INDEPENDENT AUDITORS' REPORT

**To the Honorable Mayor and
the Municipal Legislature
Municipality of Juncos
Juncos, Puerto Rico**

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the **Municipality of Juncos**, Puerto Rico (Municipality), as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the Municipality's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risk of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation financial statements.

INDEPENDENT AUDITORS' REPORT (CONTINUED)

We believe that the audit evidence we have obtained is sufficient and appropriate to provide basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Autonomous Municipality of Juncos, Puerto Rico, as of June 30, 2013, and the respective changes in financial position, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 4 through 13 and 60 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with the auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the **Municipality of Juncos** basic financial statements. The accompanying supplementary information - Financial Data Schedules shown in pages 62 and 63 are presented for purposes of additional analysis as required by the U.S. Department of Housing and Urban Development, Office of the Inspector General, and is not required part of the financial statements. The accompanying supplementary information - Schedule of Expenditures of Federal Awards shown in pages 65 to 67 is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements.

INDEPENDENT AUDITORS' REPORT (CONTINUED)

The Financial Data Schedules and the Schedule of Expenditures of Federal Awards are the responsibility of management and was derived from and related directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Financial Data Schedules and the Schedule of Expenditures of Federal Awards are fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 28, 2014, on our consideration of **Municipality of Juncos** internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of this report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering **Municipality of Juncos** internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2013

This discussion and analysis of the **Municipality of Juncos** (the Municipality) financial performance provides an overview of the Municipality's financial activities for the fiscal year ended on June 30, 2013. The Management Discussion and Analysis (MD&A) should be read in conjunction with the accompanying basic financial statements and the accompanying notes to those financial statements. The discussion and analysis includes comparative data for prior year as this information is available for the fiscal year ended on June 30, 2012. This MD&A is prepared in order to comply with such pronouncement and, among other purposes, to provide the financial statements users with the following major information:

1. a broader basis in focusing important issues;
2. acknowledgement of an overview of the Municipality's financial activities;
3. provide for an evaluation of its financial condition as of the end of the indicated fiscal year, compared with prior year results;
4. identification of uses of funds in the financing of the Municipality's variety of activities and;
5. assess management's ability to handle budgetary functions.

FINANCIAL HIGHLIGHTS

The financial condition and results of operations as reflected in the financial statements prepared for fiscal year 2013 constitute factual evidence of the Municipality's economic situation by the end of such year. The following comments deserve special mention:

1. Total assets of the Municipality amounted to \$102,089,117 which represents a decrease of 10% compared to prior fiscal year;
2. At the end of fiscal year 2013, total liabilities amounted to \$91,836,263. Out of said amount, \$72,546,213 corresponded to long-term liabilities of which \$39,909,213 represented the outstanding balance of bonds and notes issued. The Municipality continued to meet all debt service requirements, most of which was paid from self-generated revenues;
3. Total net position of the Municipality amounted to \$10,252,854 which represents a decrease of 74% compared to prior fiscal year, as restated;
4. Total revenues available for the financing of activities as reflected in the Statement of Activities amounted to \$38,472,400, derived from the following sources: \$3,115,935 charges for services; \$3,121,772 from operating grants and contributions; \$1,728,877 from capital grants and contributions obtained from other sources, and \$30,505,816 from general revenues available;

FINANCIAL HIGHLIGHTS (CONTINUED)

5. Total expenses incurred to afford the cost of all functions and programs as reflected in the Statement of Activities amounted to \$67,116,718;
6. As of the close of the current fiscal year, the Municipality's Governmental Funds reported combined ending fund balances of \$6,410,950;
7. As of the end of the current fiscal year the Municipality's General Fund deficit amounted to \$7,850,003;
8. The actual General Fund budgetary activities resulted in an unfavorable balance of \$(3,505,890).

FUNDAMENTALS OF FINANCIAL STATEMENTS PRESENTATION

The new approach used in the presentation of the financial statements of the Municipality is based on a government-wide view of such statements as well as a presentation of individual funds behavior during fiscal year 2013. The combination of these two perspectives provide the user the opportunity to address significant questions concerning the content of said financial statements, and provide the basis for a comparable analysis of future years performance. The comparative analysis is a meaningful and useful management tool for municipal management in the decision making process.

Under the aforementioned approach, assets and liabilities are recognized using the accrual basis of accounting which is similar to the method used by most private enterprises. This means that current year's revenues and expenses are accounted for regardless of when cash is received or paid.

FINANCIAL STATEMENTS COMPONENTS

The basic financial statements consist of the government wide financial statements, the major funds financial statements and the notes to the financial statements which provide details, disclosure and description of the most important items included in said statements.

**COMMONWEALTH OF PUERTO RICO
MUNICIPALITY OF JUNCOS**

MANAGEMENT'S DISCUSSION AND ANALYSIS - (CONTINUED)

YEAR ENDED JUNE 30, 2013

FINANCIAL STATEMENTS COMPONENTS (CONTINUED)

The Statement of Net Position reflects information of the Municipality as a whole of a consolidated basis and provides relevant information about its financial strength as reflected at the end of the fiscal year. Such financial level is measured as the difference between total assets and liabilities, with the difference between both items reported as net position. It is important to note that although municipalities as governmental public entities were not created to operate under a profit motive framework, the return on assets performance plays an important role in their financial operations. The higher the increments achieved in net revenues, the higher the capacity to increase the net position figure either thru additional borrowings or thru internally generated funds. This in turn will benefit the welfare of **Juncos** constituents.

The Statement of Activities is focused on both gross and net cost of the various activities of the Municipality. It presents information which shows the changes in the Municipality's net position at the most recent fiscal year. Based on the use of the accrual basis of accounting, changes are reported as soon as the underlying event occurs, regardless of the timing of the related cash flows. Under said approach, revenues and expenses are reported in the Statement of Activities based on the theory that it will result in cash flows to be realized in future periods.

A brief review of The Statements of Activities of the Municipality at June 30, 2013, shows total expenses incurred to afford the cost of all functions and programs amounted to \$67,116,718. Upon examining the sources of revenues for the financing of said programs, the Statement reflects that \$7,966,584 was derived from the following sources: \$3,115,935 charges for services; \$3,121,772 from operating grants and contributions; and \$1,728,877 from capital grants and contributions obtained from other sources. General revenues for the year amounted to \$30,505,816. When such figure is added to the \$7,966,584 previously mentioned, total revenues available for the financing of activities amounted to \$38,472,400. There was a deficiency of revenues over expenses in the amount of \$(28,644,318) which contributed to the figure of net position attained at the end of the fiscal year.

The Fund Financial Statement is another important component of the Municipality's financial statements. A fund is a grouping of related accounts that are used to maintain accountability and controls over economic resources of the Municipality that have been segregated for specific activities. The Municipal fund type of accounting is used to demonstrate compliance with related legal requirements. Information offered thru this Statement is limited to the Municipality most significant funds and is particularly related to the local government only, instead of the government as a whole. Government funds are used to account for essentially the same functions as those reported as governmental activities. The funds are reported using an accounting method known as modified accrual accounting which measures cash and all other financial assets that can be readily converted into cash.

MUNICIPALITY OF JUNCOS

MANAGEMENT'S DISCUSSION AND ANALYSIS - (CONTINUED)

YEAR ENDED JUNE 30, 2013

FINANCIAL STATEMENTS COMPONENTS (CONTINUED)

The fund statement approach gives the user a short term view of the Municipality's government operations and the basic services it provides. Since the focus of government funds is narrower than that of the financial statements as a whole, it also helps the user with comparable information presented in the governmental activities report. By doing so, readers of the basic financial statements may understand better the long-term effect of the Municipality's short-term financial decisions.

INFRASTRUCTURE ASSETS

Historically, a significant group of infrastructure assets such as roads, bridges, traffic signals, underground pipes not associated with utilities, have not been recognized nor depreciated in the accounting records of the Municipality. GASB 34 requires that such type of assets be inventoried, valued and reported under the governmental column of the Government-Wide Statement. As explained in the Capital Assets and Debt Administration Section of this MD&A, on July 1, 2002, the Municipality commenced partially the prospective reporting of infrastructure assets. The Municipality expects to retroactively report historical costs of infrastructure assets during the fiscal year beginning on July 1, 2006.

According to the requirements of GASB 34, the government must elect to either (a) depreciate the aforementioned assets over their estimated useful life or (b) develop a system of asset management designed to maintain the service delivery to near perpetuity. If the government develops the asset management system, (the modified approach) which periodically (at least every three years), by category, measures and demonstrate its maintenance of locally established levels of service standards, the government may record its cost of maintenance in lieu of depreciation. In this particular respect, the Municipality has elected the use of recognizing depreciation under the useful life method and it contemplates to continue this treatment on said basis.

Changes in Net Position

The Statement of Activities reflects that for fiscal year 2013, the net effect of the revenues derived from several programs plus current operating revenues, amounted to \$38,472,400. Approximately 54 percent of the Municipality's total revenue came from taxes, while 36 percent resulted from grants and contributions, including federal aid. Charges for Services provide 8 percent of the total revenues. Interest and investment earnings and miscellaneous provide approximately 2 percent of the Municipality's total revenues. The largest expenses were for general government, health and welfare services, public works, public safety and culture and recreation. As follow, is presented a comparative analysis of governmental-wide data. With this analysis, the readers have comparative information with the percentage of change in revenues and expenses from prior year to current year.

