVENT

The New Governmental Financial Reporting Model

In June 1999, the Governmental Accounting Standards Board (GASB) unanimously approved the issuance of the long-awaited statement on the financial reporting model project. GASB No. 34, "Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments," makes dramatic changes to the way state and local governments report their finances to the public. Issuance of the statement is the culmination of an extended due process period, including the issuance of a preliminary views document and exposure draft and conducting public hearings and focus groups.

Under the new reporting model, general purpose governments must present the following basic financial statements and required supplementary information (RSI) to be in accordance with generally accepted accounting principles:

- a. Management's discussion and analysis.
- b. Government-wide financial statements.
- c. Fund financial statements.
- d. Notes to the financial statements.
- e. RSI, including budgetary comparison schedules, infrastructure condition data, and other data required by previous GASB pronouncements, if applicable.

The Statement will first be effective for governments with annual revenues exceeding \$100 million for fiscal years beginning after June 15, 2001; for those with revenues of \$10 million to \$100 million, years beginning after June 15, 2002; and for those with revenues of less than \$10 million, years beginning after June 15, 2003.

**INDEPENDENT AUDITORS' REPORT
ON INTERNAL CONTROL STRUCTURE BASED ON AN AUDIT
OF GENERAL PURPOSE FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Honorable Mayor
and Municipal Assembly
Municipality of Florida
Florida, Puerto Rico

We have audited the financial statements of the Municipality of Florida as of and for the year ended June 30, 2001, and have issued our report thereon dated November 8, 2001, which was qualified because insufficient audit evidence exists to support Municipality of Florida's disclosures with respect to the general fixed assets balances. Except as discussed in the preceding sentence, we conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the Municipality of Florida's general purpose financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our test disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control over Financial Reporting

In planning and performing our audit, we considered Municipality of Florida's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on general purpose financial statements and not to provide assurance on the internal control over financial reporting. However, we noted certain matters involving the internal control over financial reporting and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect the Municipality of Florida's ability to record, process, summarize, and report financial data consistent with the assertions of management in the general purpose financial statements. Reportable conditions are described in the accompanying schedule of reportable conditions and recommendations as items from 01-1 to 01-2.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the general purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all matters reportable conditions that are also considered to be material weaknesses. However, we believe that none of the reportable conditions described above is a material weakness. We also noted other matters involving the internal control over financial reporting, which we have reported to management of Municipality of Florida, in a separate letter dated November 30, 2001.

This report is intended solely for the information and use of the audit committee, Commissioner Office of Municipal Affairs, management and the federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

SCHEDULE OF REPORTABLE CONDITIONS AND RECOMMENDATIONS
FOR THE FISCAL YEAR ENDED JUNE 30, 2001**

1. ACCOUNTING SYSTEM

We noted that the Municipality of Florida is not keeping an accounting system as required by General Accepted Accounting Principles at present time, the Municipality records the transactions in the general, capital project and special funds. These funds are kept under the cash basis method. Also, the system used to record the purchase orders and contracts are not adequate; because does not provide for a segregation between the account payable and the encumbrances. In order to prepare the combined financial statements, we realized several adjusting entries to convert them to a modified accrual basis of accounting.

Recommendation

We recommend the Municipality of Florida that in coordination with the Municipal Revenue Collection Center and the Commissioner Office of Municipal Affairs, implement an accounting system which should provide the following.

That the Municipality's operations are accounted for through several separate funds and account groups, accounting in each of them the related assets, liabilities, and equity and other balances. The individual funds should be summarized in a combined financial statements by fund category. The Municipality should use the general purpose financial statements based on the following fund and accounts groups:

a. Governmental Funds

Governmental funds are used to finance most of the governmental functions. The sources and uses of resources available are systematically registered through the statement of changes in fund balances and not through the determination of net income. The different types of governmental funds are as follows:

1) General

This is the operational fund for the Municipality. It accounts for all financial resources except those required to be accounted for in another funds.