FINANCIAL ANALYSIS OF THE MUNICIPALITY'S INDIVIDUAL FUNDS

As noted earlier, the Municipality uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental Funds

The focus of the Municipality's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Municipality's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Municipality's governmental funds reported combined ending fund balances of \$6,410,950, which represents a decrease of \$(12,305,379) in comparison with the prior year. Out of the indicated balance, \$1,473,968 were classified as nonspendable; \$14,133,343 were classified as restricted for the following purposes: (1) \$5,740,266 for debt service payments; 2) \$7,698,664 to pay for capital projects; 3) \$694,413 for other purposes. There are committed fund balance amounting to \$272,887 that can only be used pursuant to constraint formally imposed by the Municipal Legislature by ordinances and resolutions to pay for specific programs purpose. There assigned fund balances amounting to \$62,996 that represent resources for specific purposes but do not meet the definition to be classified as restricted or committed (generally executive orders approved by the Mayor) to pay specific programs purposes.

As of June 30, 2013, the General Fund, which is the main operating fund of the Municipality, reflected an unassigned fund deficit of \$(9,532,244).

GENERAL FUND BUDGETARY HIGHLIGHTS

Over the course of the year, the Municipality Council revised the Municipality's budget in order to include increases in revenues that were identified during the course of the fiscal year based on current developments that positively affected the Municipality's finances. Increases in budgeted expenditures were also made since the law mandates a balanced budget.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The Municipality's investment in capital assets as of June 30, 2013, amounted to \$107,511,657, which upon deduction of accumulated depreciation of \$27,807,824, produced a net book value of \$79,703,833. Depreciation charges for the year totaled \$2,139,974.

**COMMONWEALTH OF PUERTO RICO
MUNICIPALITY OF JUNCOS**

MANAGEMENT'S DISCUSSION AND ANALYSIS – (CONTINUED)

CAPITAL ASSETS AND DEBT ADMINISTRATION (CONTINUED)

The Municipality finances a significant portion of its construction activities through bond or notes issuances. The proceeds from bond and notes issuances designated for construction activities are committed in its entirety for such purposes and cannot be used for any other purposes. As of June 30, 2013, the Municipality has \$7,591,163 of unexpended proceeds from bond and notes issuances that are committed to future construction activities.

Debt Administration

The Puerto Rico Legislature has established a limitation for the issuance of general obligation municipal bonds and notes for the payment of which the good faith, credit and taxing power of each municipality may be pledged.

The applicable law also requires that in order for a Municipality to be able to issue additional general obligation bonds and notes such Municipality must have sufficient "payment capacity". Act No. 64 provides that a Municipality has sufficient "payment capacity" to incur additional general obligation debt if the deposits in such municipality's Redemption Fund and the annual amounts collected with respect to such Municipality's Special Additional Tax (as defined below), as projected by GDB, will be sufficient to service to maturity the Municipality's outstanding general obligation debt and the additional proposed general obligation debt ("Payment Capacity").

The Municipality is required under applicable law to levy the Special Additional Tax in such amounts as shall be required for the payment of its general obligation municipal bonds and notes. In addition, principal of and interest on all general obligation municipal bonds and notes and on all municipal notes issued in anticipation of the issuance of general obligation bonds issued by the Municipality constitute a first lien on the Municipality's Basic Tax revenues. Accordingly, the Municipality's Basic Tax revenues would be available to make debt service payments on general obligation municipal bonds and notes to the extent that the Special Additional Tax levied by the Municipality, together with moneys on deposit in the Municipality's Redemption Fund, are not sufficient to cover such debt service. It has never been necessary to apply Basic Taxes to pay debt service on general obligation debt of the Municipality.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The Municipality relies primarily on property and municipal taxes as well as federal and state grants to carry out the governmental activities. Historically, property and municipal taxes have been very predictable with increases of approximately five percent. Federal and State grant revenues may vary if new grants are available but the revenue also is very predictable. Those factors were considered when preparing the Municipality's budget for the fiscal year 2013-2014.

FINAL COMMENTS

The Municipality is an autonomous governmental entity whose powers and authority vested on its Executive and Legislative Branches are specifically established in the Municipal Autonomous Act approved in August 1991. By virtue of such powers, it provides a wide range of services to its constituents which includes, among others, public works, education, public safety, public housing, health, community development, recreation, waste disposal, welfare and others. The Municipality's principal sources of revenues are derived from property taxes, municipal license taxes, subsidies from the Commonwealth of Puerto Rico's General Fund and contributions from the Traditional and Electronic Lottery sponsored by said Government.

The Municipality's management is committed to a continued improvement in the confection of a budget that will response to the needs of the public and private sectors in accordance with its permissible revenues levels. It further contemplates to improve its current figure of net position, which has been identified as one of the main short and long-term objectives of the Municipality.

FINANCIAL CONTACT

The Municipality's financial statements are designed to present users (citizens, taxpayer, customers, investors and creditors) with a general overview of the Municipality's finances and to demonstrate the Municipality's accountability. If you have questions about the report or need additional financial information, contact the Municipality's Chief Financial Officer at PO Box 1706, Juncos, Puerto Rico 00777-1706, or call (787) 734-0335.

MUNICIPALITY OF JUNCOS**

NOTES TO BASIC FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2013

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The **Municipality of Juncos** (the Municipality) was founded on the year 1782. The Municipality's governmental system consists of an executive and legislature body. It is governed by a Mayor and sixteen members Municipal Legislature who are elected for a four-year terms.

The Municipality provides a full range of services for its citizens. These services include public safety, public works, culture and recreation, health and welfare, community development, education, and other miscellaneous services.

The basic financial statements of the Municipality have been prepared in conformity with Generally Accepted Accounting Principles as applied to local governmental units in the United States of America (US GAAP).

The Municipality's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

In June 1999, the Governmental Accounting Standards Board (GASB) issued Statement No. 34, "Basic Financial Statements and Management's and Discussion and Analysis for State and Local Governments." This Statement, known as the Reporting Model, provides for the most significant change in financial reporting for state and local governments in over 20 years and affects the way the Municipality prepares and presents financial information. The Statement was adopted as of July 1, 2003. In addition to this Statement, GASB Statement No. 37, "Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments: Omnibus" and GASB Statement No. 38, "Certain Financial Statement Note Disclosures" have been adopted and are reflected in these financial statements.

As part of this Statement, there is a new reporting requirement regarding the capitalization of local government infrastructure (roads, bridges, traffic signals, etc.). This requirement permits an optional four-year delay for implementation to fiscal year ended on June 30, 2007. The Municipality implemented the capitalization of infrastructure since July 1, 2006.

In March 2009, the Municipality adopted the provisions of GASB Statement No.55, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments* (GASB No. 55), and GASB Statement No. 56, *Codification of Accounting and Financial Reporting Guidance Contained in the AICPA Statements on Auditing Standards* (GASB No. 56).

GASB No. 55 incorporated the hierarchy of USGAAP for state and local governments into the Governmental Accounting Standards Board's (GASB) authoritative literature. The requirements in this Statement codify all USGAAP for state and local governments so that they derive from a single source.

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

GASB No. 56 incorporated into the Governmental Accounting Standards Board's (GASB) authoritative literature certain accounting and financial reporting guidance presented in the American Institute of Certified Public Accountants' Statements on Auditing Standards. This Statement addressed three issues not included in the authoritative literature that establishes *accounting* principles-related party transactions, going concern considerations, and subsequent events.

In the fiscal year 2011, the Municipality adopted the provisions of GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* (GASB No. 54), which modified the interpretations of certain terms within the definition of the special revenue funds and the types of activities the Municipality may choose to report in those funds. GASB No. 54 also clarified the capital projects fund type definition for better alignment with the needs of preparers and users. Definitions of other governmental fund types were also modified for clarity and consistency.

The provisions of the GASB Statement No. 61, *The Financial Reporting Entity: Omnibus*, an amendment of Statements No. 14 and 34, were considered in the evaluation of the potential component units. This statement modifies certain requirements for inclusion of component units in the financial reporting entity and amends the criteria for reporting component units as if they were part of the primary government under certain circumstances.

The GASB Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements* (GASB 62), incorporates into the GASB's authoritative literature certain accounting and financial reporting guidance included in FASB pronouncements, which does not conflict with or contradict GASB pronouncements, and eliminates the criteria to apply post-November 30, 1989 FASB pronouncements that do not conflict with or contradict GASB pronouncements.

In current year, the Municipality adopted the provisions of GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* establishing a new statement of net position format that reports separately all assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position (which is the net residual amount of the other elements). The Statement requires deferred outflows of resources and deferred inflows of resources to be reported separately from assets and liabilities. The financial reporting impact resulting from the implementation of GASB 63 in the Municipality's financial statements was the renaming of "Net Assets" to "Net Position", including changing the name of the financial statement from "Statement of Net Assets" to "Statement of Net Position".

The following is a summary of the significant accounting policies of the Municipality:

A. Component Units

In evaluating how to define the Municipality for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the provisions of Statement No. 14, as amended, The Financial Reporting Entity, of the GASB, as amended by GASB Statement No. 39. The basic, but not the only criterion for including a potential component unit within the reporting entity is if elected officials of a primary government are financially accountable for the entity.