FOR THE FISCAL YEAR ENDED JUNE 30, 2001**

2) Special revenue

Is used to account for the proceeds of specific revenue sources (other than expendable trust or mayor capital projects) that are legally restricted for expenditure for specified purposes.

3) Debt service

Is used to account for the accumulation of resources for, and the payment of, general long-term debt, principal, interest and related costs.

4) Capital project

Is used to account for financial resources to be used for the construction or acquisition of major capital facilities (other than those financed by proprietary and trust funds).

The resources that come from bonds and notes are registered as other financial resources in the Capital Project Funds. The expenditures related to the projects are incurred after the bonds and note issuances.

So, the Capital Project Funds can reflect an excess of expenditures over revenues and other resources.

b. Proprietary Fund

Is used to account for operations financed and operated similar to business, whose main objective is the determination of net income. The main objective of this type of fund is to match income with expenses and deriving profits. Depreciation accounts are also used in this type of fund.

c. Trust and Agency Fund

Is used to account for assets held by the Municipality Agency, in the trustee's capacity or as agent whose main responsibility is to ascertain that those assets are disposed of as prescribed by the individual or other governmental unit.

d. Account Groups

Accounts groups are not funds. The same should be used to establish accounting controls and to account for General Fixed Assets and General Long-term Debt.

1) General Fixed Assets accounts group

Is used to provide accounting over general fixed assets, except those already recorded in the proprietary and Trust Funds.

2) General Long-term Debt accounts group

Is used to provide accounting control over General Municipal Long-term Debt; except those accounted in the Proprietary and Trust Funds.

The Municipality's accounting system should provide for the segregation of the encumbrances from accounts payable. Encumbrances represent commitments related with a service to be received or a good to be acquired. This amount should be accumulated in an account named Fund Balance Reserved for Encumbrances at the time the purchase order is issued. The amount of Encumbrances should be reserved for each fund balance since no bilateral agreement exists. The accounts payable and accrued expenses should be recorded when the debt is incurred and the amount is determinable.

2. FIXED ASSETS

During the audit we noted that:

- a. The additions to the property ledger had been recorded on a cash basis, instead on the accrual basis.
- b. There is no supervision process established in order to verify if each department keeps adequate control of the property that is under their responsibility.
- c. Expenditures for financing charges of issued long-term debts, and financing charges related to property, plant and equipment had not been recorded in the property ledger.

FOR THE FISCAL YEAR ENDED JUNE 30, 2001**

- d. There is no supervision process to verify if each department keeps adequate control of the inventory.

Recommendation

To improve the internal controls in the area of property, the following procedures should be implemented by the Property Custodian in coordination with the Finance Director:

- a. It is recommended to take a physical inventory once a year. Any discrepancies found should be investigated and proper action taken.
- b. The Department of Property must perform periodical surprise physical observations and/or verification of the related assets to determine their existence and condition.
- c. The Department of Property must record the expenditures for financing charges of issued long-term debts.
- d. It is recommended to reconcile periodically the expenditures recorded by the Finance Department and the amount recorded by the Department of Property. Any discrepancies found should be investigated.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH
REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM
AND INTERNAL CONTROL OVER COMPLIANCE
IN ACCORDANCE WITH OMB CIRCULAR A-133**

To the Honorable Mayor
and Municipal Assembly
Municipality of Florida
Florida, Puerto Rico

Compliance

We have audited the compliance of Municipality of Florida with the types of compliance requirements described in the *U. S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2001. Municipality of Florida's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Municipality of Florida's management. Our responsibility is to express an opinion on Municipality of Florida's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Municipality of Florida's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not

provide a legal determination on Municipality of Florida's compliance with those requirements.

In our opinion, Municipality of Florida complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2001. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements that are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as item 01-1 to 01-2.

Internal Control over Compliance

The management of Municipality of Florida is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered Municipality of Florida's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components do not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the audit committee, Commissioner Office of Municipal Affairs, management and the federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