Financial accountability exists if the primary governmental appoints a voting majority of the entity's governing body, and if either one of the following conditions exist: the primary government can impose its will on the other entity or the potential exists for the other entity to (1) provide specific financial benefits to or (2) impose specific financial burdens on the primary government. A second criterion used in evaluating potential component units is if the nature and significance of the relationship between the entity and a primary government are such that to exclude the entity from the financial reporting entity would render the financial statements misleading or incomplete. USGAAP details two methods of presentation: blending the financial data of the component unit's balances and transactions in a manner similar to the presentation of the Municipality's balances and transactions or discrete presentation of the component unit's financial data in columns separate from the Municipality's balances and transactions. Based on the above criteria, the Municipality does not have component units to include within its reporting entity.

B. Government-wide and fund financial statements

Financial information of the Municipality is presented in this report as follow:

1. Management's discussion and analysis introduces the basic financial statements and provides an analytical overview of the Municipality's financial activities.
2. The government-wide financial statements (i.e. the statement of net position and the statement of activities) report information on all the activities of the Municipality and its component units, if any. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, if any, which rely to a significant extent on fees and charges for support. Interfund activity has been removed from these statements to minimize the duplicating effect on assets and liabilities within the governmental activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenue. Direct expenses are those that are charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

3. Fund financial statements focus on information about the Municipality's major governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements. Pursuant to the provisions set forth by GASB No. 54, the Municipality reports the following governmental funds in the accompanying GFFS:

General Fund – is the Municipality main operating fund used to account for and report all financial and reported resources and governmental activities, except for those required to be accounted for in another fund. It is presumed that the Municipality's governmental activities have been reported in the general fund except for transactions for which one of the following compelling reasons has required the use of another fund: (1) legal requirements, (2) USGAAP requirements or (3) the demands of sound financial administration requiring the use of a governmental fund other than the general fund. Its revenues consist mainly of taxes, licenses and permits, intergovernmental, charges for services and other.

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Special Revenue Fund - Other Federal Grants - is the accounting entity in which revenues derived from federal grants, is accounted for. The uses and limitations of each special revenue fund are specified by Municipality ordinances or federal and state statutes.

Capital Projects Fund - State and Local Grants - is a major governmental fund used to account for and report financial resources that are restricted or committed to expenditure for capital outlays, including the acquisition or construction of major capital facilities, including those outlays financed by the general obligation bond proceeds (other than those financed by proprietary funds or in trust funds for individuals, private organizations, or other governments). The use of the capital projects funds has been limited to only for major capital acquisitions, construction or improvement activities that would distort financial resources trend data if not reported separately from the other Municipality's operating activities.

Debt Service Fund - is a major governmental fund used to account for and report for the accumulation of financial resources that are restricted for, and the payment of, principal and interest for: (1) bonds payable for which debt service payments are legally mandated to be accounted for in a debt service fund and (2) certain special long-term obligations for which the Municipality is been accumulating financial resources in advance to pay principal and interest payments maturing in future years.

The routine purchases of minor capitalizable assets (such as furniture, office equipment, vehicles and other minor capital assets or improvements) have been reported in the governmental fund from which financial resources were used for the payment.

The other governmental funds of the Municipality account for grants and other resources whose use is restricted to a particular purpose.

The Municipality periodically undertakes a comprehensive evaluation of its fund structure to ensure that it complies with all aspects that are of importance to users of general purpose external financial reports. Consequently, all superfluous funds and some internal funds currently used by the Municipality in the day-to-day accounting procedures have not been reported as individual governmental funds in the accompanying fund financial statements. Accordingly, the accompanying fund financial statements include only the minimum number of funds consistent with legal and operating requirements and, consequently, certain types of similar internal funds have been combined into single funds in the accompanying fund financial statements.

4. The notes to the financial statements provide information that is essential to a user's understanding of the basic financial statements.

C. Financial reporting presentation

The accounts of the Municipality are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures. Fund types are as follows:

General Fund - General Fund is the general operating fund of the Municipality. It is used to account for all governmental activity, except those required to be accounted for in another fund.

Special Revenue Fund - State and Local Grants - Special Revenue Funds are used to account for revenues derived from local funds, state grants or other restricted revenue sources. The uses and limitations of each special revenue fund are specified by Municipality ordinances or federal and state statutes.

Special Revenue Fund - Section 8 - Special Revenue Funds are used to account for revenues derived from Section 8 Housing Choice Voucher Program. The uses and limitations of each special revenue fund are specified by Municipality ordinances or federal and state statutes.

Special Revenue Fund - Other Federal Grants - Special Revenue Funds are used to account for revenues derived from federal grants. The uses and limitations of each special revenue fund are specified by Municipality ordinances or federal and state statutes.

Capital Projects Fund - State and Local Grants - Capital Projects Fund are used to account for financial resources used for the acquisition or construction of major capital facilities.

Capital Projects Fund - Federal Grants - Capital Projects Fund are used to account for revenues derived from federal grants related to capital projects. The uses and limitations of each special revenue fund are specified by Municipality ordinances or federal and state statutes.

Debt Service Funds - Debt Service Funds are used to account for the accumulation of resources for and the payment of, general long-term debt principal, interest, and related costs.

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Measurement focus, basis of accounting and financial presentation

Government-wide financial statements - The accompanying GWFS are prepared using the economic resources measurement focus and the accrual basis of accounting. Subject to the additional rules and limitations detailed below, revenues (including interest on deposits and investments) are generally recorded when earned and expenses are generally recorded when a liability is incurred, regardless of the timing of related cash flows.

All revenues, expenses, gains, losses, assets and liabilities resulting from exchange-like transactions are generally recorded when exchange takes place. In exchange transactions, each party to the transaction receives and gives up essentially equal values. An exchange-like transaction is one when there is an identifiable exchange and the values exchanged, though related, may not be quite equal.

The accompanying basic financial statements include exchange-like transactions such as license fees, fines, penalties, forfeitures, permits, charges for services, and most miscellaneous revenues, which are recorded as revenues when collected because they are generally not measurable until actually received.

The Municipality groups its non-exchange transactions into the following four (4) classes in the accompanying basic financial statements: (a) derived tax revenues, (b) imposed non-exchange revenues, (c) government mandated non-exchange transactions, and (d) voluntary non-exchange transactions.

In the case of derived tax revenue transactions, which result from assessments that the Municipality places on exchange transactions, receivables and revenues are recorded when the underlying exchange has occurred.

In the case of imposed non-exchange revenue transactions (such as property taxes and municipal license taxes), which result from assessments made by the Municipality on non-governmental entities, including individuals, other than assessments on exchange transaction, receivables are generally recorded in the period when an enforceable legal claim has arisen. Property taxes and municipal license taxes are generally recorded as revenues (net of amounts considered not collectible) in the fiscal year when resources are required to be used for the first fiscal year that the use of the resources is permitted.

For government-mandated non-exchange transactions (such as intergovernmental grants and contributions), receivables and revenues are generally recorded when all eligibility requirements imposed by the provider have been met. For the majority of grants, the Municipality must expend resources on the specific purpose or project before the provider reimburses any amounts. Therefore, revenue is generally recognized as qualifying reimbursable expenditures are incurred.

NOTES TO BASIC FINANCIAL STATEMENTS - (CONTINUED)

YEAR ENDED JUNE 30, 2013

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

For voluntary non-exchange transactions (such as donations and certain grants and entitlements) receivables and revenues are generally accounted for in the same manner as government-mandated non-exchange transactions discussed above.

Events that are neither exchange nor non-exchange transactions are recorded when it is probable that a loss has been occurred and the amount of loss is reasonably estimated.

Interests on deposits are recorded when earned since these revenues are considered both measurable and available at June 30, 2013. Receipts of any type of revenue sources collected in advance for use in the following fiscal year are recorded as deferred revenues.

According to GASB No. 34, all general capital assets and the unmatured long-term liabilities are recorded only in the accompanying Statement of Net Position. The measurement focus and the basis of accounting used in the accompanying GWFS differ significantly from the measurement focus used in the preparation of the GFFS. Therefore, the accompanying GFFS include reconciliations, as detailed in the accompanying table of contents, to better identify the relationship between the GWFS and the GFFS.

Government Fund Financial Statements - The accompanying GFFS are reported using the current financial resources measurements focus and the modified accrual basis of accounting. Revenues are generally recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current fiscal year or soon enough thereafter to pay liabilities of the current fiscal year. For this purpose, the Municipality generally considers most revenues (municipal licenses taxes, construction excise taxes, sales and use taxes, interests on deposits, intergovernmental grants and contributions and certain charges for services) to be available if collected within sixty (60) days after June 30, 2013. At June 30, 2013, all revenues sources met this availability criterion.

Property taxes are all considered susceptible to accrual if commonly collected within sixty (60) days following the end of the fiscal period, unless unusual circumstances justify a greater period.

Other revenue sources considered susceptible to accrual include municipal license taxes, sales and use taxes, construction excise taxes, intergovernmental grants and contributions, interests on deposits and charges for services. These principal revenue sources meet both measurability and availability criteria in the accompanying GFFS.

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

In a manner similar to the GWFS, but subject to and limited by the availability criteria discussed above, all revenues, expenses, gains, losses, assets and liabilities resulting from exchange, exchange-like transactions are also generally recorded when the exchange takes place while all revenues, expenses, gains, losses, and assets resulting from non-exchange transactions are recorded when an enforceable legal claim arises or when all eligibility requirements imposed by the provider have been met, applicable.

Interests on deposits are recorded when earned since these revenues are considered both measurable and available at June 30, 2013.

Pursuant to the provisions of GASB Interpretation No. 6, *Recognition and Measurement of Certain Liabilities and Expenditures in Governmental Fund Financial Statements* (GASBI No. 6), in the absence of an explicit requirement (i.e., the absence of an applicable modification, discussed below) the Municipality generally accrues a governmental fund liability and expenditure (including salaries, professional services, supplies, utilities, etc.) in the period in which the government incurs the liability, to the extent that these liabilities are normally expected to be liquidated in a timely manner and in full with current available financial resources. The accompanying Balance Sheet - Governmental Funds generally reflects only assets that will be converted into cash to satisfy current liabilities.

Long-term assets and those assets that will not be converted into cash to satisfy current liabilities are generally not accounted for in the accompanying Balance Sheet - Governmental Funds. At the same time, long-term liabilities (generally, those unmatured that will not require the use of current financial resources to pay them) are not accounted for in the accompanying Balance Sheet - Governmental Funds.

The measurement focus of the GFFS is on decreases of net financial resources (expenditures) rather than expenses. Most expenditures are measurable and are recorded when the related governmental fund liability is incurred. Allocation of costs, such as depreciation and amortization, are recorded in the accompanying Statement of Activities, but are not recorded in the accompanying GFFS.

E. Assets, liabilities and net position

- 1. Cash, cash equivalents, and cash with fiscal agent** - The Municipality's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

**COMMONWEALTH OF PUERTO RICO
MUNICIPALITY OF JUNCOS**

NOTES TO BASIC FINANCIAL STATEMENTS – (CONTINUED)

YEAR ENDED JUNE 30, 2013

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Cash with fiscal agent in the debt service fund represents special additional property tax collections retained by the Commonwealth of Puerto Rico and restricted for the payment of the Municipality's debt service, as established by law. Also, cash with fiscal agent consists of unused proceeds of bonds and notes issued for the acquisition of equipment and construction of major capital improvements.

- 2. Receivables and payables** – Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Advances between funds, as reported in the fund financial statements, if any, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

Receivables are stated net of estimated allowances for uncollectible accounts, which are determined, based upon past collection experience and current economic conditions.

Intergovernmental receivable in general fund represents the balance owed from the Municipal Revenue Collection Center (CRIM), related to preliminary liquidation. Intergovernmental and federal grant receivable in the special revenue or capital project funds represent amounts owed to the Municipality for reimbursement of expenditures incurred pursuant to federally funded or state founded programs. Intergovernmental receivable in the debt service fund represent the distribution of property tax collected by the CRIM which is restricted for the debt service.

- 3. Inventories** – Inventories in the general fund is recorded as expenditure and, consequently, the inventory is not recorded in the statement of net position.
- 4. Capital assets** – Capital assets, which include property, equipment and infrastructure assets (e.g., roads, bridges, sidewalks and similar items), are reported in the governmental activities column in the governmental-wide financial statements. The Municipality defines capital asset as assets with an initial, individual cost of more than \$25 and an estimated useful life in excess of one year. Such assets are reported at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Capital assets of the Municipality are depreciated using the straight-line method over the following estimated useful lives:

<u>Description</u>	<u>Useful Life</u>	<u>Capitalization threshold</u>
Buildings and site improvements	40 years	\$1
Infrastructure	40 years	\$1
Works of art	10 years	\$1
Vehicles	5 years	\$1
Furniture and fixtures	5 years	\$25
Machinery and equipment	3 to 5 years	\$25

5. Unearned revenues- In the GFFS, unearned revenues arises when one of the following situations occur:

- a. Potential revenue does not meet both the “measurable” and “available” criteria for revenue recognition in the current period (unavailable revenue). As previously discussed, available is defined as due (or past due) at June 30, 2013 and collected within 60 days thereafter to pay obligations due at June 30. In subsequent periods, when both criteria are met, the liability for unearned revenue is removed and revenue is recognized.
- b. The Municipality receives resources before it has a legal claim to them (unearned revenue). In subsequent periods, when the revenue recognition criterion is met, the liability for unearned revenue is removed and revenue is recognized.

Unearned revenues at the government-wide level arise only when the Municipality receives resources before it has a legal claim to them.

6. Long-term obligations – The liabilities reported in the government-wide financial statements included general and special obligation bonds and notes, and other long-term liabilities, such as vacation, sick leave, litigation, and long-term liabilities to other governmental entities.

In the fund financial statements, governmental fund types recognize bond issuances cost, during the current period. The face amount of debt issued is reported as other financing sources, while bond issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures in the general fund.

7. **Compensated absences** - Employees accumulate vacation leave at a rate of 2.5 days per month up to a maximum of 60 days. Unpaid vacation time accumulated is fully vested to the employees from the first day of work. All vacation pay is accrued when incurred in the government-wide financial statements.

Employees accumulate sick leave at a rate of 1.5 days per month up to a maximum of 90 days. Upon retirement, an employee receives compensation for all accumulated and unpaid sick leave at the current rate, if the employee has at least 10 years of service with the Municipality. All sick leave pay and salary related benefits are accrued when incurred in the governmental-wide financial statements when the employee meets such criteria.

8. **Claims and judgments** - The estimated amount of the liability for claims and judgments, which is due on demand, such as from adjudicated or settled claims, is recorded in the general fund when the liability is incurred.

9. **Fund Balances**- In the previous year, the Municipality adopted the provisions of GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* (GASB No. 54), which enhanced the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied. This statement establishes fund balance classifications that comprise a hierarchy upon the use of the resources reported in governmental funds.

Pursuant to the provisions of GASB No. 54, the accompanying GFFS report fund balance amounts that are considered restricted, committed, assigned, and unassigned, based on the relative strength of the constraints that control how specific amounts can be spent, as described as follows:

- a. *Nonspendable* - Represent resources that cannot be spent readily with cash or are legally or contractually required not to be spent, including but not limited to inventories, prepaid items, and long term balances of interfund loans and accounts receivable.
- b. *Restricted* - Represent resources that can be spent only for the specific purposes stipulated by constitutional provisions, external resource providers (externally imposed by creditors or grantors), or through enabling legislation (that is, legislation that creates a new revenue source and restricts its use). Effectively, restrictions may be changed or lifted only with the consent of resource providers.

**COMMONWEALTH OF PUERTO RICO
MUNICIPALITY OF JUNCOS**

NOTES TO BASIC FINANCIAL STATEMENTS - (CONTINUED)

YEAR ENDED JUNE 30, 2013

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- c. *Committed* - Represent resources used for specific purposes, imposed by formal action of the Municipal's highest level of decision making authority (Municipal Legislature through resolutions and ordinances) and can only be changed by a similar law, ordinance or resolution, no later than the end of fiscal year.
- d. *Assigned* - Represent resources intended to be used by the Municipality for specific purposes but do not meet the criteria to be classified as restricted or committed (generally executive orders approved by the Mayor). Intent can be expressed by the Municipal Legislature, the Mayor or by an official or body to which the Municipal legislature delegates authority in conformity with the Autonomous Municipalities Act of Puerto Rico, as amended. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed.
- e. *Unassigned* - Represent the residual classification for the Municipality's general fund and includes all spendable amounts not contained in the other classifications. In other funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

Negative fund balance amounts are assigned amounts reduced to the amount that will raise the fund balance to zero. Consequently, negative residual amounts in restricted, committed and assigned fund balance classifications have been reclassified to unassigned fund balances.

The Municipality reports resources constrained to stabilization as a specified purpose (restricted or committed fund balance in the general fund) only if: (1) such resources meet the other criteria for those classifications, as described above and (2) the circumstances or conditions that signal the need for stabilization are identified in sufficient detail and are not expected to occur routinely. However, the Municipality has not entered into any stabilization-like arrangements, nor has set aside material financial resources for emergencies and has not established formal minimum fund balances amounts as of for the fiscal year ended June 30, 2013.

In situations when expenditure is made for a purpose for which amounts are available in multiple fund balance classifications, the Municipality generally spends committed resources first, and then unrestricted resources. Within unrestricted resources, the Municipality generally spends committed resources first, followed by assigned resources, and then unassigned resources.

10. Net Position - Restricted net position have been reported pursuant to the provisions of GASB Statement No. 46, *Net Position Restricted by Enabling Legislation* (GASB No. 46). Those net position consist of net resources restricted by external parties (such as debt covenants, creditors, grantors, contributions, laws or regulations of other governments, etc.), or net position for which constraints are imposed by the constitutional provisions or enabling legislation.

Enabling legislation consists of legislation that authorizes the Municipality to assess, levy, charge or otherwise mandate payment of resources (from external resource providers). Enabling legislation establishes restrictions if it includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation. A legally enforceable enabling legislation restriction is one that a party external to the Municipality (such as citizens, public interest groups, or the judiciary) can compel the Municipality to honor. The Municipality periodically reevaluates the legal enforceability of an enabling legislation to determine if any of the resources raised by the enabling legislation are used for a purpose not specified by the enabling legislation or if the Municipality has other cause for consideration.

The classification of restricted net position identifies resources that have been received or earned by the Municipality with an explicit understanding between the Municipality and the resource providers that the resources would be used for specific purposes.

Grants, contributions and donations are often given under those kinds of conditions. Bond indentures also often limit the use of bond proceeds to specific purposes.

Internally imposed designation of resources, including earmarking, are not reported as restricted net position. These designations consist of management's plans for the use of resources, which are subject to change at the discretion of the Municipal Legislature.

In the government-wide statements, net position are segregated into three categories:

- a. *Net investment in capital assets*: Consist of capital asset balances net of accumulated depreciation and outstanding balances of any bonds, notes and other borrowings that are attributable to the acquisition, construction, or improvement of those assets. This category should not include cash that is restricted to capital assets acquisition or construction (unspent bond proceeds) and any unamortized debt issue costs.

- b. *Restricted net position*: Represent the net position that are subject to restrictions beyond the Municipal's control. These include restrictions that are externally imposed (by creditors, grantors, contributors, or laws and regulations of other governments) or restrictions imposed by the law through constitutional provisions or enabling legislation (including enabling legislation passed by the government itself).
- c. *Unrestricted net position*: Represent net position that do not meet the definition of net position invested in capital assets, net of related debt or restricted. Unrestricted assets are often designated to indicate that management does not consider them to be available for general operations. These types of constraints are internal and management can remove or modify them. Designations are not reported on the face statement of net position.

11. Accounting for Pension Costs- On July 1, 2007, the Municipality adopted the provisions of GASBS No. 50, *Pension Disclosure*, which amended GASBS No.27, *Accounting for Pensions by State and Local Government Employers*, by requiring disclosure of how the contractually required contribution rate is determined by governments participating in multi-employer cost-sharing pension plans.

The Municipality accounts for pension costs from the standpoint of a participant in a multi-employer cost-sharing plan. Accordingly, pension costs recognized in the accompanying basic financial statements are equal to the statutorily required contributions, with a liability recorded for any unpaid required contributions.

For the purpose of applying the requirements of GASB Statements No. 27, *Accounting for Pensions by State and Local Government Employers* (GASB No. 27), the state government of the Commonwealth of Puerto Rico is considered to be the sponsor of the Employee's Retirement System of the Government of Puerto Rico and its Instrumentalities (ERS) and System 2000, a multi-employer cost-sharing defined benefit plan and a hybrid defined contribution plan, respectively, in which the employees of the Municipality participate.

The Municipality is considered a participant and not a sponsor, of these retirement systems since the majority of the participants in the aforementioned pension trust funds are employees of the Commonwealth of Puerto Rico. Accordingly, no portion of the net pension obligation (NPO) related to ERS has been allocated to the Municipality in the accompanying basic financial statements. The basic financial statements of the Commonwealth of Puerto Rico report the total amount of the net pension obligation of ERS, including any amount that may correspond to the Municipality.

12. Interfund and intra-entity transactions – The Municipality has the following types of transactions among funds:

- a. Operating Transfers – Legally required transfers that are reported when incurred as “Operating transfer-in” by the recipient fund and as “Operating transfers-out” by the disbursing fund.’
- b. Intra-Entity Transactions – Transfers between the funds of the primary government are reported as interfund transfers with receivables and payables presented as amounts due to and due from other funds.

13. Risk financing – The Municipality carries commercial insurance to cover casualty, theft, tort claims and other losses. Insurance policies are negotiated by the Puerto Rico Treasury Department and costs are allocated among all the Municipalities of Puerto Rico. Cost of insurance allocated to the Municipality and deducted from the gross property tax collections by the CRIM for the year ended June 30, 2013 amounted to \$324,322. The current insurance policies have not been cancelled or terminated.

The Municipality carries insurance coverage for death and bodily injuries caused by the automobile accidents. The insurance is obtained through the Automobile Accidents Compensation Administration (AACCA), a component unit of the Commonwealth of Puerto Rico. This insurance is compulsory for all licensed vehicles used on public roads and highways in Puerto Rico. The annual premium is \$35 per licensed motor vehicle, which is paid directly to AACCA.

The Municipality obtains workers’ compensation insurance through the State Insurance Fund Corporation (SIFC), a component unit of the Commonwealth of Puerto Rico. This insurance covers workers against injuries, disability or death because of work or employment-related accidents, or because of illness suffered as a consequence of their employment. Cost of insurance allocated to the Municipality and deducted from the gross property tax collections by the Municipal Revenue Collection Center (CRIM) for the year ended June 30, 2013 amounted to \$543,425.

The Municipality obtains unemployment compensation, non-occupational disability, and drivers’ insurance coverage for its employees through various insurance programs administered by the Commonwealth of Puerto Rico’s Department of Labor and Human Resources (DOL). These insurance programs cover workers against unemployment and provide supplementary insurance coverage for temporary disability, or death because work or employment-related accidents or non-occupational disability and drivers’ insurance premiums are paid directly to DOL on a cost reimbursement basis.

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Under Act No. 63 of June 21, 2010, the Legislative Assembly of the Commonwealth of Puerto Rico, authorized the municipalities to procure and manage at their own discretion all insurance policies, including those related to health plans been provided to the municipal employees. The Municipality also obtains medical insurance coverage from one health insurance company for its employees. Different health coverage and premium options are negotiated each year by the Municipality. Premiums are paid on a monthly basis directly to the insurance company.

14. Use of Estimates

The preparation of financial statements in conformity with USGAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported period. Actual amounts could differ from those estimates.

2. CASH AND CASH EQUIVALENTS

The Municipality maintains its deposits in various commercial banks located in Puerto Rico and Government Development Bank for Puerto Rico (GDB). Proceeds from bonds and funds related to certain grant awards are required by law to be held with GDB.

The Municipality adopted the provisions of GASB Statement No. 40 (GASB No. 40), *Deposit and Investment Risk Disclosure, an Amendment to GASB Statement No. 3*. This statement requires that state and local governments disclose essential risk information about deposits and investments. The disclosure requirements cover four main areas: (1) credit risk, (2) interest rate risk, (3) custodial credit risk, (4) foreign exchange exposure.

Credit risk – This is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. In compliance with the laws and regulations of the Commonwealth, the Municipality has adopted, as its custodial and credit risk policy, the *Statement of Investment Guidelines for the Government of the Commonwealth of Puerto Rico*. Accordingly the Municipality invests only in obligations of the Commonwealth, obligations of the United States of America, certificates of deposits, commercial paper, bankers' acceptances, or in pools of obligations of the municipalities of Puerto Rico, which are managed by GDB. According to the aforementioned investment guidelines, the Municipality does not invest in marketable securities or any types of investments for which credit risk exposure may be significant. Therefore, the Municipality's management has concluded that the risk related to any possible loss related to defaults by commercial banks on the Municipality's deposits is considered low at June 30, 2013.

**COMMONWEALTH OF PUERTO RICO
MUNICIPALITY OF JUNCOS**

NOTES TO BASIC FINANCIAL STATEMENTS – (CONTINUED)

YEAR ENDED JUNE 30, 2013

2. CASH AND CASH EQUIVALENTS (CONTINUED)

Interest rate risk – This is the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment. The Municipality manages its exposure to declines in fair values by: (1) not including debt investments in its investment portfolio at June 30, 2013, (2) limiting the weighted average maturity of its investments to three months or less, and (3) keeping most of its bank deposits in interests bearing accounts generating interests at prevailing market rates. At June 30, 2013, the Municipality's investments in certificates of deposits are recorded at cost, which approximates their fair value. Therefore, the Municipality's management has concluded that at June 30, 2013, the interest rate risk associated with the Municipality's cash and cash equivalents is considered low.

Custodial credit risk – In the case of deposits, this is the risk that in the event of a bank failure, the Municipality's deposits may not be recovered. Pursuant to the *Statement of Investment Guidelines for the Government of the Commonwealth of Puerto Rico* the balances deposited in commercial banks by the Municipality are insured by the Federal Deposit Insurance Corporation (FDIC) generally up to a maximum of \$250,000 per depositor. In addition, public funds deposited in commercial banks by the Municipality are fully securities pledged as collateral are held, in the Municipality's name, by the agents of the

Commonwealth's Secretary of Treasury. Deposits with GDB are uninsured and uncollateralized. However, no losses related to defaults by GDB on deposit transactions have been incurred by the Municipality through June 30, 2013. Therefore, the Municipality's management has concluded that at June 30, 2013 the custodial credit risk associated with the Municipality's cash and cash equivalents is considered low.

Foreign exchange risk – The risk that changes in exchange rates will adversely affect the value of an investment or a deposit. According to the aforementioned investment guidelines, the Municipality is prevented from investing in foreign securities or any other types of investments in which foreign exchange risk exposure may be significant. Accordingly, management has concluded that the foreign exchange risk related to the Municipality's deposits is considered low at June 30, 2013.

Under Commonwealth of Puerto Rico statutes public funds deposited in commercial banks must be fully collateralized for the amount deposited in excess of federal depository insurance. All securities pledged as collateral are held by the Secretary of the Treasury of Puerto Rico. In addition, the Municipality maintains deposits with the Government Development Bank for Puerto Rico (GDB).

Deposits – The Municipality's bank balances in commercial banks of \$677,953 in the Special Revenue Fund – Other Federal Grants, and the \$3,915,869 in the Capital Projects Fund – State and Local Grants, were fully collateralized at June 30, 2013. 5. CAPITAL ASSETS

Capital assets; those with an estimated useful live of one year or more from the time of acquisition by the Municipality and a cost of \$25 or more, are primarily funded through the issuance of long-term bonds and loans. A summary of capital assets and changes occurring in 2013, including those changes pursuant to the implementation of GASB Statement No. 34, follows. Land and construction in progress are not subject to depreciation:

8. UNEARNED REVENUES

A. *Municipal License Tax* – The Municipality imposes a municipal license tax on all businesses that operate within the Municipality, which are not totally or partially exempt from the tax pursuant to the Industrial Incentives Act of the Commonwealth of Puerto Rico. This is a self-assessed tax based on the business volume in gross sales as shown in the tax return that is due on April 15 of each year. Entities with sales volume of \$3,000,000 or more must include audited financial statements together with the tax return. During the fiscal year ended June 30, 2013, the tax rates were as follows:

1. Financial business – 1.50% of gross revenues
2. Other organizations – 0.45% of gross revenues

This tax is due in two equal installments on July 1 and January 1 of each fiscal year. A discount of 5% is allowed when full payment is made on or before April 15. Municipal license tax receivable represents filed municipal license tax returns that were uncollected as of June 30, 2013, net of allowance for uncollectible.

Municipal license taxes collected prior to June 30 but pertaining to the next fiscal year is recorded as unearned revenues.

The unearned revenues of \$12,716,978, in the General Fund relates to municipal license tax collected in fiscal year 2012-2013 that will be earned in fiscal year 2013-2014.

B. *Municipal Sales And Use Tax* - On July 29, 2007, an amendment to Act No. 117 of July 4, 2006, known as the “Tax Fairness Act of 2006”, was enacted with the purpose of establishing a mandatory sales and use tax of 1.5% at the Municipal Level. The Municipalities of Puerto Rico are responsible to collect 1% of the corresponding tax with the same exemptions and limitations that the portion collected by the Treasury Department. The Act provides an optional surtax on the un-process food. This surtax must be approved by the Municipal Legislature. The Treasury Department is responsible to create the Municipal Development Fund (.2%), the Municipal Redemption Fund (.2%) and the Municipal Improvements Fund (.1%) with the remaining 0.5%.

Municipal sales and use tax receivable of \$72,269 represents filed municipal sales and use tax returns that were uncollected as of June 30, 2013, net of allowance for uncollectible accounts.

C. *Federal Government* – The unearned revenues presented in the Special Revenue Fund – Other Federal Grants and in the Other governmental Funds represents the portion of federal grants received for which qualifying expenditures have not been incurred. Unearned revenues from the federal government are as follows:

9. PROPERTY TAXES

The personal property tax is self assessed by the taxpayer on a return which is to be filed by May 15 of each year with the CRIM, a governmental entity created by the government of Puerto Rico as part of the Municipal Governmental Autonomous Law of August 1991. Real property tax is assessed by the CRIM on each piece of real estate and on each building.

The assessment is made as of January 1 of each year and is based on current values for personal property and on estimated values as of 1957 for real property tax. The tax on personal property must be paid in full together with the return by May 15. The tax on real property may be paid in two installments by July 1 and January 1. The CRIM is responsible for the billing and collections of real and personal property taxes on behalf of all the municipalities of Puerto Rico. Prior to the beginning of each fiscal year, the CRIM informs the Municipality of the estimated amount of property tax expected to be collect for the ensuing fiscal year. Throughout the year, the CRIM advances funds to the Municipality based on the initial estimated collections.

The CRIM is required by law to prepare settlement statement on a fiscal year basis, whereby a comparison is made between the amounts advanced to the Municipality and amounts actually collected from taxpayers. This settlement has to be completed on a preliminary basis not later than three months after fiscal year-end, and a final settlement made not later than six months after year-end. If the CRIM remits to the Municipality property tax advances, which are less than the tax actually collected, a receivable from the CRIM is recorded at June 30. However, if advances exceed the amount actually collected by the CRIM, a long term debt to the CRIM is recorded at June 30.

On June 26, 1997, Public Law No. 21 was enacted authorizing the CRIM, among other things, to sell the property tax receivables related to taxpayers who owned property taxes from 1974 to 1996. Such property tax receivables were purchased by the Public Financing Corporation, a subsidiary of the Government Development Bank of Puerto Rico (GDB) using the proceeds of a bond issuance executed for such purposes.

9. PROPERTY TAXES (CONTINUED)

Said Law imposed the CRIM the obligation to replace uncollectible property tax receivables with any valid property tax receivable or equivalent in money. Subsequent to the approval of the Law and to the sale transaction, it was detected that a substantial percentage of the receivables sold were uncollectible. In order to protect the economic damage to the financial structure of municipalities caused by the substitution of uncollectible tax receivables with sound collectible receivables, on October 11, 2001, Public Law No. 146 was approved and enacted. Through this Law, the CRIM was authorized to obtain a loan from any qualified financial institution and pay in advance the outstanding balance of the bonds issued and any related cost incurred for the purchase by the Public Financing Corporation (a GDB subsidiary) of the tax receivables. The loan is being paid by the municipalities thru a 30 year long term financing negotiated by the CRIM with GDB on behalf of such municipalities as authorized by the indicated Law. As of June 30, 2013, the related unpaid property tax advances included in the Statement of Net Position amounted to \$796,172.

Residential real property occupied by its owner is exempt by law from the payment of property taxes on the first \$ 15,000 of the assessed value. For such exempted amounts, the Puerto Rico Treasury Department assumes payment of the basic tax to the Municipalities, except for property assessed at less than \$3,500 for which no payment is made. As part of the Municipal Autonomous Law of 1991, the exempt amount to be paid by the Puerto Rico Treasury Department to the Municipalities was frozen as of January 1, 1992. In addition, the law grants a tax exemption from the payment of personal property taxes of up to \$50,000 of the assessed value to retailers having annual net sales of less than \$ 150,000.

The annual tax rate is 9.83% for real property and 7.83% for personal property of which 1.03% of both tax rates are for the redemption of public debt issued by the Commonwealth of Puerto Rico. The remaining percentage is distributed as follows: (a) 6.8% and 4.8%, respectively, represents the Municipality's basic property tax rate which is appropriated for basics and accounted for in the general fund. A portion of such amount is deposited in an equalization fund together with a percentage of the net revenues of the Puerto Rico electronic lottery and a subsidy from the Commonwealth of Puerto Rico. From such fund, a distribution is made to all municipalities; (b) 2.00% represents the ad valorem tax restricted for debt service and accounted for in the debt service fund.

- 1. Legal debt margin** – The Municipality is subject to a legal debt margin requirement, which is equal to 10% of the total assessment of property located within the Municipality plus balance of the ad valorem taxes in the debt service fund, for bonds payable to be repaid with the proceeds of property taxes restricted for debt service. In addition, before any new bonds are issued, the revenues of the debt service fund should be sufficient to cover the projected debt service requirement. Long-term debt, except for the bonds and notes payable, is paid with unrestricted funds.

10. LONG-TERM LIABILITIES (CONTINUED)

4. **Property Tax Debt** - These amounts represent the balance owed to the Treasury Department and to the Municipal Revenue Collection Center (CRIM) at June 30, 2013, as described in Note 9, from property tax advances in excess of actual collections and other property tax debts.
5. **Compensated absences** - The government-wide Statement of Net Position includes \$1,385,275 of accrued sick leave benefits, and \$2,124,850 of accrued vacation benefits, representing the Municipality's commitment to fund such costs from future operations.
6. **Landfill obligation** - State and federal laws and regulations require the Municipality to place a final cover on its landfill site when it stopped accepting waste and to perform certain maintenance and monitoring functions at the site for 30 years after closure. The Municipality has recognized \$10,205,876 as the Municipality's estimated current cost for landfill closure, and \$13,253,975 for landfill post-closure as of June 30, 2013. Such estimate was determined in the current fiscal year.

Accounting principles generally accepted in the United States of America require that at the end of each year, the governmental entities that own and operate a MSWLF should evaluate its estimate of the total current cost related to closure and post closure care of its facilities, due to changes in expected cost from a number of factors, including inflation or deflation, technological advancements, and modifications of legal requirements at the local, state, or national level.

7. **Line of Credit - Landfill Expansion** - These amounts represent the balance related to GDB line of credit to acquire land for the expansion of Municipal Landfill.
8. **Claims and Judgments** - These amounts represent the balance related to legal claims at June 30, 2013, as described in Note 14.

11. PENSION PLAN

The Employee's Retirement System of the Commonwealth and its Instrumentalities (the Retirement System) is a cost-sharing multiple defined benefit pension plan sponsored by, and reported as a component unit of the Commonwealth of Puerto Rico. All regular employees of the Municipality under 55 years of age at the date of employment become members of the Retirement System as a condition to their employment.

11. PENSION PLAN (CONTINUED)

The Retirement System provides retirement, death and disability benefits pursuant to legislation enacted by the Commonwealth's legislature. Disability retirement benefits are available to members for occupational and non-occupational disabilities. Retirement benefits depend upon age at retirement and the number of years of creditable service. Benefits vest after ten years of plan participation.

Members who have attained 55 years of age and have completed at least 25 years of creditable service or members who have attained 58 years of age and have completed ten years of creditable service are entitled to an annual benefit payable monthly for life.

The amount of the annuity shall be one and one-half percent of the average compensation, as defined, multiplied by the number of years of creditable service up to twenty years, plus two percent of the average compensation, as defined, multiplied by the number of years of creditable service in excess of 20 years. In no case will the annuity be less than \$200 per month.

Participants who have completed at least 30 years of creditable service are entitled to receive the Merit Annuity. Participants who have not attained 55 years of age will receive 65 percent of the average compensation, as defined; otherwise they will receive 75 percent of the average compensation, as defined. No benefits are payable if the participant receives a refund of his/her accumulated contributions. Disability retirement benefits are available to members for occupational disability up to a maximum benefit of 50% of the average salary, as defined. However, for non-occupational disability, a member must have at least 10 years of creditable services.

Commonwealth legislation requires employees to contribute 5.775% for the first \$550 of their monthly gross salary and 8.275% for the excess over \$ 550 of monthly gross salary. The Municipality is required by the same statute to contribute 9.275% of the participant's gross salary.

On September 24, 1999, an amendment to Act. No. 447, of May 15, 1951, which created the Retirement System, was enacted with the purpose of establishing a new pension program (System 2000). Employee's participation in the current system as of December 31, 1999, may elect to stay in the defined benefit plan or transfer to the new program. Persons joining the Municipality on or after January 1, 2000, will only be allowed to become members of System 2000. System 2000 will reduce the retirement age from 65 years to 60 for those employees who joined the current plan on or after April 1, 1990.

11. PENSION PLAN (CONTINUED)

System 2000 is a hybrid defined contribution plan, also known as a cash balance plan. Under this new plan, there will be a pool of pension assets, which will be invested by ERS together with those of the current defined benefit plan. The Commonwealth of Puerto Rico will not guarantee benefits at retirement age. The annuity will be based on a formula which assumes that each year the employee's contribution (with a minimum of 8.275% to the employee's salary up to a maximum of 10%) will be invested in an account which will either: (1) earn a fixed rate based on the two-year Constant Maturity Treasury Note or, (2) earn a rate equal to 75% of the return of the ERS's investment portfolio (net of management fees), or (3) earn a combination of both alternatives. Participants will receive periodic account statements similar to those of defined contribution plans showing their accrued balances. Disability pensions will not be granted under System 2000. The employer's contribution (9.275% of the employee's salary) will be used to fund the current plan.

If at the time of retirement accumulated benefits amount to \$10,000 or less may elect to receive a lump sum distribution up to the accumulated benefits. Under the new program the retirement age is reduced from 65 to 60 for those employees who joined the current plan on or after April 1, 1990.

Funding Policy

The authority under which the funding policy and the obligations to contribute to the ERS and System 2000 by the plans' members, employers and other contributing entities (state and municipal contributions), are established or may be amended by law.

Contribution requirements are established by law and are as follows:

Municipality	9.275% of gross salary
Employees:	
Hired on or before March 31, 1990	5.775% of gross salary up to \$6,600 8.275% of gross salary over \$6,600
Hired on or before April 1, 1990	8.275% of gross salary

Annual Contribution

The Municipality contributions during those years are recognized as total pension expenditures/expenses in the category of administration as follows:

<u>Fiscal year</u>	<u>Law No. 447</u>	<u>System 2000</u>
2013	\$ 199,863	\$ 135,109

13. RISK MANAGEMENT

The Property Division of the Municipality is responsible of assuring that the Municipality's property is properly insured. Annually, the Property Division compiles the information of all property owned and its respective market value. After evaluating this information, the Property Division submits the data regarding the Municipality's properties to Area of the Public Insurance at the Treasury Department of the Commonwealth of Puerto Rico who is responsible for purchasing all property and casualty insurance policies of all municipalities. Settle claims have not exceeded commercial coverage in any of the past three fiscal years.

14. CONTINGENCIES

a. Federal Grants:

The Municipality participates in a number of federal financial assistance programs funded by the Federal Government. Expenditures financed by these programs are subject to financial and compliance audits by the appropriate grantor. The amount, if any, of expenditures which may be disallowed by such audits cannot be determined at this time, although the Municipality management expects such amounts, if any, will not be material.

b. Claims and lawsuits:

The Municipality is a defendant in a number of lawsuits arising principally from claims against the Municipality for alleged improper actions, and other legal matters that arise in the ordinary course of the Municipality's activities.

With respect to pending and threatened litigation, the Municipality has reported liabilities of \$366,000 for awarded and anticipated unfavorable judgments. This amount was included in the financial statements and represents the amount estimated as probable liability or a liability with a fixed or expected due date, which will require future available financial resources for its payment.

It is management's opinion, based on the advice of the legal counsel, that the potential claims against the Municipality not covered by insurance will not materially affect the financial resources for its payment.

c. Other Commitments:

At June 30, 2013, the general fund had commitments of approximately \$1,149,707 for executory purchase orders or contracts that will be honored during the subsequent year.

15. FUTURE ADOPTION OF ACCOUNTING PRONOUNCEMENTS

The GASB has issued the following statements that have effective dates after June 30, 2013:

- a. GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*. The objective of this Statement is to establish accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. This Statement also provides other financial reporting guidance related to the impact of the financial statement elements deferred outflows of resources and deferred inflows of resources, such as changes in the determinations of the major fund calculations and limiting the use of the term deferred in financial statement presentations. The provisions of this Statement are effective for financial statements for periods beginning after December 15, 2012. Earlier application is encouraged.
- b. GASB Statement No. 66, *Technical Corrections - 2013* - an amendment of GASB Statements No. 10 and No. 62. The objective of this Statement is to improve accounting and financial reporting for a governmental financial reporting entity by resolving conflicting guidance that resulted from the issuance of two pronouncements, Statements No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, and No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*. The provisions of this Statement are effective for financial statements for periods beginning after December 15, 2012. Earlier application is encouraged.
- c. GASB Statement No. 67, *Financial Reporting for Pension Plans-an amendment of GASB Statement No. 25*. The requirements of this statement are effective for periods beginning after June 15, 2013.
- d. GASB Statement No. 68 *Accounting and Financial Reporting for Pensions-an amendment of GASB Statement No. 27*. The requirements of this statement are effective for periods beginning after June 15, 2014.
- e. GASB Statement No. 69 *Government Combinations and Disposals of Government*. The requirements of this statement are effective for government combinations and disposals of government operations occurring in financial reporting periods beginning after December 15, 2013, and should be applied on a prospective basis. Early application is encouraged.
- f. GASB Statement No. 70 *Accounting and Financial Reporting for Non-exchange Financial Guarantees*. The provisions of this statement are effective for financial statements for reporting beginning after June 15, 2013. Earlier application is encouraged.

17. SUBSEQUENT EVENTS

Act. No 3 of April 4, 2013

On April 4, 2013, the Governor of Puerto Rico signed into law Act No. 3 of 2013, which represents a comprehensive reform of the ERS. Act No. 3 became effective on July 1, 2013 and amends the provisions of the different benefits structures under the ERS, including, but not limited, to the following:

- For active participants of the contributory defined benefit programs under Act No. 447 of 1951 and Act No. 1 of 1990, all retirement benefits accrued through June 30, 2013 will be frozen, and thereafter, all future benefits will accrue under the defined contribution formula used for System 2000 participants, and will be paid at retirement through a lifetime annuity.
- Increases the minimum pension for current retirees from \$400 to \$500 per month.
- The retirement age for Act No. 447 participants will be gradually increased from age 58 to age 61.

COMMONWEALTH OF PUERTO RICO
MUNICIPALITY OF JUNCOS

NOTES TO BASIC FINANCIAL STATEMENTS - (CONTINUED)

YEAR ENDED JUNE 30, 2013

17. SUBSEQUENT EVENTS (CONTINUED)

- The retirement age for current System 2000 participants is increased gradually from age 60 to age 65.
- Eliminates the "merit annuity" available to participants who joined the ERS prior to April 1, 1990.
- The retirement age for new employees is increased to age 67, except for new state and municipal police officers, firefighters, and custody officers, which will be age 58.
- The employee contribution rate will increase from 8.275% to 10%.
- For System 2000 participants, the retirement benefits will no longer be paid as a lump sum distribution, instead, they will be paid through a lifetime annuity.
- Eliminates or reduces various retirement benefits previously granted by special laws, including Christmas and summer bonuses. The Christmas bonus payable to current retirees is reduced from \$600 to \$200 and is eliminated for future retirees. The summer bonus will be eliminated.
- Disability benefits will be eliminated and substituted for a mandatory disability insurance policy.
- Survivor benefits will be modified.

In addition, the Commonwealth has proposed incremental annual contributions from the General Fund of \$140 million per year, for the next 20 years, to increase the liquidity and solvency of the ERS. An appropriation for such annual contribution has been included in the Commonwealth's proposed budget for the fiscal year 2014.

Based on current census data, expectations of market conditions and other actuarial information provided by consulting actuaries, the changes instituted by Act No. 3, along with the additional annual contributions of \$140 million to be received from the Commonwealth during the next 20 years, will be sufficient to cover the System's current and future obligations.

The successful implementation of these measures cannot be assured, as it is dependent upon future events and circumstances whose outcome cannot be anticipated.

On June 30, 2013, the Commonwealth of Puerto Rico enacted Acts No. 40 through No. 48 (also known as the Comprehensive Tax Reform Acts), which amended the following Acts,

Regulations and Codes: 1) the Puerto Rico Insurance Code under Act No. 77 of June 19, 1957, as amended, 2) the Property Tax Act under Act No. 83 of 1991, 3) the Savings and Loans Cooperatives Act under Act No. 255 of 2002, as amended, 4) the Puerto Rico Sales Tax Financing Corporation (COFINA) Act under Act No. 91 of 2006, 5) several articles of Act No. 1 of 2011 (also known as the Internal Revenue Code for a New Puerto Rico), 6) the Fiscal Reform Act of 2006 under Act No. 103 of 2006, 7) Act No. 164 of 2001, and 8) Act No. 221 of May 15, 1948. All these amendments are designed to achieve, among other things, an expansion of the revenue base of the general fund of the Commonwealth of Puerto Rico, and are expected to bring additional and consistent tax revenue. The aforementioned amendments involve, among other changes, the imposition of the sales and use taxes to certain business to business transactions, as defined, previously excluded, and other procedural changes (Acts No's. 40 and 42).

Act. No. 18 of 2014

On January 24, 2014, was signed the Act No. 18 of 2014, to create the "Law of Municipal Administration Fund", to establish a special fund called the Municipal Administration, authorize municipalities to pledge the funds deposited in the Local Government Fund to which they are to secure the repayment of any loan, bond, note or other evidence of debt, whose repayment source are the funds deposited in the Special Fund and to meet any expenditure budget of the municipality and the municipality any activity or project, authorize the Government Development Bank for Puerto Rico to make disbursements for the purposes set out in this Act, amend paragraph (b) of Section 4020.01, amend paragraph (b) of Section 4020.02, and amend paragraph (a) and to repeal paragraph (e) of Section 6080.14 of the Act No. 1-2011, as amend, known as the "Internal Revenue Code for a New Puerto Rico", in order to restructure the sales and use tax so that the tax rate is six (6) percent state level and one (1) percent at the municipal level.

Act. No 19 of 2014

On January, 24, 2014, the Commonwealth of Puerto Rico enacted Act No. 19 (also known as the Municipal Financing Corporation Act), to authorize the creation of a public corporation and instrumentality of the Commonwealth of Puerto Rico, attached to the Government Development Bank for Puerto Rico known as "Municipal Financing Corporation" (COFIM, by its acronyms in Spanish), with the power to issue and/or use other mechanisms to pay or refinance the debt incurred by the municipalities, whose payment of principal and interest is supported by municipal sales and use taxes; establish that the first collections of municipal sales and use tax of one percent (1%) will be collected by municipalities and deposited directly to the Redemption Fund of the Municipal Financing Corporation; establish that bonds and obligations issued by the "Municipal Financing Corporation" will be payable and secured by the pledge of the greater of (i) a fixed amount of the municipal sales and municipal tax or (ii)

NOTES TO BUDGETARY COMPARISON SCHEDULE - GENERAL FUND

YEAR ENDED JUNE 30, 2013

1. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

a. Budgetary Control

The Municipality's annual budget is prepared on the budgetary basis of accounting, which is not in accordance with USGAAP, and represents departmental appropriations recommended by the Mayor and approved by the Municipal Legislature prior to the beginning of the fiscal year. Amendments to the budget require the approval of the Municipal Legislature. Transfers of appropriations within the budget, known as Mayor's Resolutions, do not require the approval of the Municipal Legislature.

The Municipality prepares its annual budget including the operations of the general fund.

For budgetary purposes, encumbrance accounting is used. The encumbrances (i.e., purchase orders, contracts) are considered expenditures when incurred. For USGAAP reporting purposes, encumbrances outstanding at year-end are reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be honored during the subsequent year.

The unencumbered balance of any appropriation at the end of the fiscal year will lapse at the end of such fiscal year. Other appropriations, mainly capital project appropriations, are continuing accounts for which the Municipal Legislature has authorized that an unspent balance from the prior year be carried forward and made available for current spending.

**NOTES TO THE FINANCIAL DATA SCHEDULES
YEAR ENDED JUNE 30, 2013**

1. BASIS OF PRESENTATION

The accompanying Financial Data Schedule (FDS) presents the financial position of the Section 8 Housing Choice Voucher Program, administered by the Municipality. The FDS was created in order to standardize the financial information reported by the Public Housing Authorities (PHA) to the Real Estate Assessment Center (REAC) as required by the Uniform Financial Reporting Standards (UFRS). REAC is the US Department of Housing and Urban Development (HUD) national management center created to assess the condition of HUD owned and assisted properties. The UFRS are rules to implement requirements of 24 CFR, Part 5, Subpart H, for the electronic filing of financial information to HUD.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

In accordance with the guidelines for reporting and attestation requirements of UFRS, the accompanying FDS is included as information supplementary to the financial statements. It was prepared using the accrual basis of accounting, as required by REAC regulations.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

**To the Honorable Mayor and
the Municipal Legislature
Autonomous Municipality of Juncos
Juncos, Puerto Rico**

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Governmental Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the **Autonomous Municipality of Juncos**, Puerto Rico, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the **Municipality's** basic financial statements and have issued our report thereon dated March 28, 2014.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the **Autonomous Municipality of Juncos'** internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the **Autonomous Municipality of Juncos'** internal control. Accordingly, we do not express an opinion on the effectiveness of the **Autonomous Municipality of Juncos'** internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as item **13-01** that we consider to be a significant deficiency.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS (CONTINUED)

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the **Autonomous Municipality of Juncos'** financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Autonomous Municipality of Juncos' Response to Findings

The **Autonomous Municipality of Juncos'** response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. **Autonomous Municipality of Juncos'** response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY
OMB CIRCULAR A-133**

**To the Honorable Mayor and
the Municipal Legislature
Autonomous Municipality of Juncos
Juncos, Puerto Rico**

Report on Compliance for Each Major Federal Program

We have audited **Autonomous Municipality of Juncos'** compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of **Autonomous Municipality of Juncos'** major federal programs for the year ended June 30, 2013. **Autonomous Municipality of Juncos'** major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of **Autonomous Municipality of Juncos'** major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about **Autonomous Municipality of Juncos'** compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of **Autonomous Municipality of Juncos'** compliance.

Opinion on Each Major Federal Program

In our opinion, **Municipality** complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY
OMB CIRCULAR A-133 (CONTINUED)**

Report on Internal Control Over Compliance

Management of the **Autonomous Municipality of Juncos**' is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the **Autonomous Municipality of Juncos**' internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the **Autonomous Municipality of Juncos**' internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Section II - Financial Statements Findings

Finding Reference	13-01
Requirement	Financial Reporting - Accounting Records
Statement of Condition	<p>During our examination of the Municipality's accounting system, we noted that the Municipality's accounting records for Local, State and Federal funds does not provide modified basis financial statements. Also, the accounting system does not offer subsidiaries to produce government wide financial statements. The computerized system provided by the Office of Commissioner of Municipal Affairs (OCAM) and manual system maintained by the finance department personnel do not provide adequate and effective financial information to generate the basic financial statements since the accounts balances were affected by accounting errors in the first years of the system operations.</p> <p>Therefore, the Municipality's hires the professional services of local accounting firms to perform the required adjustment entries to convert its accounting records from cash basis to modified and then to accrual basis and compile the necessary information as required by GAAP and Law 81.</p>
Criteria	<p>Chapter VIII, Article 8.010 of the State Act Number 81 of August 30, 1991 states that the Municipality should maintain an effective and updated accounting system.</p>
Cause of Condition	<p>The Municipality accounting data is not summarized in the form of a double-entry General Ledger record.</p>
Effect of Condition	<p>The Municipality accounting system did not provide updated and complete financial information that present the financial position and the result of operations and the change in fund balances. Such information is necessary to take management decisions.</p>
Recommendation	<p>We recommend to the Municipality management to implement internal control and procedures in order to maintain a double entry accounting system that contains accurate information pertaining to authorizations, obligations, unobligated balances, assets, liabilities, outlays or expenditures, interfund transactions, etc.</p>
Questioned Costs	<p>None</p>

Finding Reference **13-01 (Continued)**

**Management Response
and Corrective Action**

The Municipality maintains two set of accounting records; a manual system and a computerized system provided in the past by the Office of the Commissioner of Municipal Affairs (OCAM). Actually, all of the transactions were recorded in both systems, but the manual system is the primary financial records for financial statements preparation purposes at the end of each fiscal year due to the fact that the computerized system real accounts balances carried forward from prior years were affected by accounting errors in the first years of the system operation.

Nevertheless, as part of the corrective action plan, the Commissioner of Municipal Affairs ("OCAM") consider alternatives to improve the accounting system, including the acquisition of new accounting software, and therefore, we will hope to solve our accounting system condition in a near future.
